Excelsior Springs, MO 64024

Subject: Label Claim For Ferrets For:
ECTO F724
EPA Registration No.67505-5
Application dated February 4, 1999

Dear Mr. Dyer:

The proposed amendment to the registration of the product cited above under The Federal Insecticide, Fungicide And Rodenticide Act, as amended adding a claim for ferrets is acceptable subject to the comments listed below

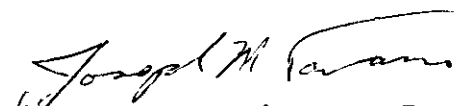

- 1) Revise the label to specify that the product is not to be used on ferrets under 16 weeks of age. The youngest animal used in the companion animal safety study was 16 weeks old.
- 2) On page 3 of the label delete the word ticks from the label.

A copy of the efficacy and companion animal safety reviews are enclosed for your records.

Submit two copies of the final label corrected in accordance with the comments listed above before the product is released for shipment under this revised labeling.

If you have any questions or comments please contact Joseph Tavano at (703) 305-6411.

Sincerely,

Joseph M. Tavano

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Hazards to Humans:

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

Hazards to Domestic Animals: For external use only. Do not use on kittens, puppies or ferret kits under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged pregnant, or nursing animals.

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bath your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals.

FIRST AID

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac. IF PERSON IS UNCONSCIOUS, DO NOT GIVE ANYTHING BY MOUTH AND DO NOT INDUCE VOMITING.

If In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not get this product in your pet's eyes or mouth. Repeat applications may be made if necessary, but do not apply more often than once every 3 weeks. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not use on kittens, puppies or ferret kits under 12 weeks of age.

HOW TO APPLY:

Dosage: For cats, kittens, dogs, puppies, ferrets, and ferret kits weighing less than 33 lbs apply one tube (dose) (1.5ml). For dogs, and puppies weighing more than 33 lbs apply two tubes (doses) (total 3 ml).

Cat, Dog and Ferret Spot-On Label (full)
Version of 1/04/99

ECTO F724

FOR FOLDING CARD OR TABBED CARD UNIT-DOSE PACKING: Remove product tab by tearing along perforation. Holding tab with tube end pointed up and away from face and body, cut along dotted line. While gently holding cat (dog, ferret, pet), use the narrow end of the tab to part cat's (dog's, ferret's pet's) hair, and apply product as a narrow stripe down cat's (dog's, ferret's pet's) back from back of head to base of tail. Squeeze tube firmly to apply all of the solution directly to cat's (dog's, ferret's pet's) skin. Continue to gently restrain cat (dog, ferret, pet) for a few seconds until product absorbs into cat's (dog's, ferret's, pet's) coat. Wrap tab and put in trash.

FOR SARAN TUBES IN BLISTER CARD: Remove product tube from package. Holding tube with notched end pointing up and away from face and body, cut off narrow end at notches. Invert tube over pet and use open end to part cat's (dog's, ferret's, pet's) hair. Squeeze tube firmly to apply all of the solution to the cat's (dog's, ferret's, pet's) skin. Wrap tube and put in trash."

**** FOR MULTI-DOSE PACKAGING:** Withdraw 1.5 ml of solution at a time. While gently holding cat (dog, ferret, pet), apply entire given dose directly to the cat's (dog's, ferret's, pet's) skin as a narrow stripe down the cat's (dog's, ferret's, pet's) back from the back of the head to the base of the tail. Continue to gently restrain cat (dog, ferret, pet) for a few seconds until product absorbs into cat's (dog's, ferret's, pet's) coat.

**** FOR DROPPER BOTTLE MULTI-DOSE PACKAGING:** Insert dropper tube into insecticide solution, squeeze bulb and then release to fill tube barrel to 1.5 ml line. While gently holding cat (dog, ferret, pet), position dropper tube end in cat's (dog's, ferret's, pet's) hair next to skin and squeeze bulb to apply entire given dose directly to the cat's (dog's, ferret's, pet's) skin. Apply as a narrow stripe down cat's (dog's, ferret's, pet's) back for the back of head to the base of the tail. Continue to gently restrain cat, (dog, ferret, pet) for a few seconds until product absorbs into cat's (dog's, ferret's, pet's) coat.

**** FOR SALE TO VETERINARIANS ONLY**

ECTO F724 is an effective and easy to use product. ECTO F724 prevents eggs from fleas on treated cats (dogs, ferrets, pets) from developing into biting adults for three months. As with all flea and tick control products, ECTO F724 should be used as part of a program aimed at reducing flea populations in the cat's (dog's, ferret's, pet's) environment (bedding, carpets, yard). For existing flea infestations, a premise treatment including an adulticide and larvacide should be used prior to treating your pet with ECTO F724. Consult your veterinarian or entomologist or retailer for program recommendations.
