

EPA REGISTRATION NO. 67517-53	DATE OF ISSUANCE NOV 17 1995
TERM OF ISSUANCE	
NAME OF PESTICIDE PRODUCT Sanitizer Cleaner	

NOTICE OF PESTICIDE:  REGISTRATION  
 REREISTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

PM Resources, Inc.  
13001 St. Charles Rock Road  
Bridgeton, MO 63044

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similiar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration No. 67517-53."
  - b. The Precautionary Statements should read:

"Corrosive: Causes irreversible eye damage. Causes skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles, face shield or safety glasses. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse."

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

c. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention."

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth to mouth. Get medical attention."

"If swallowed: Drink promptly a large quantity of water. Avoid alcohol. Get medical attention."

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

d. Revise the "Environmental Hazards" statement to read:

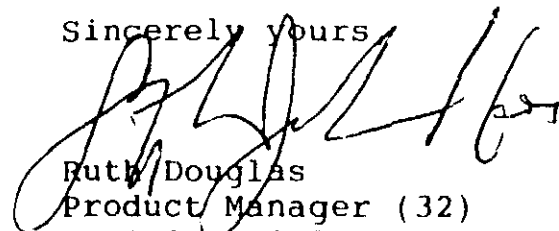

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours

Ruth Douglas  
Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (7505C)

Reason For Issue:  
New Product

Date Issued: 7/29/94 (Green)  
Prev. Date Issued: None

Front Panel

**SANITIZER CLEANER**

ACTIVE INGREDIENT:

Sodium dichloro-s-triazinetriane dihydrate .....	33.70%
INERT INGREDIENTS .....	66.30%
TOTAL	100.00%

Provides 18.9% available Chlorine

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

STATEMENT OF PRACTICAL TREATMENT (First Aid)

IF SWALLOWED: Drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately.

IF IN EYES: Flush with plenty of water. Get Medical Attention.

IF ON SKIN: Immediately brush off excess chemical and flush with plenty of water. Remove contaminated clothing. Wash clothing before reuse. If irritation persists, call a physician.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

SEE SIDE PANEL FOR DIRECTIONS FOR USE

This product has been cleared under the Federal Food, Drug and Cosmetic Act for use on food contact surfaces (178.1010 (b) (2) ).

Net Wt. 5 lbs

Manufactured by  
PM RESOURCES, INC.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER

HIGHLY CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. CAUSES BURNS TO SKIN. IRRITATING TO NOSE AND THROAT. MAY BE FATAL IF SWALLOWED.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product into sewer system with out previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.

PHYSICAL OR CHEMICAL HAZARD

STRONG OXIDIZING AGENT. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at 460 degrees F to 480 degrees F with liberation of harmful gases. Will burn with the evolution of chlorine and equally toxic gases.

Mix only with water. Use clean, dry utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberations or hazardous gases, and possible fire and explosion.

IN CASE OF FIRE: If possible, isolate container in open air or well ventilated area. Flood with large volume of water.

IN CASE OF CONTAMINATION OR DECOMPOSITION: DO NOT reseal container.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is recommended for use on hard (non-porous) surfaces or on dishes, glasses, food processing equipment or utensils including dairy and brewery equipment or utensils that need a strong sanitizer treatment with little or no cleaning action. The material is very effective on table tops, tanks, vats, floors.

## DIRECTIONS FOR USE CONTINUED

walls, dishes, glasses, metallic processing plant and restaurants. It is particularly effective on surfaces which contact food. For sanitizing pipelines, tanks, and other equipment in food and beverage processing plants, food handling establishments, industrial and institutional establishments. First thoroughly clean all areas before sanitizing. Then dissolve SANITIZER CLEANER in water to obtain 100 ppm available chlorine solution by diluting ½ ounce per 7 gallons of water. Solutions having minimum original strength of 100 ppm shall be in contact with the equipment for at least 2 minutes. The solution during the sanitizing process should not be allowed to fall below 50 ppm chlorine. No rinse is required.

Clean object to be sanitized with a suitable hard surface cleaner and rinse well with potable water to remove gross filth and heavy soil from surface. Dissolve ¾ ounce of this product per 10 gallons of water to give a solution containing 100 ppm available chlorine. Apply the sanitizing solution to the surface to be sanitized and let stand 2 to 5 minutes. The surface is then ready for use.

The same solution may be used in the feed tanks of immersion or spray type machine providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. They are ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, add more of this product to maintain a use solution of 100 ppm available chlorine.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Keep product dry in tightly closed container when not in use. Store in a cool, dry well-ventilated area away from heat or open flame. In case of decomposition, isolate container if possible, and flood with large amounts of water to dissolve all material before discarding.

**PESTICIDE:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact our State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
