Reg # 67419--1

1 y 3

13 APR 1995

Mr. James Burnett  
The Ecology Works  
P.O. Box 323  
San Geronimo, CA 94963

Dear Mr. Burnett:

Subject: Label Amendment  
Ecology Works Insecticide  
EPA Registration Number: 67419-1  
Applications Dated: March 6, 1995

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

- Under Directions for Use, "Remove Ecology Works Pyrethrin Treatment", since you do not have a Pyrethrin Treatment registered. However, you may suggest a EPA approved Pyrethrin for Fleas.

- Remove the sentence "Complete flea control should also include treatment of your pet with Ecology Works Pet Shampoo". Ecology Works" does not have a pesticidal pet shampoo and this statement also makes an implied claim.

If you have any questions regarding this matter, please contact Melody Banks of my staff on (703) 305-5413.

Sincerely,

151

Richard P. Keigwin, Jr.  
Product Manager 10  
Insecticide-Rodenticide Branch  
Registration Division (7505c)

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

18 APR 1985

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

67419-1

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

When mixed with water the contents of this container will treat about six 9'x 12' carpets or 600 sq ft.

**ECOLOGY WORKS Insecticide** is an effective long lasting treatment for carpet and upholstered furniture against flea infestation. **ECOLOGY WORKS Insecticide** stops the growth cycle of the flea in the larval stage ensuring long term protection. This process can take 2-5 weeks to be fully effective. For immediate short term relief in cases of severe flea infestation it may be necessary to pretreat adult fleas with **ECOLOGY WORKS Pyrethrin Treatment**, which works quickly to end the biting and gives coverage until the growth cycle is broken.

**PREPARATION OF SOLUTION:** In a clean bucket (or cleaning machine dispensing tank) mix 1 cup of **ECOLOGY WORKS Insecticide** in each gal. of water.

**APPLICATION RATE:** For control of fleas in carpet, apply 2 gal. of solution per 100 sq. ft. by using a hot water carpet cleaning machine extracting half the amount of solution applied back into the receiving tank. This process drives the solution deep into the carpet and the extractor draws out fleas and eggs that are already in the carpet. Avoid contact with carpet until dry. For control of fleas in upholstery apply **ECOLOGY WORKS Insecticide** to the under side of cushions and into the wells of upholstered furniture with a hot water carpet cleaning extraction machine using the upholstery cleaning head. Allow to dry thoroughly before replacing cushions. If upholstered furniture fabric is sensitive to moisture apply **ECOLOGY WORKS Insecticide** as a powder, dusting the wells and under cushions then remove excess powder by vacuuming.

Complete flea control should also include treatment of your pet with **ECOLOGY WORKS Pet Shampoo**.

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in a dry place. Do not store where children or animals may gain access.

**DISPOSAL:** Do not reuse empty container, wrap and place in trash collection.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid contact with eyes. Wash thoroughly after handling. Avoid contamination of food and feed. Do not leave container where children or animals may gain access.

**Statement of Practical Treatment**

**If Swallowed:** Immediately contact a physician or poison control center. If these are unavailable, give 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

**If In Eyes:** Flush with plenty of water. Contact a physician if irritation persists.

**If On Skin:** If skin is intact no treatment necessary. If skin abrasions exist wash with soap and water. Wash clothing prior to reuse. **If Inhaled:** Seek fresh air. Contact a physician if warranted.

**24 HR EMERGENCY ASSISTANCE  
1-800-228-5635**

THE ECOLOGY WORKS INC. GUARANTEES THAT THIS PRODUCT WILL CONTROL FLEAS IN CARPET FOR ONE ENTIRE FLEA SEASON (OR BETWEEN CLEANINGS) WHEN APPLIED ACCORDING TO LABEL INSTRUCTIONS OR YOUR MONEY BACK
