

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

Mr. Jim Barron  
PM Resources, Inc.  
13001 St. Charles Rock Rd.  
Bridgeton, MO 63044

AUG 20 2012

Dear Mr. Barron:

Subject: Label Revisions to Reflect New Label Perimeter Restriction of 100 Feet  
and Burrow Baiting Language  
Rat Control Pellets  
EPA Registration No. 67517-23

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the above mentioned label before releasing the product for shipment.

**Note:** Should you wish to add a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. If you have questions about this letter, please contact Jennifer Gaines at (703) 305-5967 or via e-mail at [gaines.jennifer@epa.gov](mailto:gaines.jennifer@epa.gov).

Sincerely yours,

A handwritten signature in blue ink, which appears to read "John Hebert", is written over a circular stamp.

John Hebert  
Product Manager (07)  
Insecticide-Rodenticide Branch  
Registration Division (7505P)

## RAT CONTROL PELLETS

This Product May Only be Used Inside and Within 100 Feet of Agricultural and Industrial Buildings

Kills Norway Rats Roof Rats and House Mice

Sublabel A Agricultural and Industrial Use

**ACTIVE INGREDIENT**

Warfarin (CAS No 81-81-2)

**OTHER INGREDIENTS**

0.025%  
99.975%  
TOTAL 100.000%

**KEEP OUT OF THE REACH OF CHILDREN**  
**CAUTION**  
**SEE SIDE/BACK PANEL FOR ADDITIONAL**  
**PRECAUTIONARY STATEMENTS**

**MAY BE HARMFUL IF EATEN**  
**BY CHILDREN OR PETS**

EPA Reg No 67517-23

EPA Est No 67517 MO 1

NET WEIGHT 4 to 50 POUNDS

Manufactured By  
**PM RESOURCES, INC**  
13001 St Charles Rock Road  
Bridgeton MO 63044

Lot/Code/Product/Revision Numbers as Needed  
Precautionary Labeling Must Meet Type Size and Prominence Requirements

Mfg & Printed in U S A

**SIDE/BACK PANEL IMMEDIATE CONTAINER- Sublabel A**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

**CAUTION** Harmful if swallowed Keep away from children domestic animals and pets Do not get in eyes on skin or on clothing All handlers (including applicators) must wear shoes plus socks and gloves Any person who retrieves carcasses or unused bait following application of this product must wear gloves

**NOTICE** This product contains an ingredient known in the State of California to cause reproductive toxicity Wash hands thoroughly after using this product Dispose of as instructed below

**User Safety Requirements**

Follow manufacturer's instruction for cleaning/maintaining PPE If no such instructions for washables use detergent and hot water Keep and wash PPE separately from other laundry Remove PPE immediately after handling this product Wash the outside of gloves before removing As soon as possible wash hands thoroughly after applying bait and before eating drinking chewing gum using tobacco or using the toilet and change into clean clothing

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor for treatment You may also contact the Hotline Number 1 800 345 4735 for health concerns emergency medical treatment information or pesticide incidents

- If Swallowed**
- Call a poison control center doctor or HOT LINE NUMBER 1-800-345-4735 immediately for treatment advice
  - Have person sip a glass of water if able to swallow
  - Do not induce vomiting unless told to do so by a poison control center or doctor
  - Do not give anything by mouth to an unconscious person

- If in Eyes**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes
  - Remove contact lenses if present after the first 5 minutes then continue rinsing eye
  - Call a poison control center or doctor for treatment advice

- If On Skin or Clothing**
- Take off contaminated clothing
  - Rinse skin immediately with plenty of water for 15-20 minutes
  - Call a poison control center doctor or HOT LINE NUMBER 1 800-345-4735 immediately for treatment advice

**TREATMENT FOR PET POISONING**

If animal eats bait call veterinarian or 1 800-345 4735 at once

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the anticoagulant Warfarin If swallowed this material may reduce the clotting ability of the blood and cause bleeding For humans or animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times) give Vitamin K<sub>1</sub> orally or intramuscularly

---

**SIDE/BACK PANEL IMMEDIATE CONTAINER- Sublabel A**

---

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

**DIRECTIONS FOR USE**

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides.

To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

**Note:** Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait.

**USE SITES:** This product can only be used to control Norway rats, roof rats, and house mice in and within 100 feet of agricultural buildings and man-made agricultural structures constructed in a manner so as to be vulnerable to commensal rodent invasions and/or to harboring or attracting rodent infestations. Fence and perimeter baiting, beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

**USE RESTRICTIONS:** Do not place near or inside ventilation duct openings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into contact with food. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. Do not use this product in sewers. Do not broadcast bait. Do not apply further than 100 feet from buildings. Do not sell this product in individual containers holding less than 4 pounds of bait.

Burrow baiting with RAT CONTROL PELLETS is prohibited.

**SELECTION OF TREATMENT AREAS:** Determine areas where rodents will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food accessible to rodents as possible.

---

**SIDE/BACK PANEL IMMEDIATE CONTAINER- Sublabel A**

---

**APPLICATION DIRECTIONS:**

**Rats:** Apply 4 to 16 ounces of RAT CONTROL PELLETS per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days.

**DIRECTIONS FOR USE (CONTINUED)**

**Mice:** Apply 1/4 to 1/2 ounce (one to two level tablespoons) of RAT CONTROL PELLETS at 8 to 12 foot intervals. Larger placements (up to 2 ounces) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 15 days.

**Follow-Up:** Adjust the amount of bait applied to the level of rodent feeding expected at each bait placement location. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rodent activity. Maintain bait for at least one week and continue baiting until all signs of rodent activity have ceased or it becomes clear that the remaining rodents are not attracted to the bait.

Collect and properly dispose of all dead rodents and leftover bait. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

---

**STORAGE AND DISPOSAL**

---

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store only in original container in a cool, dry place inaccessible to children and pets, domestic animals or wildlife. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Dispose of empty container in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.

---

**NOTICE OF WARRANTY**

To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in strict accordance with directions for use.
