U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg.
Number:

67425-16

Date of Issuance:

FEB 2 2004

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

EcoPCO D/X

Name and Address of Registrant (include ZIP Code):

EcoSMART Technologies, Inc.
318 Seaboard Lane, Suite 202
Franklin, TN 37067

Note: Changes in labeling or change in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 67425-16".

b. Change the Precautionary Statements to read:

Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling.

c. Change the statement, ✕Aircraft(not in main cabin), to read ✕Aircraft(do not use in aircraft cabins).

Signature of Approving Official:

See page 2

Date:

February 2, 2004

3. Submit two (2) copies of the revised final printed label for the record.

A copy of the Acute Toxicity review of the cocktail formulation is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Richard Gebken
Acting Product Manager 10

ENVIRONMENTAL HAZARDS

- This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment wash water or rinsate.

FIRST AID

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Have a person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off the contaminated clothing. Rinse the skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-535-5053 anytime (InfoTrac Chemical Response System) for emergency medical treatment information

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. EcoPCO® D/X is intended for indoor applications using its own container; a hand-held or power duster is also appropriate. **Shake well before using.**

For Crack/Crevise and Void Treatments: Apply uniformly in and around areas where insects may be crawling, hiding, or living. The amount to be applied will vary depending on the severity of the problem and the site treated, but should be in the range of 1 to 2 ounces per 100 square feet of surface area. Applications should include, but are not limited to, cracks/crevices and void areas around and behind interior and exterior walls, cabinets, baseboards, moldings, pipe openings, electrical outlets, stairs, window and doorframes and appliances. Repeat as necessary.

For Broadcast Treatments (Attics, Crawl Spaces, False Ceilings, etc.): Apply uniformly around the perimeter and in and around areas where insects may be hiding or living. Apply at a rate of 12 to 16 ounces per 1000 square feet of surface area, depending on the severity of the problem. Repeat as necessary.

For Wasps, Yellow Jackets and Other Stinging Insects: It is advisable to treat wasp and yellow jacket nests in the evening when insects are less active and have returned to the nest. Wear protective clothing if necessary to avoid stings. Use a hand or power duster with extension tubes in necessary. Thoroughly dust nest, entrance and surrounding areas. For best results, check nests one or two days after treatment to ensure complete kill. Remove and destroy nest to prevent emergence of newly hatched insects. If removal is not possible, retreat the nest if necessary. For nests in wall voids, drill a hole in the area of the nest, apply dust, and reseal.

For Bedbugs: Apply thoroughly to all areas where these pests are typically found including: folds, tufts and edges of mattresses, coils of springs, and cracks and hollow posts of bedsteads. Picture frame moldings and all cracks and crevices in the room should be treated.

For Outdoor Perimeter Treatments: Apply thoroughly around windows and doors, porches, screens, eaves, patios, garages, under stairways, and in crawl spaces and other areas where pests hide. To help prevent pest problems, apply thoroughly and uniformly to a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building/structure. Treat the building foundation and crawl spaces where pests may find entrance.

For Treatments in Commercial Food Handling Establishments: Applications of this product in the food areas of food handling establishments is limited to void or crack and crevice treatment. The amount to be applied will vary depending on the severity of the problem and the site treated, but should be in the range of 1 to 2 ounces per 100 square feet of surface area. Use equipment capable of applying dust directly into voids, cracks and crevices between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Repeat as necessary.

Question or Comments: Call 1-888-326-7233 weekdays, 9:00 a.m. to 5:00 p.m. CST.

Chemical Safety Information: Call 1-800-535-5053 anytime (InfoTrac Chemical Response System)

Storage & Disposal: Do not contaminate water, feed or foodstuffs by storage or disposal. Store only in original container in a cool, dry place inaccessible to children and pets. Prevent cross contamination with other pesticides. Bottles/pails: Do not reuse bottle/pail. Wrap in several layers of newspaper and discard in trash.

Limitation of Liability: EcoSMART Technologies, Inc. makes no warranties of merchantability, or of fitness for a particular purpose, nor any other expressed or implied warranty except as stated above.
