 <p align="center"><b>U.S. ENVIRONMENTAL PROTECTION AGENCY</b>  <b>Office of Pesticide Programs</b>  <b>Registration Division (7505P)</b>  <b>Ariel Rios Building</b>  <b>1200 Pennsylvania Ave., NW</b>  <b>Washington, D.C. 20460</b></p>	EPA Reg. Number: 67517-66	Date of Issuance: <b>OCT 28 2009</b>
	Term of Issuance: <b>Unconditional</b>	
	Name of Pesticide Product: <b>Assault All Weather Bait</b>	

NOTICE OF PESTICIDE:  
 \_ Registration  
X Reregistration  
 (under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):  
 Mr. Joseph E. Dyer  
 PM Resources, Inc.  
 13001 St. Charles Rock RD  
 Bridgeton, MO 63044

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following comments:

**Please see pages 2, 3, and 4 for label comments.**

You must submit one (1) copy of the final printed label before you release the product for shipment. Products shipped after 12 months from the date of this Notice or the next printing of the label whichever occurs first, must bear the new revised label.

A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Jennifer Gaines at (703) 305-5967.

Signature of Approving Official:  Meredith F. Laws, Chief Insecticide-Rodenticide Branch Registration Division	Date: <b>OCT 28 2009</b>
---	-----------------------------

2015

1. On the front panel, immediately under the product name, add the statement *"This product may only be used inside and within 50 feet of buildings or inside of transport vehicles (ships, trains, or aircraft)."*
2. Change your signal word from **"CAUTION"** to **"WARNING"**.
3. Change the statement on page 1 beginning with *"May be harmful if eaten..."* to read *"May be fatal if swallowed."*
4. Revise the **PRECAUTIONARY STATEMENTS** as indicated:

**WARNING:** May be fatal if swallowed. Harmful if absorbed through the skin. Keep away from children, domestic animals, and pets. Causes moderate eye irritation. Do not get in eyes, on skin, or on clothing. All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes plus socks, and chemical resistant gloves (such as or made out of any waterproof material, selection category A). Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**Use Safety Requirements**  
Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet and change into clean clothing.

**FIRST AID**

**HAVE LABEL WHEN OBTAINING TREATMENT ADVICE**

**IF SWALLOWED:**

- Call a poison control center, doctor, or 1-800-858-7378<sup>1</sup> [optional phone numbers] immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

**IF IN EYES:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

<sup>1</sup> Also call this number for information on health concerns and pesticide incidents.  
[Include this footnote if you choose to use the associated phone number.]

30915

<p><b>TREATMENT FOR PET POISONING</b></p> <p>If animal eats bait, call veterinarian or 1-800-xxx-xxxx [optional] at once.</p>
<p><b>NOTE TO PHYSICIAN OR VETERINARIAN</b></p> <p><b>Contains the nerve poison Bromethalin.</b> This is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.</p>

5. Revise the **ENVIRONMENTAL HAZARDS** section as follows: *"This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark."*
  
6. Add the following statement to the **READ THIS LABEL** section of the **DIRECTIONS FOR USE**: *"Use only for the sites, pests, and application methods described on this label."*
  
7. Revise the **USE RESTRICTIONS** section to state: *"This product may be used only to control Norway rats, roof rats, and house mice. This product may be used in sewers and inside and against outside walls of homes, industrial and agricultural buildings, and similar man-made structures, and in alleys located in urban areas, inside transport vehicles (ships, trains, aircraft), and inside and against outside walls of related port or terminal buildings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not use in edible product areas of food or feed processing plants or other areas where food or feed is commercially prepared or processed. Do not contaminate food/feed or food/feed handling equipment or place near or inside ventilation duct openings. Do not broadcast bait. Do not sell this product in individual containers holding less than 4 pounds of bait."*
  
8. At the end of "**IMPORTANT**" and immediately before "**USE RESTRICTIONS**" add: *"Note: Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait."*
  
9. Make the following revisions to the **SELECTION OF TREATMENT AREAS** section:
  - a. Revise the first sentence to read *"Determine areas where rats and house mice will most..."*
  - b. Revise the second sentence to read *"...or in locations where rats and house mice or their signs have been seen."*
  
10. Place "**House**" before "**Mice**" in the **APPLICATION DIRECTIONS** section.
  
11. Include the following statement within the **APPLICATION DIRECTIONS** to specify sewer application directions: *"For use in sewers, thread wire through block and securely attach to a stationary structure such as the bottom step of a manhole ladder or a sewer grate. Allow just enough wire for the block to rest on manhole benching. If benching is not present, suspend*

4015

*block a few inches above the high water mark or secure block on a board supported by opposing steps of the ladder. Securing block in this manner will help reduce removal by rats or water. Use one block per manhole. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease."*

12. Remove all references to product weights that are less than 4 pounds from the label.
13. You indicate that your product is packaged in plastic material; use the following text to revise your **STORAGE AND DISPOSAL** text according to PR Notice 2007-4:

#### **STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill; or incineration. In most states, burning is not allowed.<sup>1</sup>

Stocks of product with existing labels may be used until June 4, 2011. As stated under the **Terms and Conditions of Sale and Distribution** on page 35 of the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*":

- a. Product is prohibited for sale in stores oriented towards residential consumers: Grocery, Drug, Hardware and Home Improvement. It is acceptable for sale in stores oriented toward agricultural consumers: Farm, Agricultural, Tractor Stores.
- b. Product may not be sold in packaging that holds less than 4 pounds of bait.

This product is in full compliance with the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*".

**Note:** Should you wish to add/retain a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If these conditions are not complied with, the registration will be subject to cancellation

50915

Page 5  
Notice of Reregistration (continued)  
EPA Reg. No. 67517-66

in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed. If you have any questions, please contact Jennifer Gaines by phone (703) 305-5967, or e-mail ([gaines.jennifer@epa.gov](mailto:gaines.jennifer@epa.gov)).

# ASSAULT® ALL WEATHER BAIT

Contains Bitrex

For Use In and Around Agricultural Buildings and Industrial Sites Only

~~Fast and~~ Effective Indoor and Outdoor Rodent Control  
Kills Norway Rats, Roof Rats and House Mice

Moisture Resistant Weather Resistant

## Sublabel A: Agricultural and Industrial Use

Norway Rats, Roof Rats and House Mice usually consume a lethal dose in a single feeding. It may take two or more days from time of bait consumption for rodents to die. Due to Stop Feed Action, rodents cease feeding after consuming a toxic dose. This product is effective against anticoagulant-resistant mice and rats.

### ACTIVE INGREDIENT:

Bromethalin (CAS No: 63333-35-7) ..... 0.01%

OTHER INGREDIENTS ..... 99.99%

TOTAL 100.00%

**NOTE TO PHYSICIAN**

This product is not an anticoagulant type of rodenticide. If ingested, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

---

---

**ENVIRONMENTAL HAZARDS**

This product is toxic to mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

100915

SIDE/BACK PANEL – Sublabel A

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides.

To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

**USE SITES:** This product may only be used to control Norway Rats, Roof Rats and House Mice in sewers and for use inside and against outside walls of industrial and agricultural buildings, and similar man-made structures, and in alleys located in urban areas, inside transport vehicles (ships, trains, aircraft), and inside and against outside walls of related port or terminal buildings. For use in non-food/non-feed areas.

**USE RESTRICTIONS:** Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not place near or inside ventilation duct openings. Do not broadcast bait. Bait Stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait. Do not use in homes or other human residences. Do not apply further than 50 feet from agricultural buildings. Do not sell this product in individual containers holding less than 4 pounds of bait.

**SELECTION OF TREATMENT AREAS:** Determine areas where rodents will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Remove as much alternative food accessible to rodents as possible.

**APPLICATION DIRECTIONS:** The active ingredient in this product is different from anticoagulant rodenticides. Individual rodents cease feeding after consuming a toxic dose.

**Rats:** Apply 2 to 12 baits per placement. Space placements at intervals of 20 to 30 feet.

**Mice:** Apply 1 or 2 baits per placement. Space placements at intervals of 8 to 12 feet

11/09/15

SIDE/BACK PANEL – Sublabel A

---

**DIRECTIONS FOR USE (CONTINUED)**

**Follow-Up:** Adjust the amount of bait applied to the level of rodent feeding expected at each bait placement location. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rodent activity. Maintain bait for at least one week and continue baiting until all signs of rodent activity have ceased or it becomes clear that the remaining rodents are not attracted to the bait.

Collect and properly dispose of all dead rodents and leftover bait. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

---

---

**STORAGE AND DISPOSAL**

---

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE/CONTAINER DISPOSAL:** **If Empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. **If Partially Filled:** Call your local solid waste agency for disposal instructions. Never place any unused product down any indoor or outdoor drain.

---

---

**NOTICE OF WARRANTY**

Buyer assumes all responsibility for safety and use not in accordance with directions.
