

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, DC 20460

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

December 14, 2021

Jacqueline Sumski Authorized Representative Recreational Water Products, Inc. c/o Delta Analytical Corp. 12510 Prosperity Drive, Suite 160 Silver Spring, MD 20904

Subject: Label Amendment – Additional label use directions Product Name: RWP Shock Plus EPA Registration Number: 67262-27 Received Date: 07/16/2021 Action Case Number: 00311362

Dear Ms. Sumski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Page 2 of 2 EPA Reg. No. 67262-27 Action Case Number 00311362

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Melanie Bolden by phone at (202) 566-0674, or via email at Bolden.Melanie@epa.gov.

Sincerely,

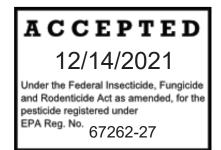

Demson Fuller, Product Manager 32 Regulatory Management Branch I Antimicrobials Division (7510P) Office of Pesticide Programs

RWP SHOCK PLUS[®]

ACTIVE INGREDIENT:Sodium dichloro-s-triazinetrioneOTHER INGREDIENTSTOTAL INGREDIENTS100.0%(Available Chlorine: 37%)

KEEP OUT OF REACH OF CHILDREN DANGER

See [back] [side] panel for additional Precautionary Statements.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [1-866-366-5048] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

{Directions to be used for shock application, Option A}

[WHY TO USE THIS PRODUCT: This premium shock product is easy to use and performs multiple, important maintenance functions. Shock Plus[®] effectively oxidizes during shock treatment organic contaminants [([such as] [body & suntan oils] [body oils] [suntan oils], [sweat] [perspiration], lotions and urine)] that cause cloudy water and musty odors by utilizing advanced proprietary technology. This technology combines oxidizers, water clarifiers, flocculants and buffers to provide crystal clear water with no cloudy residue and without increasing pH like ordinary shock products.

Shock Plus is designed for use in all pool types by adding the product directly to the pool without predissolving. Because it dissolves rapidly and performs multiple maintenance functions, this product works fast and effectively, allowing swimming to resume in as little as 15 minutes.* Shock Plus is ideal for both last minute and routine maintenance applications.]

{or}

[WHY TO USE THIS PRODUCT: Swimming pool shock treatment.]

△ DO NOT mix Shock Plus directly with any other shock products or pool chemicals, as violent reactions could occur. Shock Plus must be applied directly into the pool water. DO NOT pre-dissolve Shock Plus.

IMPORTANT NOTES:

- 1. When using other products, always follow label directions for those products.
- 2. As with other products, this product may promote metal stains on pool surfaces. Always check water for metal content and if present, remove metals with a stain and scale inhibitor prior to the addition of this product.
- 3. [This product is not a sanitizer or algicide. To sanitize your pool or for removal of algae, use the appropriate [Pool Time] [Aqua Chem] product specifically formulated for those purposes.]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE YOU BEGIN:

- 1. Make sure all pool equipment is working properly.
- 2. Backwash filter following manufacturer's directions.
- 3. Check alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 80 125 for plaster pools and 125 150 for vinyl and fiberglass pools. Adjust pH to 7.2 7.6. Adjust calcium hardness to 200 275 for plaster pools and 175 225 for vinyl and fiberglass pools.

[To Shock Water [Clear]:] [NOW USE THIS PRODUCT:] Routine Maintenance

 [With pump operating, apply 1 lb. [(2, 8oz cups)] {for use if product is not in premeasured bag} of Shock Plus per 12,000 gallons directly into pool. [****]] {or} [{for use if product is in 13.4 ounce premeasured bag} With pump operating, apply 1 bag of Shock Plus per 10,000 gallons directly into pool.] {and/or} [For small vinyl pools, with pump operating, apply 3.5 teaspoons of Shock Plus per 500 gallons or 1.3

ounces per 1,000 gallons directly into pool.***] DO NOT pre-dissolve Shock Plus. DO NOT apply

Shock Plus through skimmer or chemical feeding device as other chemicals may be present which could result in a violent reaction.

- 2. Wait at least 15 minutes after product application before entering pool.*
- 3. Operate pump and filter continuously for 4 to 8 hours after product addition.
- 4. For best results, apply Shock Plus weekly as part of your maintenance routine.

[***Use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children. 3 teaspoons equals 1 tablespoon. 1.75 tablespoons equals 1 ounce.] [****Always apply this product in its dry form using a clean dry plastic cup or scoop. Do not use this cup for any other purpose.] *{for use if product is not in premeasured bag}*

Additional Applications:

Wind, rain, increased water temperature and the number and frequency of bathers can cause cloudy water and unpleasant odors which may require additional application(s) of this product. Follow routine maintenance instructions.

[To Kill Algae:

- Brush pool surfaces while filter and pump are operating.
- [Add 1 lb. per 12,000 gallons directly to the pool water in areas of heaviest algae growth, operate filter and pump for 24 hrs.] {*or*} [*{for use if product is in 13.4 ounce premeasured bag}* Add 1 bag per 10,000 gallons directly to the pool water in areas of heaviest algae growth, operate filter and pump for 24 hrs.] Hold bag no more than 3 feet over pool surface.
- Repeat brushing.
- Do not enter the pool until the free available chlorine residual is 1-4 ppm.
- Product can be re-applied after 72 hours if necessary.]

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

FOR POOL CLOSURE:

Apply Shock Plus at a rate of [1 lb. per 6,000 gallons] {or} [{for use if product is in 13.4 ounce premeasured bag} 1 bag per 5,000 gallons] before closing pool for the winter. Apply an appropriate winter algaecide after addition of this product.]

[How?]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

To Shock Water Clear:

- [Add 1 lb. [(2, 8oz cups)] *{for use if product is not in premeasured bag}* per 12,000 gallons into the deepest pool area [****]] *{or}* [*{for use if product is in 13.4 ounce premeasured bag}* Add 1 bag per 10,000 gallons into the deepest pool area] {or} [Add 3.5 teaspoons per 500 gallons or 1.3 ounces per 1,000 gallons directly into pool***] while filter and pump are operating.
- DO NOT pre-dissolve, DO NOT apply through skimmer or chemical feeder, DO NOT mix with other chemicals; a violent reaction may result.
- Wait at least 15 minutes after product application before entering pool.*
- Operate pump and filter continuously for 4 to 8 hours after product addition.
- Apply more product after heavy use, high temperatures, or rain. For best results, shock pool weekly.

[***Use a clean, dedicated spoon. Keep the spoon stored out of reach of children. 3 teaspoons equals 1 tablespoon. 1 ³/₄ tablespoons equals 1 ounce.]

[****Always apply this product in its dry form using a clean dry plastic cup or scoop. Do not use this cup for any other purpose.] *{for use if product is not in premeasured bag}*

[To Kill Algae:

- Brush pool surfaces while filter and pump are operating.
- [Add 1 lb. per 12,000 gallons directly to the pool water in areas of heaviest algae growth, operate filter and pump for 24 hrs.] {*or*} [*{for use if product is in 13.4 ounce premeasured bag}* Add 1 bag per 10,000 gallons directly to the pool water in areas of heaviest algae growth, operate filter and pump for 24 hrs.] Hold bag no more than 3 feet over pool surface.
- Repeat brushing.
- Do not enter the pool until the free available chlorine residual is 1-4 ppm.
- Product can be re-applied after 72 hours if necessary.]

* TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

[To Close Pool:

- Apply this product at a rate of [1 lb. per 6,000 gallons] {or} [{for use if product is in 13.4 ounce premeasured bag} 1 bag per 5,000 gallons] into the deepest pool area while filter and pump are operating.
- Apply an appropriate winter algaecide after addition of this product.]
- [Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool closing instructions.]]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Test and balance water prior to use. Adjust pH to 7.2 – 7.6 [and free chlorine to 1-4 ppm]. [Visit [website] for [free water analysis] [and] [personalized product and dosage recommendations].]

DOSAGE:	WHEN / HOW TO) USE:	
1 LB per 12,000	(4-8)	TO SHOCK WATER CLEAR AND DESTROY ORGANIC	
GAL		CONTAMINANTS**:	
		Broadcast in pool's deepest area with filter and pump on. Run filter	
		and pump for 4-8 hrs. DO NOT pre-dissolve, DO NOT add through	
		skimmer or feeder, and DO NOT mix with other chemicals (a violent	
		reaction may result).	
	• • •	Re-entry: Wait at least 15 minutes after product application before	
		entering pool.* Enter when chlorine level is 1-4 ppm.	
		For best results: Shock pool weekly and also after heavy use, high	
		temperatures, or rain. Use at night to prevent sunlight degradation.

{Directions to be used for swimming pool winterization.}

SWIMMING POOL WINTERIZATION

This product is a unique dual action formulation which is the first step in an effective winterization program. This product both oxidizes and clarifies pool water. This quick dissolving product is suitable for use in pools of any surface type.

DO NOT mix this product directly with any other pool chemicals as violent reactions could occur. This product must be applied from the [bag] [bottle] directly into the pool water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Use 1 pound of this product for each 6,000 gallons of pool water. With the circulation system of the pool on, broadcast the entire dosage into the deep end of the pool. Brush any undissolved product off the surface of the pool with a surface compatible brush.

Continue to circulate the pool for **at least** 30 minutes before proceeding to the next step in the winterization process.

It is recommended that as part of the closing procedures, a quality winterizing [algaecide] [algicide] be applied following the application of this product. After application of the [algaecide] [algicide], continue with the closing of the pool as directed by pool manufacturer.

For mesh covered or non-covered pools, a mid-winter treatment may be required using an appropriate sanitizer.

{Simplified directions to be used for winter pool shock}

[This product is a unique dual action formulation which is the first step in an effective winterization program. This product both oxidizes and clarifies pool water. This quick dissolving product is suitable for use in pools of any surface type.]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions

Test & balance water prior to use. Adjust pH to 7.2-7.6 [and free chlorine to 1 - 4 ppm]. Additionally balance total alkalinity to 125 - 150 ppm, calcium hardness to 200 - 275 ppm as needed. Be sure to follow label directions. Visit [website] for [free water analysis] [&] [personalized product and dosage recommendations].

Use: Oxidizes and clarifies pool water.

Dosage per 12,000 gallons	When/How to Use
2 lb	 Pool Closing / Winterization 1. With the circulation system of the pool on, broadcast the entire dosage into the deep end of the pool. Brush any undissolved product off the surface of the pool with a surface compatible brush. 2. Continue to circulate the pool for at least 30 minutes before proceeding to the next step in the winterization process. 3. Apply winter [algaecide] [algicide] according to label directions. After application of the [algaecide] [algicide], continue with the closing of the pool as directed by pool manufacturer. 4. Install pool cover (if desired). For mesh covered or non-covered pools, second mid-winter treatment may be required using an appropriate sanitizer.

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of body injury.

{Directions to be used for spa and hot tub oxidizing.}

SPA AND HOT TUB OXIDIZER

This product is specially formulated to destroy unpleasant odors and corrects most cloudy conditions to restore spa water sparkle. It combines a blend of water clarifiers and water enhancing buffers. Special ingredients aid the filter in removing small suspended particles to further enhance water clarity. This product provides enhanced water clarity, improved bather comfort, and is convenient to use. It is designed to be used with all types of spa surfaces.

This product is convenient to use and dissolves quickly and completely. There is no pre-mixing required and no undissolved solids remain. (In water temperatures less than 70^{0} F, brush after applications to speed dissolving. Do not allow undissolved material to lie in contact with bleachable surfaces.) This product works with all surface types and may be used with chlorinating products, brominating products, ozone, as well as ionizers.

DO NOT mix this product directly with any other shock products or spa chemicals, as violent reactions could occur. This product must be applied from the [bag] [bottle] directly into the spa water. DO NOT pre-dissolve this product.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

- 1. Test and adjust spa water pH to 7.2 7.6 prior to application of this product.
- 2. Apply product when spa is not in use.
- 3. [Apply product at a rate of 3 tablespoons per 500 gallons.] [Apply entire 1.5 ounce packet per 500 gallons.]
- 4. With pump in operation, apply the entire treatment dosage at one time. Broadcast across water's surface. [To prevent damage to spa surface, use an appropriate brush to disperse any undissolved granules which may have settled to the bottom of the spa.]
- 5. Apply directly to spa water only. Do not add through a skimmer or any automatic dispensing device.
- 6. Add this product at least once a week. Additional applications are recommended after periods of heavy spa usage, significant rainfall or the appearance of cloudy water.

TEST CHLORINE OR BROMINE LEVEL PRIOR TO RE-ENTRY. DO NOT RE-ENTER SPA UNTIL YOUR TEST KIT READING INDICATES A CHLORINE LEVEL OF 5 PPM OR LESS OR BROMINE LEVEL OF 8 PPM OR LESS.

{Storage and Disposal directions when product is sold in bags.}

[STORAGE AND DISPOSAL: Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.]

{Storage and Disposal directions when product is sold in bottles.}

[STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.]

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. Do not breathe dust; may be harmful if inhaled. May be harmful if swallowed or absorbed through the skin. Causes skin irritation. Prolonged and frequently repeated skin contact may cause allergic reactions in some individuals. Wear protective eyewear (safety glasses, goggles) and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: CONTAINS OXIDIZING AGENTS. Do not mix with other chemicals or any other substance. DO NOT pre-dissolve or add water to this product. Always apply directly into the pool. Contamination of this product with small amounts of water or other substances may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal [bag] [container]. Isolate [bag] [container] in open air or well-ventilated area. Flood [bag] [container] and area with large volumes of water. In case of spills, scoop up and place product in pool water, then flood spilled area with large volumes of water.

Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight). ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms.

[**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions.] [**NOTE:** User assumes all responsibility for use not in accordance with directions.]
