PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May be absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling and before eating or smoking. Do not use on humans.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF INHALED: Remove affected person to fresh air. Apply artificial respiration if indicated.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water when disposing of wastes. Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(Rub-On Horse Insecticide contains a combination of insecticides and fly repellents in a blend of fine grooming oils. When applied as directed, horse flies, stable flies, horn flies, house flies, deer flies, mosquitoes, or gnats are repelled or killed. Flies not repelled stop biting and soon drop to the ground and die.

Apply with a cloth which is slightly moistened with the product. Use 1 to 2 ounces of Rub-On Horse Insecticide per animal each day for a 3-day period. Repeat after 2 days have elapsed and every second day thereafter or when insects again disturb the animal. Briskly rub cloth against growth of hair on legs, shanks, belly, shoulders, neck and facial area.

COLTS: Treat very lightly once a day instead of attempting to build up a residual repellency by treating more heavily.

For best fly protection, apply during morning hours; for mosquitoes apply early in evening. Dusty animals should be brushed before applying Rub-On Horse Insecticide.

343

Keep cloth in closed metal container between treatment periods.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store near heat or open flame.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
