Beef and Dairy Cattle and Horses

Horn Flies, Lice, Face Flies: Place contents of this package in any commercially available dust bag. Suspend bag in areas frequented by cattle or in gateways or lanes through which the animals must pass daily for water, food or minerals. Bags may also be placed in loafing sheds or in front of mineral feeders. For dairy cows, bags may be suspended in the exit through which the cows leave the milking barn. The bags should hang 4 to 6 inches below the back line of the cattle. For reduction of face flies, bags must be located so animals will be forced to use them daily and hung at a height so that the face is dusted.

Swine

Direct Application for Lice: Apply 1 ounce per head as a uniform coat to the head, shoulders and back by use of a shaker can or suitable mechanical dust applicator. Repeat as necessary but not more often than once every 10 days. During severe infestations, treat both animals and their bedding. Do not ship animals for slaughter within 5 days of treatment.

FOR USE ONLY ON DOGS AND CATS

To Control Fleas, Ticks and Lice: Liberally apply powder over the entire body. Work dust into hair by rubbing against the lay of the hair and around the feet, pads and between the toes until dust penetrates to skin. Contact ticks with powder. Take care not to get the powder in pet's eyes, nose or mouth. Do not reapply for 10 days. Do not use on puppies or kittens under 12 weeks. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals.

Regularly dust bedding, kennel, sleeping areas, carpeting and furniture used by infested animals, applying at a rate of 3 to 6 ounces per 100 square feet. Repeat as needed, but not more often than once weekly.
