Product Stewardship, Advisor
Sherwin-Williams Consumer Brands Group
101 West Prospect Ave
Cleveland, OH 44115

Subject: Label Amendment - Registration Review Mitigation for Permethrin and Tetramethrin
Product Name: Wasp & Hornet Killer
EPA Registration Number: 67603-11
Application Dates: March 16, 2021
Decision Numbers: 572176, 572177
Case Numbers: 00481992, 00478417

Dear Tina Karniotis,

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Permethrin and Tetramethrin Interim Decisions, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Alex McKee by phone at 202-566-1939, or via email at mckee.alex@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Dana L. Friedman". The signature is fluid and cursive, with the first name "Dana" and last name "Friedman" clearly legible.

Dana L. Friedman, Chief
Risk Management and Implementation Branch 1
Pesticide Re-Evaluation Division
Office of Pesticide Programs
U.S. Environmental Protection Agency

ENCLOSURE: Stamped label

Wasp & Hornet Killer

[[Select marketing claims and/or graphics from "Marketing Claims and Graphics" section]]

Active Ingredients:

Tetramethrin (CAS No. 7696-12-0)	0.10%
Permethrin (CAS No. 52645-53-1)	0.25%
Piperonyl butoxide* (CAS No. 51-03-6)	0.50%

Other Ingredients** 99.15%

Total 100.00%

*(butyl carbityl)(6-propylpiperonyl) ether and related compounds

**Contains petroleum distillate

ACCEPTED

May 08, 2025

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under

EPA Reg. No. 67603-11

Keep Out of Reach of Children

CAUTION

See back [side] panel for First Aid and additional Precautionary Statements.

EPA Reg. No. 67603-11

EPA Est. 33915-MI-1, 93440-OH-1

Refer to bottom of container for production facility

Net Weight: ____ oz. (____ g)

{8 oz. through 1 pound}

{Back [Side] Panel(s)}

First Aid

If in Eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none">• Immediately call a poison control center or doctor for treatment advice.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give any liquid to the person.• Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 {or other appropriate 24/7 number} for emergency medical treatment information.	
Note to Physician: Contains petroleum distillate – vomiting may cause aspiration pneumonia.	

{Note: The First Aid statements grid format will be used if market label space permits; otherwise a paragraph format will be used.}

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Contains petroleum distillates. Causes moderate eye irritation. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

User Safety Recommendations

Users should wash hands before eating, drinking chewing gum, using tobacco or using the toilet. Users should immediately remove clothing/PPE if pesticide gets inside, then thoroughly wash and put on clean clothing. Users should immediately remove PPE after handling this product. As soon as possible, thoroughly wash and change into clean clothing.

Physical or Chemical Hazards

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Environmental Hazards

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees or other pollinators are foraging the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

Shake Well Before Using For Both Indoor and Outdoor Use

Restrictions

When used indoors: Do not allow adults, children or pets to enter the treated area until vapors/mists/aerosols have dispersed, sprays have dried and the treated area has been thoroughly ventilated; and remove pets/birds and cover fish aquariums before spraying. Not for broadcast use on indoor surfaces. Do not apply when food is present. Cover or remove exposed food. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Do not use in commercial food/feed handling establishments, restaurants or other sites where food/feed is commercially prepared or processed. Not for use in Federally-inspected meat and poultry plants. Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid directly spraying vegetation. **When used outdoors:** Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: 1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation; 2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn); 3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure; 4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch; 5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level; 6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to only spot and crack-and-crevice applications. Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.). Treat surfaces to ensure thorough coverage but avoid runoff. To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff into untreated structural surfaces and plants. Do not water treated area to the point of runoff. Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application. Do not apply the product into fish pools, ponds,

streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate to the point of runoff.

Both Indoors and Outdoors: Do not allow to enter indoor or outdoor drains (No permita la entrada a desagües internos o externos).

Follow proper disposal procedures on this label

“Siga las indicaciones del etiquetado para el desecho apropiado del producto.

Read Entire Label

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. May cause staining (darkening) of asphalt surfaces and shingles. [Remove protective cap.] Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will keep wasps and hornets from returning to the nest. Wait at least 24 hours before removing the nest.

To Kill Bees, Hornets, Yellow Jackets and Wasps under eaves, screens, window frames, doors, patios, cracks, holes or crevices or wherever insects are noticed, spray for about 1-2 seconds where insects enter, such as outside plumbing, faucets, etc., and cracks or crevices in foundation as well as along sills and ledges.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area inaccessible to children and pets and away from heat, sparks and open flame. **Pesticide Disposal and Container Handling:** Do Not Incinerate or Puncture! **If empty:** Offer for recycling if available; otherwise dispose of in trash. [This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.] If partly filled: Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for local disposal options.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}

Important Note: To the extent not prohibited by applicable law, Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

{Marketing Claims and Graphics}

Can be Used Both Indoors (attics and other places where nests are built) and Outdoors on Wasp and Hornet Nests
Contains the Synergist Piperonyl butoxide with Permethrin & Tetramethrin
Dielectric Breakdown Voltage of 33,000 Volts (non-conductive up to 33,000 volts)
Electrically Non-Conducting
Garden Center Size
Gives Knockdown & Kill of Wasps, Hornets, Yellow Jackets & Bees
House & Yard Line
Instant Kill
Instant Knockdown Prevents Nesting
Instantly Drops Wasps, Hornets, Yellow Jackets & Bees
Jet Spray – Will Reach up to 20 Feet above Ground
Kills Fast
Kills Nests and Listed Insects with Residual Action
Kills on Contact Wasps, Hornets, Yellow Jackets and Bees
Kills the Entire Nest
Kills Wasps, Hornets Yellow Jackets & Bees
Kills with Residual Action as Wasps & Hornets Return to Nest
Quick Kill
Sprays up to 20 Feet
Order No. {appropriate number}
Made in U.S.A.

Contains no CFCs or other ozone depleting substances.
Federal regulations prohibit CFC propellants in aerosols.

PLEASE RECYCLE
WHEN EMPTY

GUARANTEED OR YOUR MONEY BACK.
