Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received your label amendment of July 8, 2011. EPA grants this request under the authority of section 3(c)(5) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended.

Signature of Approving Official:

Rosanna Louie-Juzwiak
Product Manager (07)
Insecticide-Rodenticide Branch
Registration Division (7505P)

Date:

14 July 2011

Notice of Reregistration (continued)
EPA Reg. No. 67517-77

With this accepted labeling, the product meets the risk management goals of the Reregistration Eligibility Decision (RED) for the 1998 Rodenticide Cluster and the Risk Mitigation Decision for Ten Rodenticides (RMD). Therefore, EPA reregisters the product listed above. This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides.

Confidential Statement of Formula

The acceptable Confidential Statement of Formula (CSF) for this product is dated August 5, 1998 (Basic Formulation). All other versions are obsolete.

Terms and Conditions of Registration

This product is registered only subject to the registrant's commitment to control distribution of the product so that it will only be distributed to or sold in agricultural, farm and tractor stores or directly to PCOs and other professional applicators, and the registrant's commitment not to sell or distribute the product in channels of trade likely to result in retail sale in hardware and home improvement stores, grocery stores, convenience stores, drug stores, club stores, big box stores, and other general retailers.

This product may not be sold in packaging that holds less than 4 pounds of bait.

Existing Stocks Provisions

- The registrant may not distribute or sell existing stocks of this product after June 4, 2011 unless they conform to the terms and conditions of registration as amended today.
- Any person other than the registrant may sell and distribute existing stocks of this product with the previously approved label until such stocks are exhausted.
- Any person may use existing stocks of this product with the previously approved label until such stocks are exhausted.

Consequence for Non-Compliance

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

THIS BAIT STATION IS NOT TAMPER RESISTANT
Use indoors Only in Areas Inaccessible to Children and Pets

Mouse Poison Bait Station
Contains Bitrex

067517-00077.20110708

For Use in Agricultural, Industrial, and Commercial Buildings Only
Effective Indoor House Mouse Control
Kills House Mice

ACCEPTED

JUL 14 2011

Moisture Resistant Bait
**Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:**

Sublabel A: Agricultural and Industrial Use

EPA Reg. No. 67517-77

House Mice usually consume a lethal dose in a single feeding. It may take 10 or more days from time of bait consumption for House Mice to die. Due to Stop Feed Action, House Mice cease feeding after consuming a toxic dose. This product is effective against anticoagulant-resistant House Mice.

Mouse Doors: (at both ends) to remove doors, insert coin into slot in center of white disk. Rotate in direction of arrow to align coin slot to arrow on top label.

ACTIVE INGREDIENT:

Bromethalin (CAS No. 63333-35-7).....0.01%

OTHER INGREDIENTS.....99.99%

TOTAL 100.00%

**KEEP OUT OF THE REACH OF CHILDREN
CAUTION
SEE SIDE/BACK PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS**

**MAY BE HARMFUL IF EATEN
BY CHILDREN OR PETS**

Remove cover label on bottom to attach Bait Station to clean, dry surface.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

CAUTION: Harmful if swallowed or absorbed through the skin. Cause moderate eye irritation. Keep away from children, domestic animals and pets. Do not get in eyes, on skin, or on clothing.

Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

User Safety Requirements

Follow the manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

FIRST AID

Have product container or label with you when calling a poison control center or doctor for treatment. You may also contact the HOT LINE NUMBER 1-800-345-4735 for health concerns, emergency medical treatment information or pesticide incidents..

- If Swallowed**
- Call a poison control center, doctor or HOT LINE NUMBER 1-800-345-4735 immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.

- If in Eyes**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.

- If On Skin or Clothing**
- Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center, doctor, or HOT LINE NUMBER 1-800-345-4735 immediately for treatment advice.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

60413

SIDE/BACK PANEL – Sublabel A

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may only be used to control House Mice inside of industrial, commercial, and agricultural buildings. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS OR NONTARGET WILDLIFE.**

Do not use this product inside homes or residential buildings. Do not use outdoors or in sewers. Do not place this ready-to-use bait station in any area where there is a possibility of contaminating food or surfaces that come into contact with food. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food or feed. Do not break station and/or deliberately remove bait from it.

Do not sell this product in individual containers holding less than 4 pounds of bait.

SELECTION OF TREATMENT AREAS: Determine areas where House Mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where House Mice or their signs have been seen. Remove as much alternative food accessible to rodents as possible.

APPLICATION DIRECTIONS: The active ingredient in this product is different from anticoagulant rodenticides. Individual House Mice cease feeding after consuming a toxic dose.

To make bait available to mice, insert a quarter into the slot in each white circular "door" and turn counterclockwise for 1/4 turn, aligning the bumps on the doors with the arrows on the top of the station. Store the doors beside the mouse entrances by inserting the pegs on the backs of the doors through the small holes provided. Replace and "lock" doors in mouse entrances before moving or disposing of ASSAULT[®] MOUSE KILLER STATION stations.

70f13

SIDE/BACK PANEL – Sublabel A

DIRECTIONS FOR USE (CONTINUED)

House Mice: Place bait stations 8 to 12 feet apart in infested areas. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replace with new bait stations at sites where there is heavy feeding or where there is continued evidence of House Mouse activity. Continue baiting until all signs of House Mouse activity have ceased.

Follow-up: Using waterproof gloves, collect and properly dispose of all dead House Mice and used bait stations. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. To prevent accidental spillage of unconsumed bait, the safety "doors" in mouse entrances must be replaced and "locked" before moving or disposing of bait stations. Dispose of used stations in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordinances.

NOTICE OF WARRANTY

Buyer assumes all responsibility for safety and use not in accordance with directions.
