FRONT PANEL

ASSAULT MOUSE/RAT PELLETS  
Contains Bitrex  
Rodenticide Bait Pellets

For control of commensal rodents  
For Indoor & Outdoor Use  
Kills House Mice, Norway Rats and Roof Rats

House Mice, Norway Rats and Roof Rats usually consume a lethal dose in a single-night's feeding, but it may take two or more days from time of bait consumption for these rodents to die. Rodents cease feeding after consuming a toxic dose. ASSAULT MOUSE/RAT PELLETS are effective against anticoagulant-resistant mice and rats.

ACTIVE INGREDIENT:

Bromethalin: .....	0.01%
OTHER INGREDIENTS.....	99.99%
	TOTAL 100.00%

KEEP OUT OF THE REACH OF CHILDREN  
CAUTION

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling bait.

FIRST AID

---

If Swallowed

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

---

If On Skin  
Or Clothing

- Take off contaminated clothing.
- Rinse Skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

---

If In Eyes

- Hold eyes open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.]

---

Have the product container or label with you when calling a poison control center or doctor for treatment. You may also contact 1-800-858-7378 for emergency medical treatment information.

---

NOTE TO PHYSICIAN:

ASSAULT MOUSE/RAT PELLETS is not an anticoagulant type of rodenticide. If ingested, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

---

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** For control of Norway Rats, Roof Rats, and House Mice in and around homes, industrial and agricultural buildings, and similar man-made structures. This product may also be used in alleys located in urban areas, inside transport vehicles (ships, trains, aircraft), and in and around related port or terminal buildings. Do not use ASSAULT MOUSE/RAT PELLETS in Sewers. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in contact with food. Do not broadcast bait.

**SELECTION OF TREATMENT AREAS:** Determine areas where rodents will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Protect bait from rain or snow. Remove as much alternative food accessible to rodents as possible.

**APPLICATION DIRECTIONS:** The active ingredient in ASSAULT MOUSE/RAT PELLETS is different from anticoagulant rodenticides. Generally rodents cease feeding after consuming a lethal amount and die within a few days.

SIDE/BACK PANEL

DIRECTIONS FOR USE (CONTINUED)

Norway and Roof Rats: Apply 1-8 ounces of bait per placement location. Space placements at intervals of 15 to 30 feet. For burrow baiting, use ASSAULT MOUSE/RAT PLACE PACK (EPA Reg. No.: 67517-72).

House Mice: Apply 1/2 ounce to 3 ounces of bait per placement. Space placements at intervals of 8 to 12 feet. Larger placements may be needed at points of extremely high mouse activity.

Baiting Strategy: Adjust the amount of bait applied to the level of feeding by target rodents expected at each placement location. Highest bait consumption is expected to occur during the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rodent activity. Maintain bait for at least one week and continue baiting until all signs of rodent activity have ceased or it becomes clear that the remaining rodents are not attracted to the bait.

Collect and properly dispose of all dead rodents and leftover bait. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Do not reuse empty containers. Dispose of liner in a sanitary landfill or by incineration or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

NOTICE OF WARRANTY

PM RESOURCES, INC. MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED CONCERNING THIS PRODUCT OR ITS USES WHICH EXTEND BEYOND THE USE OF THE PRODUCT UNDER NORMAL CONDITIONS IN ACCORD WITH THE STATEMENTS MADE ON THIS LABEL.

OR
