U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

67517-88

Date of Issuance:

DEC 16 2009

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Assault® Mouse Bait Station

Name and Address of Registrant (include ZIP Code):

PM Resources
13001 St. Charles Rock Rd
Bridgeton, MO 63044

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 67517-88."

Signature of Approving Official:

John Hebert, Product Manager (07)
Insecticide-Rodenticide Branch, Registration Division (7505P)

Date:

DEC 16 2009

2
15

- b. Storage stability (830.6317) and corrosion characteristics (830.6320) data must be submitted within 18 months of the date of this registration notice.
- c. Revise the "Note" on the Master Label/Cover Page (Page 1 of 1) to read: "Note: This master label bears directions and sublabels A and B for Agricultural/Industrial and Professional Uses, respectively...and user."
- d. As stated in the Agency's revised May 28, 2008 "Risk Mitigation Decision for Ten Rodenticides", place the statement "**THIS BAIT STATION IS NOT TAMPER RESISTANT...OF CHILDREN**", located at the bottom of page 1, immediately under the product name on all sublabels.
- e. Remove "fast and" from "Fast and Effective Indoor Rodent Control" on all sublabels.
- f. Revise the paragraph on page 1 to read "House mice usually consume...single feeding. It may take...for house mice to die. Due to Stop Feed Action, house mice...toxic dose. This product is effective against anti coagulant resistant house mice." Make this revision to all sublabels.
- g. Change the signal word from **CAUTION** to **WARNING** on all sublabels.
- h. Revise "**MAY BE HARMFUL IF EATEN BY CHILDREN OR PETS**" to read "**MAY BE FATAL IF EATEN BY CHILDREN OR PETS**." on all sublabels.
- i. On page 3, change the word "**CAUTION**" to "**WARNING**" on all sublabels.
- j. Revise the statement under the **HAZARDS TO HUMANS AND DOMESTIC ANIMALS** section on all sublabels to read:

WARNING: May be fatal if swallowed. Harmful if absorbed through the skin. Keep away from children, domestic animals, and pets. Causes moderate eye irritation. Do not get in eyes, on skin, or on clothing. All handlers (including applicators) must wear long-sleeved shirt, on pants, shoes plus socks, and chemical resistant gloves (such as or made out of any waterproof material, selection category A). Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements

Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and was PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet and change into clean clothing.

- k. Revise the **NOTE TO PHYSICIAN** statement on all sublabels as indicated:

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-xxx-xxxx [optional] at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use,

or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

l. Revise the **ENVIRONMENTAL HAZARDS** statement on all sublabels as follows: *"This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait."* The secondary poisoning statement is required by the RED which has been attached.

m. Add *"Use this product only for the sites, pests, and application methods described on this label."* after the sentence in **READ THIS LABEL** on all sublabels.

n. Revise the second sentence of **USE SITES** on page 4 of Sublabel A to read *"This product may only be used to control...buildings."*

o. Add the following statement to the **USE RESTRICTIONS** section on page 4 of Sublabels A and B after the sentence ending in *"...contact with food."* *"Do not use in edible product areas of food or feed processing plants or other areas where food or feed is commercially prepared or processed. Do not contaminate food/feed or food/feed handling equipment or place near or inside ventilation duct openings. Do not broadcast bait."*

p. Remove *"rodents"* from the **SELECTION OF TREATMENT AREAS** section and replace with *"house mice"*.

q. Revise the second sentence of **APPLICATION DIRECTIONS** to read *"Individual house mice...toxic dose."*

r. Insert *"House"* before *"Mice"* in the **APPLICATION DIRECTIONS**.

s. In the section titled *"Mice"*, revise the third and fourth sentences to read *"...evidence of house mouse activity. Continue baiting ...house mouse activity have ceased."*

t. Revise the first sentence of the second paragraph in the *"Mice"* section to read *"While wearing gloves, collect and properly dispose of all dead house mice and used bait stations."* on all sublabels.

u. There has been concern from some States about the use of "burning" option for disposal, thus we are trying to deter the use of "burning" language in the Storage and Disposal sections of labels. Alternative statements are enclosed with this registration.

v. Please revise your warranty statement to state *"Buyer assumes all responsibility for safety and use not in strict [optional] accordance with directions for use."*

w. Please bold **"KEEP OUT OF REACH OF CHILDREN"** and **"CAUTION:"** on page 5 of sublabel A and sublabel B. Additionally, place **"CAUTION"** and its corresponding statement on a separate line to stress its importance.

x. **"Professional (PCO) Use"**, located on Sublabel B, must be preceded by *"Intended for..."* so the statement reads ***"Intended for Professional (PCO) Use"***.

3. The same terms and conditions stated under the **Terms and Conditions of Sale and Distribution** on page 35 of the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*" apply to this product:

a. Product is prohibited for sale in stores oriented towards residential consumers: Grocery, Drug, Hardware and Home Improvement. It is acceptable for sale in stores oriented toward agricultural consumers: Farm, Agricultural, Tractor Stores.

b. Product may not be sold in packaging that holds less than 4 pounds of bait.

4. After the revisions noted above are instituted, this product will be in full compliance with the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*".

5. The Confidential Statement of Formula (CSF) dated September 1, 2009 has been found Acceptable.

6. This registration notice is only applicable to Sublabel A for agricultural and industrial use and Sublabel B which is intended for professional use. Should you wish to register this product for consumer use, a separate application will need to be submitted.

7. **Note:** Should you wish to add/retain a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

8. Submit one copy of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

EPA Est. No.: 67517-MO-1

ASSAULT® MOUSE BAIT STATION

Mouse Poison Bait Station
Contains Bitrex

For Use In Agricultural Buildings and Industrial Sites Only

Fast and Effective Indoor Rodent Control
Kills House Mice

Moisture Resistant Bait

ACCEPTED
with COMMENTS
In EPA Letter Dated
DEC 16 2009
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
67517-88

Sublabel A: Agricultural and Industrial Use

Mice usually consume a lethal dose in a single feeding. It may take two or more days from time of bait consumption for rodents to die. Due to Stop Feed Action, rodents cease feeding after consuming a toxic dose. This product is effective against anti-coagulant-resistant mice.

MOUSE BAIT TRAY & LID ASSY.

Lot/Code/Product/Revision Numbers as Needed
Precautionary Labeling Must Meet Type Size and Prominence Requirements

Mfg. & Printed in U.S.A.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling bait.

FIRST AID

Have product container or label with you when calling a poison control center or doctor for treatment. You may also contact the Hotline Number 1-800-858-7378 for health concerns, emergency medical treatment information or pesticide incidents.

- If Swallowed**
- Call a poison control center, doctor, or HOT LINE NUMBER 1-800-858-7378 immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.

- If in Eyes**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.

- If On Skin or Clothing**
- Take off contaminated clothing.
 - Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center, doctor, or HOT LINE NUMBER 1-800-858-7378 immediately for treatment advice.

NOTE TO PHYSICIAN

This product is not an anticoagulant type of rodenticide. If ingested, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: THIS IS NOT A TAMPER-RESISTANT BAIT STATION. DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, AND NONTARGET WILDLIFE

To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

USE SITES: For indoor use only. This product may be used to control house mice in industrial, commercial, and agricultural buildings.

USE RESTRICTIONS: Do not use this product in sewers or any outdoor area. Do not place this ready-to-use bait station in any area where there is a possibility of contaminating food or surfaces that come into contact with food. Do not use this product in homes or residential buildings. Do not break station open and/or deliberately remove bait from it. Do not sell this product in individual containers holding less than 4 pounds of bait.

SELECTION OF TREATMENT AREAS: Determine areas where rodents will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Remove as much alternative food accessible to rodents as possible.

APPLICATION DIRECTIONS: The active ingredient in this product is different from anticoagulant rodenticides. Individual rodents cease feeding after consuming a toxic dose.

Mice: Place bait stations 8 to 12 feet apart. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replace with new bait stations at sites where there is heavy feeding or where there is continued evidence of rodent activity. Continue baiting until all signs of rodent activity have ceased.

Collect and properly dispose of all dead rodents and used bait stations. To discourage reinfestation, limit sources of rodent food, water, and harborage as much as possible. If re-infestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

DIRECTIONS FOR USE (CONTINUED)

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Dispose of used stations in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

NOTICE OF WARRANTY

Buyer assumes all responsibility for safety and use not in accordance with directions.
