Subject: Label Amendment – Changes Required by the Boric Acid
Interim Registration Review Decision
Product Name: Chlorinizer Plus
EPA Registration Number: 67262-26
Received Date: 11/30/2018
Decision Number: 549079

Dear Ashley Ashe:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Boric Acid Amended Interim Registration Review Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639 or via email at snyderman.megan@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Gayoso', is centered on the page.

Jose Gayoso, Senior Regulatory Advisor
Reevaluation Branch
Antimicrobials Division (7510P)
Office of Pesticide Programs

CHLORINIZER PLUS

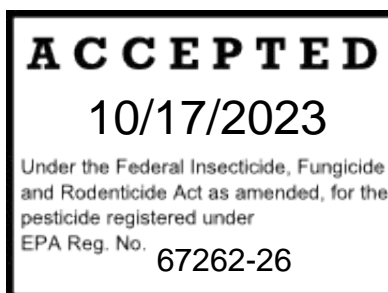

ACTIVE INGREDIENTS:

Trichloro-s-triazinetriene* 72.7%
Boron sodium oxide(B₄Na₂O₇) pentahydrate 9.4%

OTHER INGREDIENTS: 17.9%

TOTAL 100.0%

*Available Chlorine...66%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See [back] [side] panel for additional Precautionary Statements.

{OPTIONAL MARKETING STATEMENTS, TO USE ONE OR MORE OF THE FOLLOWING}

- [Patented Technology]
- [Multi Functional]
- [Kills Algae]
- [Kills Bacteria]
- [Kills Algae and Bacteria]
- [Dual Active Sanitizing System]
- [Sanitizer / Clarifier / Algae Protection]
- [Granular Chlorine]
- [Concentrated]
- [Shock]

WHY TO USE THIS PRODUCT:

This multi-functional product is a convenient and economical source of chlorine for routine sanitizing or for periodic superchlorinating (shocking) of your pool. This easy-to-use product dissolves completely and does not contain calcium that can cloud your water.

IMPORTANT NOTE:

When using other products, as outlined in directions for this product, always follow label directions for those products.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.**

APPLICATION METHOD: [Use the enclosed dry, clean cup to apply this product. Do not use this cup for any other purpose.] Slowly add the recommended dosages of this product into the skimmer with the filter pump running in the normal filtration mode. Continue to operate the pump for at least 2 to 4 hours following application. **Never broadcast this product into pools with bleachable surfaces, including vinyl, painted, fiberglass, or colored plaster.**

IN WHITE PLASTER POOLS ONLY, this product may be broadcast evenly into the deepest part of the pool.

DO NOT PREDISSOLVE. DO NOT MIX THIS PRODUCT WITH ANY OTHER CHEMICAL ESPECIALLY CALCIUM HYPOCHLORITE OR SHOCK PRODUCTS.

ROUTINE TREATMENT: Adjust and always maintain pH between 7.2 and 7.6. According to APPLICATION METHOD outlined above, add 2 to 4 oz. of this product per 10,000 gallons of pool water every other day or as often as needed to maintain a 1 to 3 parts per million (ppm) chlorine residual.

INITIAL STARTUP: Adjust and always maintain pH between 7.2 and 7.6. Brush all pool surfaces with filter pump operating. According to APPLICATION METHOD outlined above, add 1 lb. (16 oz.) of this product per 10,000 gallons of pool water. After one hour, test chlorine residual with a pool test kit or test strips. Repeat dosage until a chlorine residual of 1 to 3 ppm is maintained. Balance pool water using WATER BALANCE recommendations.

SHOCK TREATMENT: Shock treatment may be needed when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occurs. Adjust and always maintain pH between 7.2 and 7.6. According to APPLICATION METHOD outlined above, add 1 lb. (16 oz.) of this product per 10,000 gallons of pool water. Do not reenter pool until chlorine residual is 1 to 3 ppm.

ALGAE TREATMENT: Adjust and always maintain pH between 7.2 and 7.6. With filter pump operating, brush algae from pool surfaces. According to APPLICATION METHOD outlined above, add 1 lb. (16 oz.) of this product per 10,000 gallons of pool water. If necessary, repeat the treatment. Do not reenter pool until chlorine residual is 1 to 3 ppm.

{Optional Section for Winterization:}

[WINTERIZATION: See your retailer for an appropriate winter treatment products.]

{Optional Section for Winterization:}

[WINTERIZATION: This product may be used as the chlorination portion of a winterization treatment. Adjust and always maintain pH between 7.2 and 7.6. According to APPLICATION METHOD outlined above, add 1 lb. (16 oz.) of this product per 10,000 gallons of pool water. Consult your retailer about additional winterization products and complete winterizing instructions for your type pool and weather conditions.]

WATER BALANCE: Optimum product performance, swimmer comfort, and crystal clear water will be achieved using the following recommendations. Check pH, alkalinity, and calcium hardness with a pool water test kit or test strips. Adjust pH between 7.2 and 7.6, alkalinity between 100 and 150 ppm, and calcium hardness between 200 and 250 ppm. ***{Optional Statement}*** [A minimum level of 20 ppm cyanuric acid is recommended to reduce the degradative effects of sunlight on chlorine.]

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of body injury.

DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL USES - Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

STORAGE AND DISPOSAL:

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling if available or place in trash.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses, protective clothing and use rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms.

In the Directions for Use section see specific “Discharge Directions for Commercial and Residential Pool Uses.”
