[PATENTED TECHNOLOGY]  
 [Made in USA]

***{Directions to be used for shock application, Option A}***

**WHY TO USE THIS PRODUCT:** This premium shock product is easy to use and performs multiple, important maintenance functions. Shock Plus® effectively oxidizes during shock treatment organic contaminants that cause cloudy water, musty odors and eye irritation by utilizing advanced patented technology. This technology combines oxidizers, water clarifiers, flocculants and buffers to provide crystal clear water with no cloudy residue and without increasing pH like ordinary shock products.

Shock Plus is designed for use in all pool types by adding the product directly to the pool without pre-dissolving. Because it dissolves rapidly and performs multiple maintenance functions, this product works fast and effectively, allowing swimming to resume in as little as 15 minutes.\* Shock Plus is ideal for both last minute and routine maintenance applications.

⚠ DO NOT mix Shock Plus directly with any other shock products or pool chemicals, as violent reactions could occur. Shock Plus must be applied directly into the pool water. DO NOT pre-dissolve Shock Plus.

**IMPORTANT NOTES:**

1. When using other products, always follow label directions for those products.
2. As with other products, this product may promote metal stains on pool surfaces. Always check water for metal content and if present, remove metals with a stain and scale inhibitor prior to the addition of this product.
3. This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [Pool Time] [Aqua Chem] product specifically formulated for those purposes.

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**BEFORE YOU BEGIN:**

**NOW USE THIS PRODUCT:**

**Routine Maintenance**

1. [With pump operating, apply 1 lb. of Shock Plus per 12,000 gallons directly into pool.] *{and/or}* [For small vinyl pools, with pump operating, apply 3.5 teaspoons of Shock Plus per 500 gallons or 1.3 ounces per 1,000 gallons directly into pool.\*\*] DO NOT pre-dissolve Shock Plus. Wind, rain, increased water temperature and the number and frequency of bathers can cause cloudy water, unpleasant odors or eye irritation which may require additional application(s) of this product. Follow routine maintenance instructions.

**\* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.**
