OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

November 19, 2019

Mark Jernigan
Registration Manager, Pool
Recreational Water Products, Inc.
P.O. Box 1449
Buford, GA 30515

Subject: Notification per PRN 98-10 – Application to Add Additional Optional Marketing Statements to the Product Label.
Product Name: “Pool Time Small Pool Sanitizer”
EPA Registration Number: 67262-28
Application Date: August 21, 2019
Decision Number: 556781

Dear Mr. Jernigan,

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Michael Varco at 703-347-0403 or via email at Varco.Michael@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Demson Fuller".

for
Demson Fuller, Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510P)
Office of Pesticide Programs

{Directions for Use – Option A}

[WHY TO USE THIS PRODUCT: This product is a quick dissolving granular sanitizer. It contains stabilizer to last longer in sunlight. When applied according to label directions, this product kills bacteria, controls the growth of harmful algae and keeps wading pools [and] small splasher pools [and small vinyl pools] clean, clear and sanitized.]

[How?]

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in any manner inconsistent with its labeling. Read entire label which appears on the box for this product and use strictly in accordance with precautionary statements and directions.

ROUTINE MAINTENANCE:

1. Add one level teaspoon* of this product per 200 gallons of water as an initial treatment. [For larger pool volumes use 2.5 level teaspoons per 500 gallons.] To determine pool capacity for round pools: diameter x diameter x depth (in feet) of water x 5.9 = gallons. [For rectangular pool capacity: length x width x average depth (in feet) x 7.5 = gallons.]
2. Use test strips or a test kit to determine if the chlorine level is 1 – 4 ppm. If necessary, repeat the initial treatment at 10 to 20 minute intervals until the chlorine level reaches 1 – 4 ppm.
3. Product must be completely dissolved before allowing bathers to enter the pool.
4. Cloudy, dull water and difficulty in keeping a 1 – 4 chlorine level indicate a need to drain and refill.
5. Make sure chlorine levels are maintained at 1-4 ppm at all times during pool usage to keep the pool sanitized, even if you drain and refill daily.

Do not enter pool until product is completely dissolved and chlorine level is 1 – 4 ppm.

* Use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children.

[Retain outer package for important storage and handling information.] *{Not required if complete label is on bottle.}*

{Simplified Small Pool Directions for Use – Option B}

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in any manner inconsistent with its labeling. Read entire label which appears on the box for this product and use strictly in accordance with precautionary statements and directions.

Test and balance water prior to use. Visit [website] for [free water analysis] [&] [personalized product and dosage recommendations].

Use: Protects water against bacteria & algae for a clean, clear pool.

Dosage: 2.5 level [tsp][teaspoons] per 500 gallons.

Directions: Use a designated, clean, dry spoon that is kept out of reach of children. Add directly to water, then test and repeat dosage as needed every 10-20 min until 1-4 ppm of chlorine is reached. Continue to maintain 1-4 ppm at all times during pool usage.

Re-entry: Do not re-enter pool until product is completely dissolved and chlorine level is 1-4 ppm.

[**Drain & Refill:** For pools 1,000 gallons or less, having cloudy, dull water and difficulty maintaining 1-4 ppm indicate a drain & refill is needed.]

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust or vapor. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

{When First Aid is not located on front panel of label, it will be separated by line rules from adjacent text and be in a different color.}

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [1-866-366-5048] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight).}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

[NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.]

[NOTE: User assumes all responsibility for use not in accordance with directions.]
