

MossGuard

Active Ingredient: Metallic Zinc	99.08%
Inert Ingredients:	0.92%
TOTAL	100.00%

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

New Roofing: Apply MossGuard strip to wood or composition roofs by spot nailing so that a 3-inch exposure area is visible along each side of the ridge cap. Also apply MossGuard below chimneys and skylights or anything that blocks the flow of rain water.

Existing Roofing: Roofs with existing moss or fungus must be cleaned thoroughly prior to applying MossGuard. We recommend pressure washing to remove the existing problem.

Storage and Disposal

Do not reuse empty container. Wrap container and place in trash.

KEEP OUT OF THE REACH OF CHILDREN
