Attention: Mr. Joseph Dyer

Subject: Mouse-A-Rest Pellets
EPA Reg. No. 67517-35
Your amended application of January 24, 1997

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you make the following changes and submit one (1) copy to us before you ship your product:

1. The proposed simplification of the product name on the label from "PM RESOURCES MOUSE•A•REST™ BRAND PELLETS" to "**MOUSE-A-REST PELLETS**" is acceptable.
2. Change "form" to "from" in the third sentence of item "2." in the "**IMPORTANT:**" subsection of the "**DIRECTIONS FOR USE**".
3. Change "**SELECTIONS**" to "**SELECTION**" to make the relevant subheading read "**SELECTION OF TREATMENT AREAS**".

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

Dan Peacock, Biologist
Insecticide-Rodenticide Branch
Registration Division (H7504C)

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed or absorbed through the skin because this material may reduce the clotting ability of the blood and cause bleeding.

Do not get in eyes, on skin or on clothing. Wash arms, hands, and face with soap and water after applying and before eating and smoking. If swallowed, call a physician at once.

NOTE TO PHYSICIAN: If ingested administer Vitamin K₁, intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply this product directly to water, or to areas where surface water is present or to areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, and unconsumed bait as specified on this label.

SIDE/BACK PANEL**DIRECTIONS FOR USE (Continued)****USE RESTRICTIONS:**

This product may be used to control house mice in the sites indicted below.

Urban Areas: This product may be used in and around the periphery of homes, industrial, commercial, and public buildings, and in alleys. Do not use this product in sewers.

Non-urban Areas: This product may be used inside homes and inside agricultural buildings.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

SELECTIONS OF TREATMENT AREAS:

Determine areas where mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents and or their signs have been observed. Remove as much food as possible.

APPLICATION DIRECTIONS:

Apply ¼ to ½ ounce of bait per placement at intervals of 8 to 12 feet. Larger placements (up to 2 ounces) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.

Replace contaminated or spoiled bait immediately. Collect and properly dispose of all dead animals and leftover bait. To prevent reinfestation, eliminate food, water, and harborage as much as possible. Where a continuous source of reinfestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place away from other chemicals. Keep containers closed.

PESTICIDE DISPOSAL:

Commercial use: Wastes resulting from the use of this product should be securely wrapped in several layers of newspaper and then disposed of onsite or at an approved waste disposal facility.

Household use: Securely wrap wastes resulting from the use of this product in several layers of newspaper and discard in trash.

SIDE/BACK PANEL

STORAGE AND DISPOSAL (Continued)

CONTAINER DISPOSAL:

Commercial use: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Household use: Do not reuse bag. Wrap bag securely in several layers of newspaper and discard in trash.

NOTICE OF WARRANTY

PM RESOURCES, INC. MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED CONCERNING THIS PRODUCT OR ITS USES WHICH EXTEND BEYOND THE USE OF THE PRODUCT UNDER NORMAL CONDITIONS IN ACCORD WITH THE STATEMENTS MADE ON THIS LABEL.
