SUBJECT: Application for Pesticide Notification – Addition of New Bullet Points
Assault All Weather Bait
EPA Reg. No. 67517-66
Application Dated June 19, 2007

Dear Mr. Dyer:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

Linda Arrington

NOTIFICATION

JUL 20 2007

Subject: NOTIFICATION OF (ADDITION OF NEW BULLET POINTS)
PER PR NOTICE 98-10 FOR:
ASSAULT ALL WEATHER BAIT
EPA Reg. No.: 67517-66

Dear Mr. Peacock:

In accordance with 40CFR Section 152.46, PM Resources, Inc. submits herewith an application for pesticide notification for subject product.

The purpose of this submission is to allow for a change in the label to add the the bullet points "Value Pack", "Convenient Resealable Bag" and "Contains 48 Bait Bars".

"This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations CFR 152.46, and no other changes have been made to the labeling or the confidential formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

The contents and attachments to this amendment include the following;

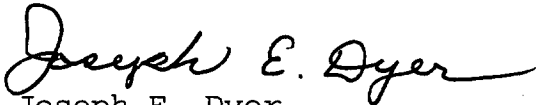

- 1) Cover Letter
- 2) Application For Pesticide Notification (EPA FORM 8570-1)
- 3) EPA Accepted Label Dated May 23, 2007
- 4) Product Label PMR66LAL (3 COPIES) Dated June 19, 2007

ASSAULT ALL WEATHER BAIT
Contains Bitrex

For Indoor and Outdoor Rodent Control
Kills Norway Rats, Roof Rats, and House Mice

For Outdoor and Indoor Use
Rats and Mice Usually consume a lethal dose in a single feeding
May take 2 or more days to die
Moisture Resistant Weather Resistant
Value Pack - Convenient Resealable Bag - Contains 48 Bait Bars

House Mice, Norway Rats and Roof Rats usually consume a lethal dose in a single night's feeding, but it may take two or more days from time of bait consumption for these rodents to die. Rodents cease feeding after consuming a toxic dose. This product is effective against anticoagulant-resistant mice and rats.

ACTIVE INGREDIENT:

Bromethalin.....	0.01%
OTHER INGREDIENTS.....	99.99%
	TOTAL 100.00%

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Keep away from humans, domestic animals and pets. May be harmful if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling bait.

FIRST AID

Have Label with you when obtaining treatment advice.

- If Swallowed
- Call a poison control center, doctor, or *HOT LINE NUMBER 1-800-858-7378 immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by the poison control center or doctor.

- If On Skin or Clothing
- Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center, doctor, or *HOT LINE NUMBER 1-800-858-7378 immediately for treatment advice.

* You may also contact HOT LINE NUMBER 1-800-858-7378 for health concerns, emergency medical treatment information or pesticide incidents.

NOTE TO PHYSICIAN

This product is not an anticoagulant type of rodenticide. If ingested, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Dogs and other predatory and scavenging mammals might be poisoned if they feed upon animals that have eaten this bait.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets or other nontarget animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may be only be used to control Norway rats, roof rats, and house mice in sewers and for use inside and against outside walls of homes, industrial and agricultural buildings, and similar man-made structures, and in alleys located in urban areas, inside transport vehicles (ships, trains, aircraft), and inside and against outside walls of related port or terminal buildings. For use in non-food/non-feed areas. Do not contaminate human or pet food preparations items or areas. Do not place near or inside ventilation duct openings. Do not broadcast bait.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

SELECTION OF TREATMENT AREAS: Determine areas where rodents will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Remove as much alternative food accessible to rodents as possible.

APPLICATION DIRECTIONS: The active ingredient in this product is different from anticoagulant rodenticides. Individual rodents cease feeding after consuming a toxic dose.

Rats: Apply 2 to 12 baits per placement. Space placements at intervals of 20 to 30 feet.

Mice: Apply 1 or 2 baits per placement. Space placements at intervals of 8 to 12 feet.

9/9

SIDE/BACK PANEL
DIRECTIONS FOR USE (CONTINUED)

Follow-Up: Adjust the amount of bait applied to the level of rodent feeding expected at each bait placement location. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rodent activity. Maintain bait for at least one week and continue baiting until all signs of rodent activity have ceased or it becomes clear that the remaining rodents are not attracted to the bait.

Collect and properly dispose of all dead rodents and leftover bait. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

=====

STORAGE AND DISPOSAL

=====

[HOUSEHOLD USE:]

STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets.

DISPOSAL: If **Empty:** Do not reuse this container. Place in trash or offer for recycling if available. If **partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place any unused product down any indoor or outdoor drain.

[NON-HOUSEHOLD USE:]

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility.

CONTAINER DISPOSAL: Dispose of empty container in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned stay out of smoke.
