UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

JAN 30 2008

Mr. Chad Mateer
Woodstream Corporation
69 N. Locust Street
P.O. Box 327
Lititz, PA 17453-0327

Subject: Product Name: Deer Off Deer Repellent Concentrate
EPA Registration No. 67356-1
Application dated: December 12, 2007
Label Amendment to remove edible crop use language.

Dear Mr. Mateer:

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(5), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Final printed labeling means the label or labeling of the product when distributed or sold. Clearly legible reproductions or photo reductions will be accepted for unusual labels, such as those silk-screened directly onto glass or metal containers or large bags or drum labels.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions. If you have any questions contact Andrew C. Bryceland at 703-305-6928 or by e-mail at: bryceland.andrew@epa.gov. A stamped copy of the label is enclosed for your records.

Sincerely,

Linda A. Hollis

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. In case of contact, wash thoroughly with soap and water after handling.

FIRST AID

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Contact 1-800-858-7378 for emergency medical treatment advice.

ENVIRONMENTAL HAZARDS: Do not apply directly to water or to areas where surface water is present, or to intertidal areas below the mean high water mark. Keep out of lakes, streams and ponds. Do not contaminate water by equipment cleaning or waste disposal.

DEER OFF®

Protects against deer, rabbits, tree squirrels and other animals that browse and feed upon flowers, grass, bulbs, shrubs, plants, seedlings and trees. Provides dual protection. Both odor and taste barrier.

Patented Dual Deterrent System™ provides odor and taste barriers to repel deer, rabbits, tree squirrels and other animals from browsing and feeding upon flowers, grass, bulbs, shrubs, plants, seedlings and trees. Weather-resistant formula provides effective control. Reapply Deer Off® Deer Repellent Concentrate every 2 to 3 months or more often during periods when rain occurs.

[for 16 fl. oz size]

Treats up to 200 ornamental shrubs four feet tall or approximately 2000 sq. ft. or twice as much area for a periphery spray, depending on surface conditions, density and size of plantings.

5/10

MASTER LABEL-BACK PANEL (Page 3 of 7)

[for 32 fl. oz size]

Contents of 1 quart bottle make 2 gallons of spray when mixed with 7 quarts of water.

[for 1 gallon size]

Contents of 1 gallon bottle make 8 gallons of spray when mixed with 7 gallons of water.

[for 2.5 gal. size]

Contents of 2.5 gallon bottle makes 20 gallons of spray when mixed with 17.5 gallons of water.

DO NOT OVER DILUTE THIS PRODUCT.

APPLICATION DIRECTIONS: Shake container of Deer Off® Deer Repellent Concentrate spray thoroughly before use. Spray leaves, stems and branches thoroughly from all angles, until run-off or leaves look wet. Treat vulnerable plants at the beginning of each damage season. Repeat as new growth emerges, and if the effects of the previous treatment appear to be waning. Clean sprayer after each application to prevent clogging.

[for 16 fl. oz. size]

16 oz. of Deer Off® Deer Repellent Concentrate yields enough spray to treat up to 200 ornamental shrubs 4 ft. tall or an area of about 2000 sq. ft. of treated plants. Surface conditions and size of plantings will affect the size of the area that can be treated with a given quantity of spray. Before large-scale treatments, test product on a small area of each type of plant to be treated to make sure that Deer Off® Deer Repellent Concentrate will not damage the plant.

[for 32 fl. oz. size]

32 oz. of Deer Off® Deer Repellent Concentrate yields enough spray to treat up to 400 ornamental shrubs 4 ft. tall or an area of about 4000 sq. ft. of treated plants. Surface conditions and size of plantings will affect the size of the area that can be treated with a given quantity of spray. Before large-scale treatments, test product on a small area of each type of plant to be treated to make sure that Deer Off® Deer Repellent Concentrate will not damage the plant.

[for 1-gallon size]

1 gallon of Deer Off® Deer Repellent Concentrate yields enough spray to treat up to 1600 ornamental shrubs 4 ft. tall or an area of about 16,000 sq. ft. of treated plants. Surface conditions and size of plantings will affect the size of the area that can be treated with a given quantity of spray. Before large-scale treatments, test product on a small area of each type of plant to be treated to make sure that Deer Off® Deer Repellent Concentrate will not damage the plant.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used to repel deer, rabbits, tree squirrels, voles and other animals that feed on bulbs, flowers, and other plant life. Deer Off® Deer Repellent Concentrate discourages animals from feeding on bulbs dipped in concentrate formulation for 5 minutes and allowed to dry. Do not apply at temperatures below 40°F, or in wet, windy conditions.

IMPORTANT: Not for direct use on plants intended for human consumption (i.e. food plants). This product contains egg solids which may cause allergic reactions in some individuals. Do not allow spray to drift onto plants intended for human consumption.

MIXING AND DILUTION DIRECTIONS: For spraying perennials and plants, shake container of Deer Off® Deer Repellent Concentrate vigorously prior to mixing. Mix product with tap water at a ratio of 1 part Deer Off® Deer Repellent Concentrate to 7 parts water. **DO NOT OVER DILUTE THIS PRODUCT.** Do not mix a fungicide or herbicide with Deer Off® Deer Repellent Concentrate for spraying. Some antidessicants can be applied with Deer Off® Deer Repellent Concentrate to protect vegetation (test first on a small area).

APPLICATION DIRECTIONS:

BULBS: Prior to planting, remove all loose skin and other dead material from the bulb surface. Dip each bulb in undiluted solution for at least 5 minutes, allow to air-dry thoroughly, then plant treated bulbs as usual.

BULBS: Dip bulbs into undiluted Deer Off® Deer Repellent Concentrate and let soak for at least 5 minutes. Remove and allow to air-dry completely prior to planting. Once dry, plant treated bulbs as usual and spray surrounding ground area.

PERENNIALS AND PLANTS: Dilute Deer Off® Deer Repellent Concentrate solution 7:1 with water (per the directions above). Shake container containing Deer Off® Deer Repellent Concentrate diluted spray well before use. Apply when bulbs begin to bud. Spray leaves, stems, flowers and buds thoroughly from all angles, until run-off or leaves look wet.

PERENNIALS AND PLANTS: Dilute Deer Off® Deer Repellent Concentrate solution per the directions below and spray directly onto leaves, stems, buds and flowers.

8/10

MASTER LABEL-BACK PANEL (Page 6 of 7)

Apply at temperatures between 40° F and 90° F, but not under wet, windy conditions. Each application can last two to three months under normal animal pressure and weather conditions.

Treat vulnerable plants at the beginning of each damage season. For added protection, spray the surrounding ground area to help drive away pests. Reapply as any new growth emerges and when effects of previous treatment begin to fade. Clean sprayers thoroughly after each application to prevent clogging.

[for 8 fl.oz. size]

One-half pint of Deer Off® Deer Repellent Concentrate treats between 30-40 bulbs.

[For 8 fl. oz. size]

One-half pint of Deer Off® Deer Repellent Concentrate yields enough spray to treat approximately 100 perennials and plants or an area of about 1,000 sq. ft. Surface condition, size and texture of planting will affect the area of treatment with a given quantity of spray. Before large-scale treatments, test product on a small area of each plant type to avoid plant damage.

[for 16 fl.oz. size]

One pint of Deer Off® Deer Repellent Concentrate treats between 65-75 bulbs.

[For 16 fl. oz. size]

One pint of Deer Off® Deer Repellent Concentrate yields enough spray to treat approximately 200 perennials and plants or an area of about 2,000 sq. ft. Surface condition, size and texture of planting will affect the area of treatment with a given quantity of spray. Before large-scale treatments, test product on a small area of each plant type to avoid plant damage.

[for 32 fl.oz. size]

One quart of Deer Off® Deer Repellent Concentrate treats between 130-150 bulbs.

[For 32 fl. oz. size]

One quart of Deer Off® Deer Repellent Concentrate yields enough spray to treat approximately 400 perennials and plants or an area of about 4,000 sq. ft. Surface condition, size and texture of planting will affect the area of treatment with a given quantity of spray. Before large-scale treatments, test product on a small area of each plant type to avoid plant damage.
