UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

JUN 20 2014

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

Mr. Mark Jernigan  
Regulatory Affairs Manager  
Recreation Water Products, Inc.  
P.O. Box 1449  
Buford, GA 30515

Subject: Swimming Pool Product Z  
EPA Reg.#: 67262-35  
Application Date: March 10, 2014  
Receipt Date: March 12, 2014

Dear Mr. Jernigan:

This acknowledges the receipt of your Amendment application dated March 10, 2014 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended.

**Proposed Amendment:**

Amend to add Optional Use Claims and Graphics and Alternate EPA establishment number. In addition to add alternate optional simplified Directions for Use with the product in swimming pools for "Swimming Pool Product Z" product label (EPA Reg#67262-35) to make easier for consumer to read, follow, and understand. The proposed label dated pin punch 3/12/14.

**General Comment:**

Based on the review of the material submitted, the label amendment for "Swimming Pool Product Z" product label (EPA Reg.#: 67262-35) is **acceptable**.

**A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and it's implementing regulation at 40 CFR 152.3.**

On pages 19-20 of the current label, company website and social networking websites (e.g., Facebook, Twitter, Google Plus, and Pinterest) were referenced. Should you wish to retain a reference to the company's or social networking websites on your label, then please be aware that such references transform these websites and associated walls, comments, etc. into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p)(2) and then make these subject to review by the Agency. If the websites and social networking walls, comments, etc. content are false or misleading, the product would be misbranded and its sale or distribution

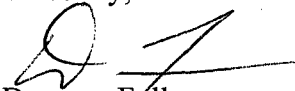

2/23

unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether websites and social networking walls, comments, etc. are referenced on your product's label, claims made on these may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company and social networking websites, if the Agency finds or if it is brought to our attention that a website, social networking wall, comment, etc contains false or misleading statements or claims substantially differing from claims approved through the registration process, the company website and social networking site may be referred to the EPA's Office of Enforcement and Compliance Assurance.

This latest amended label and a copy of this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact David Liem by email at [liem.david@epa.gov](mailto:liem.david@epa.gov) or call (703) 305-1284.

Sincerely,

Demson Fuller  
Product Manager (32)  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

**SWIMMING POOL SHOCK**

{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}

{One of the following two paragraphs will be used on the label.}

[This fast acting premium 6-in-1 shock product is easy to use and performs multiple, important maintenance functions. When used as directed, Swimming Pool Product Z effectively:

- Kills bacteria and algae [and protects against algae growth].
- Destroys organic contaminants that cause cloudy water, musty odors and eye irritation]

[Because it dissolves rapidly and is multifunctional, this product works fast and effectively, allowing swimming to resume in as little as 15 minutes.\*]

{or}

[Swimming Pool Product Z contains an oxidizer, clarifier, filtration enhancer and pH buffers to provide brilliantly clear water with no cloudy residue and without increasing pH like ordinary shock products.] [Swimming Pool Product Z is suitable for use in vinyl, plaster, Pebble Tech, [aggregate], painted plaster, colored plaster, and fiberglass pools. Swimming Pool Product Z will not discolor swimming pool surfaces when used as directed.]

[Swimming Pool Product Z provides the solution for brilliant, clear, and inviting pool water and is suitable for all pool types.]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

[Make sure all pool equipment is working properly, including pump, filter, skimmer and heater. Backwash filter following manufacturer's directions. Check alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 80-125 ppm for plaster pools; 125-150 for vinyl or fiberglass pools. Adjust pH to 7.2 – 7.6 by adding a pH decriaser or pH increaser. Adjust calcium hardness to 200-275 ppm for plaster pools; 175-225 for vinyl or fiberglass pools. When using other products as outlined in directions for this product, always follow directions on those products.]

**IMPORTANT NOTE:** DO NOT pre-dissolve Swimming Pool Product Z. As with other shock products, DO NOT apply through skimmer or chemical feeding device as other chemicals may be present which could result in a violent reaction.

{Routine Maintenance section is optional and may not be included in all labels containing Swimming Pool Shock directions.}

**[Routine Maintenance:**

1. [With pump running, pour from 3 feet high or less 1 lb. of Swimming Pool Product Z per 12,000 gallons of pool water, directly into pool around edges.] {and/or} [For small vinyl pools, with pump operating, apply 3.5 teaspoons of Swimming Pool Product Z per 500 gallons or 1.3 ounces per 1,000 gallons directly into pool\*\*.]
2. Wait at least 15 minutes after product application before entering pool.\*
3. Operate pump and filter continuously for 4-8 hrs. after product addition.
4. For best results, apply product weekly as part of your maintenance routine.
5. This product is not a sanitizer. To sanitize your pool, use the appropriate [AquaChem] [Pool Time] product specifically formulated for this purpose.]

**If Algae is Present:**

1. Vacuum leaves and any other foreign debris from pool. Brush visible algae thoroughly from pool's surface with a surface-compatible brush.
2. [With pump running, pour from 3 feet or lower 1 lb. of Swimming Pool Product Z per 12,000 gallons of pool water, directly into pool water in areas of heaviest algae growth.] {and/or} [For small vinyl pools, with pump operating, apply 3.5 teaspoons of Swimming Pool Product Z per 500 gallons or 1.3 ounces per 1,000 gallons directly into pool\*\*.]
3. Operate pump and filter continuously for 24 hrs. after product application.
4. Afterwards, repeat brushing of pool surfaces.
5. Do not enter the pool until the free available chlorine residual is 1-4 ppm.
6. If necessary repeat the treatment.

[[\*\*Use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children.] [3 teaspoons equal 1 tablespoon. 1.75 tablespoons equals 1 ounce.]]

**\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.**

{Simplified use directions to be used for swimming pool superchlorination/shock. Option B}

**SWIMMING POOL SHOCK**

[How?]

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

- Test and balance water before using this product. Adjust pH to 7.2-7.6. Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool balancing instructions.

**To Shock Water [Clear]:**

- Add 1 lb. per 12,000 gallons into the deepest pool area, operate filter and pump for 4 to 8 hours. Hold bag no more than 3 feet over pool surface.
- DO NOT pre-dissolve, DO NOT apply through skimmer or chemical feeder, DO NOT mix with other chemicals; a violent reaction may result.
- Wait at least 15 minutes after product application before entering pool.\*
- Apply more product after heavy use, high temperatures, or rain. For best results, shock pool weekly.

**[To Kill Algae:**

- Brush pool surfaces while filter and pump are operating.
- Add 1 lb. per 12,000 gallons directly to the pool water in areas of heaviest algae growth, operate filter and pump for 24 hrs. Hold bag no more than 3 feet over pool surface.
- Repeat brushing.
- Do not enter the pool until the free available chlorine residual is 1-4 ppm.
- Product can be re-applied after 72 hours if necessary.]

**\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.**

**[To Close Pool:**

- Add 1 lb. per 6,000 gallons into the deepest pool area while filter and pump are operating.
- Apply an appropriate winter [algaecide] {or} [algicide] after addition of this product.]
- [Visit [the Aqua Chem Web Site] {or} [www.aquachem.com] {or} [the Pool Time website] {or} [www.pooltime.com] for complete pool closing instructions.]]

{Simplified use directions to be used for swimming pool superchlorination/shock. Option C}

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Adjust pH to 7.2-7.6 prior to use. Visit (website) for (free water analysis) (&) (personalized product and dosage recommendations).

DOSAGE:	WHEN / HOW TO USE:
1 lb per 12,000 GAL	<p><b>TO SHOCK WATER CLEAR AND DESTROY ORGANIC CONTAMINANTS:</b></p>  <p>Broadcast in pool's deepest area with filter and pump on. Run filter and pump for 4-8 hrs. <b>DO NOT</b> pre-dissolve. <b>DO NOT</b> add through skimmer or feeder, and <b>DO NOT</b> mix with other chemicals (a violent reaction may result).  <b>Re-entry:</b> Wait at least 15 minutes after product application before entering pool.* Enter when chlorine level is 1-4ppm.  <b>For best results:</b> Shock pool weekly and also after heavy use, high temperatures, or rain. Use at night to prevent sunlight degradation.</p>

1 lb per 6,000 GAL	<p><b>TO CLOSE POOL:</b></p> <p>Broadcast in pool's deepest area with filter and pump on. Apply an algaecide per closing directions after this product. Visit (website) for complete closing instructions.</p>

\*TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.

{Optional abbreviated use directions & graphics for use on retail box containing one pound bags of product used for superchlorination. Retail box will also display complete use directions and precautionary statements on other panels when abbreviated use directions and graphics are included on retail box. Option A}

1 lb. bag treats 12,000 gallons of water.

Step One: Open a single bag of Swimming Pool Product Z by cutting along the dotted line with scissors.

Step Two: With pump operating, pour contents directly into pool while walking along the perimeter.

Step Three: Wait at least 15 minutes before entering your pool. Test chlorine levels before re-entry\*.

Be sure to operate your pump and filter continuously for 4 to 8 hours after adding Swimming Pool Product Z. For best results, apply weekly as part of your maintenance routine. Check the back of this box for more about Swimming Pool Product Z including detailed directions on application and precautionary statements.

**\* Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

{Simplified optional abbreviated use directions & graphics for use on retail box containing one pound bags of product used for superchlorination. Retail box will also display complete use directions and precautionary statements on other panels when abbreviated use directions and graphics are included on retail box. Option B}

1 lb. bag treats 12,000 gallons of water.

Step One: Open a single bag by cutting along the dotted line with scissors.

Step Two: Add 1 lb. 12,000 gallons into the deepest pool area, operate filter and pump for 4 to 8 hours. Hold bag no more than 3 feet over pool surface.

Step Three: Wait at least 15 minutes after application before entering pool\*.

- Apply more product after heavy use, high temperatures, or rain. For best results, shock pool weekly.
- Check the back of this box for more information, detailed application directions, and precautionary statements.

**\* Test chlorine levels before re-entry. Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

*{Directions to be used for swimming pool winterization.}*

**SWIMMING POOL WINTERIZATION**

*{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}*

*{One of the following two paragraphs will be used on the label.}*

[This product is a unique dual action formulation which is the first step in an effective winterization program. [Swimming Pool Product Z] *{or}* [This product] both oxidizes and clarifies pool water. This quick dissolving product is suitable for use in pools of any surface type.]

*{or}*

[This multipurpose formulation oxidizes, clarifies, and buffers all in one easy to use product, ensuring an easy spring start-up. Quick dissolving, this easy to use product is suitable for all pool surfaces. This unique formulation results in outstanding water clarity during the winter season and into spring start-up.]

May be used with chlorine, bromine, ozone and ionization systems. DO NOT use in pools sanitized with biguanides. This product is not a sanitizer. To sanitize your pool, use the appropriate [AquaChem] [Pool Time] product specifically formulated for this purpose.

**IMPORTANT NOTE:** DO NOT pre-dissolve Swimming Pool Product Z. As with other shock products, DO NOT apply through skimmer or chemical feeding device as other chemicals may be present which could result in a violent reaction.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Use 1 pound of this product for each 6,000 gallons of pool water. With the circulation system of the pool on, pour from 3 feet high or less the entire dosage into the deep end of the pool. Brush any undissolved product off the surface of the pool with a surface compatible brush.

Continue to circulate the pool for **at least** 30 minutes before proceeding to the next step in the winterization process.

It is recommended that as part of the closing procedures, a quality winterizing algacide be applied following the application of this product. After application of the algacide, continue with the closing of the pool as directed by pool manufacturer or your dealer.

For mesh covered or non-covered pools, a mid-winter treatment may be required using an appropriate [AquaChem] [Pool Time] sanitizer.

*{Directions to be used for spa and hot tub oxidizing.}*

**SPA AND HOT TUB OXIDIZER**

*{To maintain brand segmentation, two sets of marketing statements are provided to maintain separate brand identity.}*

*{One of the following two paragraphs will be used on the label.}*

[This easy to use multi-purpose shock is specially formulated to destroy eye irritants and reduce unpleasant odors. [It is designed to correct most cloudy conditions and restore spa water sparkle.] It is compatible with ozone systems. This product enhances water comfort and stabilizes pH. [Special] [Unique] [It includes] ingredients [such as water clarifiers and filter enhancers] [that] aid the filter in removing small suspended particles to further enhance water clarity.]

*{or}*

[This product is specially formulated to destroy eye irritating chloramines, unpleasant odors, and corrects most cloudy conditions to restore spa water sparkle. It combines a blend of multiple oxidizers, water clarifiers and water enhancing buffers. Special ingredients aid the filter in removing small suspended particles to further enhance water clarity. This product provides enhanced water clarity, improved bather comfort, and is convenient to use. It is designed to be used with all types of spa surfaces.]

*{One of the following two paragraphs will be used on the label.}*

[This product is convenient to use and dissolves quickly and completely. There is no pre-mixing required and no undissolved solids remain. This product works with all surface types and may be used with chlorine, bromine, ozone, as well as ionizers. DO NOT use in spas sanitized with biguanides. This product is not a sanitizer. To sanitize your spa, use the appropriate [Spa Time] product. ]

*{or}*

[This product dissolves quickly and completely. No premixing is required. This product is pH neutral and usage will not upset spa water balance. May be used with chlorine, ozone, bromine, and ionization systems. It is formulated for use with all types of spa surfaces. DO NOT use in spas sanitized with biguanides. This product is not a sanitizer. To sanitize your spa, use the appropriate [Spa Time] product.]

**IMPORTANT NOTE:** DO NOT pre-dissolve Swimming Pool Product Z. As with other shock products, DO NOT apply through skimmer or chemical feeding device as other chemicals may be present which could result in a violent reaction.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

1. Test and adjust spa water pH to 7.2 – 7.6 prior to application of this product.
2. Apply product when spa is not in use.
3. [Apply product at a rate of 3 tablespoons per 500 gallons.] {or} [Apply entire 1.5 ounce packet per 500 gallons.]{when product sold in 1.5 ounce packets}
4. With pump in operation, apply the entire treatment dosage at one time. Broadcast across water's surface.
5. Apply directly to spa water only. Do not add through a skimmer or any automatic dispensing device.
6. Add this product at least once a week. Additional applications are recommended after periods of heavy spa usage, significant rainfall or the appearance of cloudy water.

**TEST CHLORINE LEVEL PRIOR TO RE-ENTRY. DO NOT RE-ENTER SPA UNTIL YOUR TEST KIT READING INDICATES A CHLORINE LEVEL OF 5 PPM OR LESS OR BROMINE LEVEL OF 8 PPM OR LESS.**

*{Storage and Disposal directions when product is sold in bags.}*

**[STORAGE AND DISPOSAL:** Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.]

*{Storage and Disposal directions when product is sold in bottles.}*

**[STORAGE AND DISPOSAL:** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. If product becomes damp, discard, following instructions for contamination under Physical or Chemical Hazards. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.]
