FLEANIX

FOR PROTECTION AND TREATMENT OF CARPET
AND UPHOLSTERED FURNITURE AGAINST FLEA INFESTATION

Guaranteed to control fleas in carpet for one
entire flea season (or between hot water
carpet cleanings) when applied according to
label instructions or your money back.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling.
When mixed with water the contents of this container will treat about six 9' x 12' carpets or 600 sq ft.
FLEANIX™ is a selective long lasting treatment for carpet and upholstered furniture against flea infestation.
FLEANIX™ stops the growth cycle of the flea in the larval stage resulting long term protection. This product can take
2-3 weeks to be fully effective.

PREPARATION OF SOLUTION

In a clean bucket or cleaning machine dispensing tank mix 1 cup of FLEANIX™ per gallon of water.

APPLICATION RATE:

For control of fleas in carpet, apply 2 gal. of solution per 100 sq. ft. by using a hot water carpet cleaning machine
extracting half the amount of solution applied back into the receiving tank. This process drives the solution deep into the
carpet and the extractor draws out fleas and eggs that are already in the carpet. Avoid contact with carpet until dry. For
control of fleas in upholstery apply FLEANIX™ to the under side of cushions and into the walls of upholstered furniture
with a hot water carpet cleaning extraction machine using the upholstery cleaning head. Allow to dry thoroughly before
replacing cushions. If upholstered furniture fabric is sensitive to moisture, apply FLEANIX™ as a powder dusting the
walls and under cushions.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labelling. When mixed with water the contents of this container will treat about six 9' x 12' carpets or 650 sq. ft.. FLEANIX™ is an effective long lasting treatment for carpet and upholstered furniture against flea infestation. FLEANIX™ stops the growth cycle of the flea in the larval stage insuring long term protection. This process can take 2-5 weeks to be fully effective.

PREPARATION OF SOLUTION:

In a clean bucket (or cleaning machine dispensing tank) mix 1 cup of FLEANIX™ in each gal. of water.

APPLICATION RATE:

For control of fleas in carpet, apply 2 gal. of solution per 100 sq. ft. by using a hot water carpet cleaning machine extracting half the amount of solution applied back into the receiving tank. This process drives the solution deep into the carpet and the extractor draws out fleas and eggs that are already in the carpet. Avoid contact with carpet until dry. For control of fleas in upholstery, apply FLEANIX™ to the under side of cushions and into the walls of upholstered furniture with a hot water carpet cleaning extraction machine using the upholstery cleaning head. Allow to dry thoroughly before replacing cushions. If upholstered furniture fabric is sensitive to moisture, apply FLEANIX™ as a powder, brushing the wells and under cushions then remove excess powder by vacuuming.

* For immediate relief in cases of severe flea infestation it may be necessary to eliminate adult fleas with a pyrethrin treatment that will work quickly to end the biting and gives short term coverage until the growth cycle is broken.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a dry place. Do not store where children or animals may gain access.

DISPOSAL: Do not reuse empty container, wrap and place in trash collection.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes. Wash thoroughly after handling.

Avoid contamination of food and feed.

Do not leave container where children or animals may gain access.

Statement of Practical Treatment

If Swallowed: Contact a physician. If unavailable, give 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

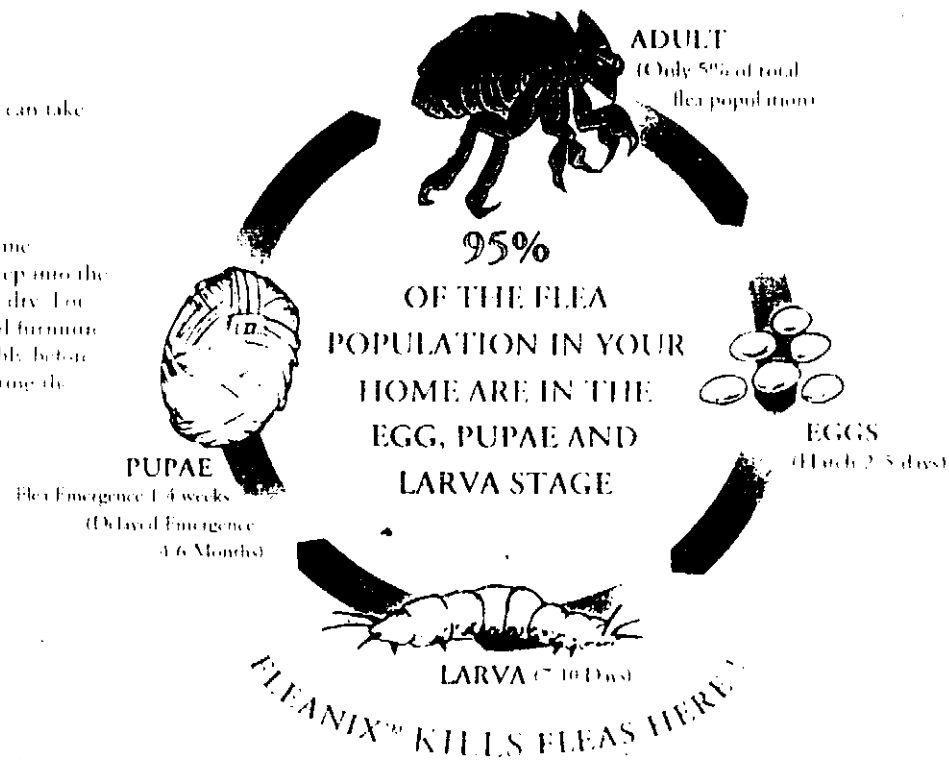

If In Eyes: Flush with plenty of water. Contact a physician if irritation persists.

If On Skin: If skin is intact no treatment necessary. If skin abrasions exist wash with soap and water.

Wash clothing prior to reuse.

If Inhaled: Seek fresh air. Contact a physician if warranted.

24 hour emergency assistance 1-800-228-5635
