1150

Attention: Dr. Jim Barron

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

EPA received an application for this new registration on December 21, 2010. EPA grants this request under the authority of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, provided that you:

Notice of Registration (continued)  
EPA Reg. No. 67517-92

1. Submit and or cite all data required for registration/registration review of your product when the agency requires all the registrants of similar products to submit such data.
2. Submit one (1) copy of final printed labeling, with the following changes, before you release the product for shipment.
  - a. Revise your registration number to "EPA Reg. No. 67517-92".

**Reference to Website on Label**

If you add a reference to a company website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

**Confidential Statement of Formula**

The acceptable Confidential Statement of Formula (CSF) for this product is dated December 16, 2010. All other versions are obsolete.

This product is in full compliance with the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*" and is consistent with the 1998 Rodenticide Cluster Reregistration Eligibility Decision (RED) document.

**Consequence for Non-Compliance**

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of your label stamped "Accepted" is enclosed for your records. Follow the "Minimum Type Sizes for Final Printed Label" enclosure;

If you have any questions or comments regarding this letter, please contact Mr. Dan Peacock by phone (703- 305-5407) or e-mail (peacock.dan@epa.gov).

# ASSAULT<sup>®</sup> MOUSE BAIT STATION III CU D

THIS BAIT STATION IS RESISTANT TO TAMPERING BY CHILDREN  
Use Indoors Only

## DISPOSABLE MOUSE POISON BAIT STATION

Contains Bitrex

For Use in Homes and Residential Buildings

Effective Indoor House Mouse Control  
Kills House Mice

Moisture Resistant Bait

House mice usually consume a lethal dose in a single night's feeding but it may take two or more days for them to die. Due to Stop Feed Action, house mice cease feeding after consuming a toxic dose. This product is effective against anti-coagulant-resistant house mice.

ACCEPTED

JUL 18 2011

Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended, for the  
pesticide registered under:

### ACTIVE INGREDIENT:

Bromethalin (CAS No. 63333-35-7).....

#### TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

---

---

#### NOTE TO PHYSICIAN or VETERINARIAN

---

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

---

---

---

---

#### ENVIRONMENTAL HAZARDS

---

This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait.

---

---

---

### DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use this product only for sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to rodenticides.  
To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may only be used to control House Mice inside of homes and residential buildings. This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated in this label. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS.** Do not place this ready-to-use bait station in any area where there is a possibility of contaminating food or surfaces that come into contact with food. Do not place near or inside ventilation duct openings. Do not break station and/or deliberately remove bait from it.

**SELECTION OF TREATMENT AREAS:** Determine areas where house mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors and walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

**APPLICATION DIRECTIONS:** The active ingredient in this product is different from anticoagulant rodenticides. Individual house mice cease feeding after consuming a toxic dose.

**House Mice:** Place a single unit at each placement location. Space placements at 8 to 12 foot intervals. Replace units if contents are consumed or contaminated, or if units are severely damaged. If units are untouched after three days, move to new locations consistent with label text. Continue baiting until all signs of house mouse activity have ceased.

**FOLLOW UP:** Replace contaminated or spoiled bait immediately. Using waterproof gloves, collect and dispose of all dead, exposed animals and leftover bait properly. To prevent reinfestation, limit sources of food, water, and harborage for house mice as much as possible. If reinfestation does occur, repeat treatment.

---

### STORAGE AND DISPOSAL

---

**PESTICIDE STORAGE:** Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. **Never place unused product down any indoor or outdoor drain.**
