Lawrenceville, GA 30043  
Electronic Transmittal: Ashley.Ashe@KIKCorp.com

Subject: Label Amendment – Changes Required by the Boric Acid  
Interim Registration Review Decision  
Product Name: Chlorinating Granules Plus  
EPA Registration Number: 67262-29  
Received Date: 11/30/2018  
Action Case Number/Decision Number: 562876

Dear Ashley Ashe,

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the boric acid amended interim decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E).

40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639 or via email at [snyderman.megan@epa.gov](mailto:snyderman.megan@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Gayoso', is centered on the page. The signature is fluid and cursive.

Jose Gayoso, Senior Regulatory Advisor  
Reevaluation Branch  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

### **Why to use this product:**

This patented, multifunctional sanitizer and shock product, when applied in dry form directly to the pool or skimmer per the label directions, kills bacteria and unsightly algae, clears up cloudy water and inhibits future algae growth. This product's patented blend of sunlight protected chlorine, special clarifier, filter enhancer, and algae inhibitor, provides the perfect solution for clear inviting pool water. [Specifically you can use this product:]

- [For routine daily chlorination (sanitation) ]
- [To superchlorinate]
- [To shock ]
- [To kill algae ]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.**

**WATER BALANCE:** Optimum product performance and swimmer comfort will be achieved if you test, adjust and maintain to the following: pH between 7.2 - 7.6, alkalinity between 80 - 125 ppm for plaster pools and 125 – 150 ppm for vinyl, fiberglass and painted pools. Calcium hardness between 200 - 250 ppm for plaster pools, and 175 – 225 ppm for vinyl, fiberglass and painted pools.

**APPLICATION METHOD:** DO NOT pre-dissolve this product before adding to pool or skimmer. DO NOT mix this product with any other products or chemicals. Always apply this product in its dry form using a clean dry plastic cup or scoop. Do not use this cup for any other purpose. This product should be applied through the skimmer or directly to pool as follows:

**Directly to Skimmer:** Add product in dry form directly through the skimmer with the basket removed and the pump running. Replace the skimmer basket and keep the pump running for at least 2 to 4 hours.

**Directly to Pool:** Add product in dry form directly to the pool water, with the pump running for at least 2 to 4 hours. If your pool has a bleachable surface, such as vinyl, colored plaster, painted or fiberglass, use skimmer application, or add directly to pool, brushing visible product until completely dissolved to avoid bleaching.

**[INITIAL STARTUP:** Use this method if you are opening your pool in the spring, the pool has not been maintained for several weeks, or if the pool is freshly filled. Brush all pool surfaces with pump operating. Following the above *Application Method*, add 1 lb. (2, 8 oz cups) of this product in dry form per 10,000 gallons of pool water. After two hours, test chlorine level (residual). Repeat dosage until you obtain a chlorine level of 1 - 4 ppm.]

**[ROUTINE CHLORINATION:** Following the above *Application Method*, add 2 to 4 oz (1/4 to 1/2, 8 oz cup) of this product in dry form per 10,000 gallons of pool water every day, every other day or as often as needed to maintain a chlorine level between 1 - 4 ppm. The amount of product required and frequency of addition will vary with the number of swimmers, water temperature and amount of rain. Operate the pump a minimum of 10 hours per day for best results.]

**[SHOCK TREATMENT:** For best results, apply product weekly as part of your maintenance routine, or when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occurs, or after heavy rain. Following the above *Application Method*, add 1 lb. (2, 8 oz cups) of this product in dry form per 10,000 gallons of pool water.]

**[ALGAE TREATMENT:** With pump operating, brush algae from pool surfaces. Following the above *Application Method*, add 1lb. (2, 8 oz cups) of this product in dry form per 10,000 gallons of pool water for light algae growth. Add 2 lb. (4, 8 oz cups) of this product in dry form per 10,000 gallons of pool water for moderate to heavy algae growth. If necessary, repeat the treatment.]

**[WINTERIZATION:** If algae is present, treat using ALGAE TREATMENT directions, then proceed as follows: To an algae free pool, add 2 lb. (4, 8 oz cups) of this product in dry form per 10,000 gallons of pool water following the above *Application Method*. Cover the pool with a pool cover and prepare heater, pump, and filter components for winter using manufacturer's recommendations.]

**Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

**DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL USES -** Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

*{Simplified use directions to be used for swimming pool sanitization product, Option B}*

[How?]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.**

- Test and balance water before using this product. Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool balancing instructions.
- If you have a vinyl liner and your water is cloudy, follow the “Add Directly to Skimmer” application method to avoid bleaching.

**Application Methods:**

**Add Directly to Skimmer:** Remove basket. Add product through the skimmer. Operate the filter and pump at least 2 to 4 hours.

**Add Directly to Pool:** Add product to the deepest area of the pool. Operate the filter and pump at least 2 to 4 hours. Brush visible product until completely dissolved to avoid bleaching.

**[To Keep Water Clean:**

**Start-up:**

- Add [16 oz.] {or} [1 lb.] per 10,000 gallons using the application methods above. Repeat as needed to establish 1-4 ppm free chlorine.

**Routine:**

- Add 2 to 4 oz. per 10,000 gallons daily or as often as needed, using the application methods above, to maintain a chlorine level between 1 - 4 ppm.
- Apply more product after heavy use, high temperatures, or rain. To keep water clear, shock pool weekly.
- Do not pre-dissolve this product before adding to pool or skimmer. Do not mix this product with any other products or chemicals.
- [Always apply this product in its dry form using a clean dry plastic cup or scoop. Do not use this cup for any other purpose.] ]

**[To Shock Water Clear:**

- Add [16 oz.] {or} [1 lb.] per 10,000 gallons while filter and pump are operating using the application methods above.
- Add more product after heavy use, high temperatures, or rain. To keep water clear, shock pool weekly.
- Do not pre-dissolve this product before adding to pool or skimmer. Do not mix this product with any other products or chemicals. ]

**[To Kill Algae:**

- Brush visible algae from pool surfaces.
- For light algae, add [16 oz.] {or} [1 lb.] per 10,000 gallons using the application methods above.
- For heavy algae, add [32 oz.] {or} [2 lb.] per 10,000 gallons using the application methods above.
- Product can be re-applied after 72 hours if necessary.]

**[To Close Pools:**

- Kill any visible algae using “To Kill Algae” directions.
- Add [32 oz.] {or} [2 lb.] per 10,000 gallons into the deepest pool area using the application methods above.
- [Add an appropriate winter [algaecide] {or} [algicide] after addition of this product.]
- [Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool closing instructions.] ]

**Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

**DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL USES** - Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

*{Simplified use directions to be used for swimming pool sanitization product, Option C}*

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.**

Test & balance water prior to use. Adjust pH to 7.2-7.6 [and free chlorine to 1-4ppm]. Visit [website] for [free water analysis] [and] [personalized product and dosage recommendations].

**Use:** Protects against algae and bacteria for water that stays clean, clear & free of visible algae.

<b>Application Methods</b>	
Always apply in dry form using a designated clean, dry plastic scoop.	
<b>Skimmer</b> (recommended)	Remove basket, add product through skimmer, operate filter and pump and do not back wash for at least 2-4 [hrs][hours].
<b>Directly to water</b> (white plaster only)	Add product to deepest area of pool. Brush visible product until dissolved to avoid surface damage. Operate filter and pump for at least 2-4 [hrs][hours].
<b>Do Not</b> pre-dissolve this product before adding to skimmer or mix with any other products or chemicals.	

<b>Dosage per 10,000 gallons</b>	<b>When/How to Use</b> (apply per above application methods)
1 lb	<b>To Reach 1-4 ppm at Start-Up</b> Test and repeat application as needed to reach 1-4 ppm of chlorine.
2-4 oz	<b>To Sanitize Daily or as needed</b>
1 lb	<b>To Shock Weekly</b>
1 lb – Light algae 2 lb – Heavy algae	<b>To Kill Algae</b> <ol style="list-style-type: none"> <li>1. Brush algae from pool surfaces.</li> <li>2. Apply product per above application methods.</li> <li>3. Repeat after 72 [hrs][hours] if needed.</li> </ol>

**For best results:** Add more product after heavy rain, frequent backwashing, or partial drain/refill and shock weekly to maintain 1 – 4 ppm.

[**To Close Pool:** Add 2 lb per 10,000 gallons per above application methods. Next add algaecide per closing directions. [Visit (website) for pool closing instructions.]]

**Re-entry into treated swimming pools is prohibited above levels of 4ppm chlorine due to risk of body injury.**

**DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL USES -** Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

*{Directions to be used for superchlorination/shock product, Option A}*

**Why to use this product:**

This patented, multifunctional product, when applied in dry form directly to the pool or skimmer per the label directions, kills bacteria and unsightly algae, clears up cloudy water and inhibits future algae growth. This product's patented blend of sunlight protected chlorine, special clarifier, filter enhancer, and algae inhibitor, provides the perfect solution for clear inviting pool water. Shock treatment is needed when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occurs, or after heavy rain. [Specifically you can use this product:]

- [To superchlorinate

[How?]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL AND USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS FOR USE.**

- Test and balance water before using this product. Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool balancing instructions.
- If you have a vinyl liner and your water is cloudy, follow the “Add Directly to Skimmer” application method to avoid bleaching.

**Application Methods:**

**Add Directly to Skimmer:** Remove basket. Add product through the skimmer. Operate the filter and pump at least 2 to 4 hours.

**Add Directly to Pool:** Add product to the deepest area of the pool, operate the filter and pump at least 2 to 4 hours. Brush visible product until completely dissolved to avoid bleaching.

**To Shock Water Clear:**

- Add [16 oz.] {or} [1 lb.] per 10,000 gallons while filter and pump are operating using the application methods above.
- Add more product after heavy use, high temperatures, or rain. To keep water clear, shock pool weekly.
- Do not pre-dissolve this product before adding to pool or skimmer. Do not mix this product with any other products or chemicals.

**Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

**DISCHARGE DIRECTIONS FOR COMMERCIAL AND RESIDENTIAL POOL USES** - Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

*{Storage and Disposal directions when product is sold in bottles/buckets.}*

**[STORAGE AND DISPOSAL:** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Keep area ventilated until all fumes are gone. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling if available or place in trash.]

*{Storage and Disposal directions when product is sold in bags.}*

**[STORAGE AND DISPOSAL:** Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Keep area ventilated until all fumes are gone. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Offer for recycling if available or place in trash.]

#### **PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER:** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (safety glasses), protective clothing and use rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

*{When First Aid is not located on front panel of label, it will be separated by line rules from adjacent text and be in a different color.}*

**FIRST AID: IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment.**

**IN CASE OF MEDICAL EMERGENCY, CALL [1-877-800-5553] [1-866-366-5048].**

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL OR CHEMICAL HAZARDS CONTAINS AN OXIDIZING AGENT: DO NOT** mix with other products or chemicals. Never add water to product. Always add product in dry form directly to pool or pool skimmer. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

In the Directions for Use section see specific “Discharge Directions for Commercial and Residential Pool Uses.”

[NOTE: Buyer assumes all responsibilities for safety and use not in accordance with directions.]
