OFFICE OF
PREVENTION PESTICIDES AND
TOXIC SUBSTANCES

JUN 23 1999

Subject: CP Carbaryl Insecticide Spray-RTU
EPA Registration No. 67572-75
Amendments dated 13 May 1999 and 24 May 1999.
Notifications dated 9 July 1997, 27 August 1998 and 13
January 1999.

Dear Ms Davis:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below before you release the product for shipment bearing the amended labeling:

1). On page 2 under the heading "VEGETABLE CROPS" in the sentence defining PHI add the words "in days" so that the statement reads: "PHI refers to the minimum interval in days that must be observed between the date of the last application and date of harvest."

2). On page under the Vegetable Crop heading the PHI's of the following crops must be corrected:

Crowder peas and Southern peas- 3 day PHI

Chinese Cabbage- 14 day PHI

Dandelion and Garden Beet tops- 14 day PHI

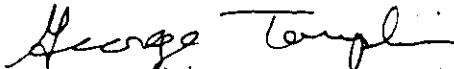

Peanuts- 14 day PHI

In reviewing the files in the jacket for the above product, it was noted that there were three notifications involving labeling changes (9 July 1997, 27 August 1998, and 13 January 1999). In the label from the 13 January 1999 notification involving the addition of the condensed selling copy (second panel) the following changes

must be made: 1). Under the three headings ("For Vegetable Bugs", "For Bugs Around Buildings", and "For Ornamental Bugs") the use of the word "Bugs" in each heading must be changed to "Pests" since most of the pests listed are not bugs.

Submit two copies of your final printed labeling before you release the product for shipment. A copy of the labeling stamped "Accepted with Comments" is enclosed for your records.

Sincerely,

George Tompkins, Ph.D., Entomologist
Insecticide-Rodenticide Branch
Registration Division (7505C)

Please read instructions on reverse before completing form.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
CAUTION

Harmful if swallowed. Avoid breathing spray mist. Do not take internally. Avoid contact with eyes, skin or clothing. Wear regular long-sleeved work clothing. Change to clean clothing daily. Wash hands thoroughly after handling.

USER SAFETY REQUIREMENTS:

- Wear long-sleeved shirt, long pants, shoes plus socks and household latex or rubber gloves when applying this product.
- Wear a hat and eye protection when making overhead applications.
- Remove clothing immediately if pesticide soaks clothing. Change clothing as soon as possible after use.
- Wash the outside of gloves before removing. As with any pesticide product, wash hands thoroughly immediately after handling and before eating, smoking or using the toilet.
- Do not allow children or pets to contact treated area until sprays have dried.

STATEMENT OF PRACTICAL TREATMENT

GENERAL: Contact a physician immediately in all cases of suspected poisoning. Transport patient to a physician or hospital immediately and **SHOW A COPY OF THIS LABEL TO THE PHYSICIAN.** If poisoning is suspected in animals, contact a veterinarian.

IF SWALLOWED: Induce vomiting and seek medical attention immediately.
IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.

IF ON SKIN: Wash skin thoroughly with soap and water.
NOTE TO PHYSICIAN: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is anticholinergic. Do not use 2-PAM, opiates, or cholinesterase inhibiting drugs.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic and estuarine invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of wastes.

BEE CAUTION

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PLANT RESPONSE PRECAUTIONS

Do not use on Boston Ivy, Virginia Creeper and Maidenhair fern as injury will result. During early season, it may also injure Virginia and Sand Pines.

DO NOT PLANT ROTATIONAL FOOD AND FEED CROPS NOT LISTED ON THIS OR OTHER CARBARYL LABELS IN CARBARYL TREATED SOIL.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE CONTAINER BEFORE USE

Hold sprayer 8 to 12 inches from the area to be treated. Spray until surface is wet. Apply when air is calm to avoid drift and contact with eyes and skin. This product is not recommended to be applied in mid-day sun or when temperatures exceed 85°F as temporary leaf burn may occur. Start spraying at the farthest corner of the treatment area and work backward to avoid contact with wet surfaces. Allow spray to dry in treated areas before reentering. For trees taller than 10 feet, consider using a licensed professional. Spray thoroughly to wet upper and lower leaf surfaces, stems and branches. Do not repeat applications more than once a week.

STORAGE AND DISPOSAL

STORAGE: Store unused product in an area out of reach of children and animals. Do not store in areas where temperatures frequently exceed 100°F.
DISPOSAL: Do not reuse container. Wrap and discard in trash.

VEGETABLE CROPS

For control of all vegetable pests listed below, apply this product in adequate volume to effectively cover both the upper and lower surfaces of the plant.

Repeat applications as necessary up to total of:

Four times for legume vegetables, Brassica leafy vegetables;

Five times for asparagus, peanuts and leafy vegetables;

Six times for cucurbit vegetables, root and tuber vegetables;

Seven times for fruiting vegetables;

Eight times for sweet corn but no more often than once every 7 days.

Do not treat asparagus more than once every 3 days as excessive residues may result.

NOTE: This product is not registered for use on celery and sweet potatoes in California.

The number in parenthesis following each vegetable crop grouping refers to the minimum interval that must be observed between the date of the last application and the date of harvest.

CROPS

Beans (including Black-eyed peas, Crowder or Southern peas, Dry beans, Green beans, Lima beans, Navy beans and Snap Beans), Carrots, Corn, Cucumber, Eggplant, Melons, Okra, Peanuts, Pepper, Potato, Pumpkin, Squash, Sweet Potato, Tomato (0 days until harvest)

Asparagus (7 days until harvest)

Broccoli, Brussels sprouts, Cabbage, Cauliflower, Cowpeas, Garden beet roots, Head lettuce, Horseradish, Kohlrabi, Parsnips, Peas, Radishes, Rutabagas, Salsify roots, Turnip tops (3 days until harvest)

Chinese cabbage, Celery, Collards, Dandelion, Endive (Escarole), Garden beet tops, Hanover salads, Kale, Mustard greens, Leaf lettuce, Parsley, Salsify tops, Spinach, Swiss chard, Turnip tops (14 days until harvest)

Corn Rootworm Adult	Squash Bugs
Cowpea Curculio	Slink Bugs
Cucumber Beetle	Sweet Potato Weevil
Cutworms	Tarnished Plant Bug
European Corn Borer	Three Cornered Alfalfa Hopper
Fall Armyworm	Thrips
Flea Beetles	Tomato Hornworm
Grasshoppers	Tomato Pinworm
Green Cloverworm	Tortoise Beetle
Harlequin Bug	Velvetbean Caterpillar
Imported Cabbageworm	Webworms
Japanese Beetle	Western Bean Cutworms
Lace Bugs	Whitefringed Beetle Adults
Leafhoppers	Yellowstriped Armyworm

7 of 10

FRUIT CROPS

This product may be used as a spot treatment for localized pest infestations on the tree fruits listed below. Do not use on large trees or where pest populations are generally inaccessible to spray deposits, as inadequate control will result. Direct spray toward upper and lower leaf surfaces and between fruit clusters, and on small limbs and trunks to the point of runoff where pests appear.

Repeat applications as necessary up to a total of eight times for fruit trees and five times for small fruits but not more often than once every seven days.

NOTE: To avoid undesired apple thinning, delay use until at least 30 days after full bloom. Carbaryl insecticide may injure early dawn and sunrise strawberry varieties on the Delmarva Peninsula.

The number in parenthesis following each fruit and nut crop grouping refers to the minimum interval that must be observed between the date of the last application and the date of harvest.

TREE FRUITS
Apple, Cherries, Peaches, Pears, Plums, Prunes (1 days until harvest)
Apricots, Nectarines (3 days until harvest)
Citrus (5 days until harvest)
SMALL FRUITS
Blueberries, Grapes (0 days until harvest)
Strawberries (1 day until harvest)
Blackberries, Raspberries, Dewberries (7 days until harvest)

Skeletonizer, Oakworm Complex, Oleander Caterpillar, Olive Ash Borer, Orange-striped Oakworm, Orange Tortrix, Periodical Cicada, Pine Sawfly, Pine Spittlebug, Pitch Pine Tip Moth, Poinsetta Hornworm, Psyllids, Puss Caterpillar, Redhumped Oakworm, Rose Aphid, Rose Chafer, Roseslug, Saddled Prominent, Sawflies (exposed), Scale Insects, Sowbugs, Spiny Elm Caterpillar, Springtails, Spruce Budworm, Spruce Needleminer, Subtropical Pine Tip Moth, Tent Caterpillar, Thorn Bug, Thrips (exposed), Ticks, Walnut Caterpillar, Webworms, Western Hemlock Looper, Western Spruce Budworm, Willow Leaf Beetles, Yellow Poplar Weevil

PEST CONTROL AROUND BUILDINGS AND OTHER OUTDOOR AREAS

This product may be used as a spot treatment around buildings such as homes, apartments, warehouses, barns and municipal and recreational areas to control the pests listed below. Thoroughly wet the outside perimeter of dwellings and other areas where pests tend to congregate.

NOTE: Staining may occur on certain surfaces such as stucco, brick, cinder block and wood. Therefore, applications of this product to surfaces where a noticeable residue or discoloration is objectionable should be avoided. Do not apply to carpets or draperies as staining may occur. Care should also be exercised to avoid spotting of wallpaper and fabrics.

Do not use this product in commercial food areas of food handling establishments, restaurants or other places where food is prepared or processed. Do not use in serving areas while food is exposed.

PEST CONTROL AROUND BUILDINGS & OTHER OUTDOOR AREAS

PESTS

Ants, Bees, Wasps, Brown Dog Ticks, Carpenter Ants, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Silverfish, Fleas, Millipedes, Scorpions, Spiders

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with this label. (111797 EPA)
