Subject: Label Amendment – Submission of revised label claims
Product Name: PJW-622
EPA Registration Number: 67619-9
Application Date: June 24, 2016
Decision Number: 519052

Dear Ms. Lawson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against rotavirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Joe Daniels at (703) 347-8669 or via email at daniels.joseph@epa.gov.

Sincerely,

Eric Miederhoff

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Not for cleaning or sanitizing skin. Do not use as a diaper wipe or for personal cleansing.

For surfaces that may come in contact with food, a potable water rinse is required. Do not use on glasses, dishes or [eating] utensils.

These wipes will not harm most surfaces including acrylic, fiberglass and vinyl. Not recommended for use on unpainted wood.

[Refill only with this product.]

TO CLEAN [HARD, NON-POROUS SURFACES] [AND REMOVE ALLERGENS]

Wipe surface with a wipe; let air dry.

TO SANITIZE [AND DEODORIZE][:]

[Use to sanitize][deodorize] hard, nonporous non-food contact surfaces: wipe surface; use enough wipes for treated surfaces to remain visibly wet for 10 sec[onds]. Let surface dry. For highly soiled surfaces, clean excess dirt first.

TO DISINFECT [AND DEODORIZE][:]

[Use to disinfect] hard, nonporous surfaces; wipe surface [to be disinfected]. Use enough wipes for treated surface to remain visibly wet for 4 min[utes]. Let surface dry. For highly soiled surfaces, clean excess dirt first.

NOTE TO REVIEWER: This statement to be used on institutional labels with medical and dental use sites, medical devices and/or bloodborne pathogens

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semicritical medical devices prior to sterilization or high level disinfection.

Poultry Houses, Brooders And Hatcheries

To Disinfect [And Deodorize] Hard, Non-Porous Surfaces [Against Avian Influenza A Virus]

Poultry House: Remove all animals and feeds from premises and enclosures such as coops or cages. Remove all litter, droppings, and manure from walls, tables, surfaces of coops, cages, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering applications. Thoroughly clean all surfaces with soap or detergent and rinse with water. Thoroughly wet surfaces by using enough wipes on treated surface to remain wet for 4 min[utes]. After application, ventilate coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, automatic feeders, fountains and waterers with soap or detergent and rinse with potable water before reuse.

Hatcheries: Remove all animals and feeds from the premises and enclosures. Pre-clean all surfaces such as hatching trays, racks, carts, sexing tables, and other hard surfaces with soap and detergent and rinse with water. Then, thoroughly wet surfaces by using enough wipes on treated surfaces to remain wet for 4 min[utes]. After application, ventilate coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, automatic feeders, fountains and waterers with soap or detergent and rinse with potable water before reuse.

Special Instructions for Use Against HIV-1 and HBV

This product kills HIV-1 and HBV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS) and Hepatitis B Virus (HBV).

Special instructions for using this product to clean and decontaminate against HIV-1 and HBV on surfaces/objects soiled with blood/body fluids: **Personal Protection:** When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain wet 1 min[ute] for HIV-1 , 4 min[utes] for **HBV**. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

Emerging Viral Pathogen Claims

This product qualifies for emerging pathogen claims against Enveloped viruses

This product has demonstrated effectiveness against viruses similar to ***insert name of emerging virus*** on hard, non-porous surfaces. Therefore, ***This product*** can be used against ***insert name of emerging virus*** when used in accordance with the directions for use against ***insert name of supporting virus(es)*** on hard, non-porous surfaces. Refer to the ***insert CDC -or- OIE*** website at ***insert pathogen-specific website address*** for additional information.

Hazardous Material Ratings

HMIS (Hazardous Materials Identification System) & NFPA (National Fire Protection Association) for PJW-622

Health Rating for HMIS listing:

- 1=Slight to Moderate eye
- 2=Severe, but reversible
- 3=Irreversible eye

Letter Designation of Personal Protection Equipment:

- A=Safety Glasses
- B=Safety Glasses, Gloves
- C=Safety Glasses, Gloves, Synthetic Apron
- D=Face Shield, Gloves, Synthetic Apron
- E=Safety Glasses, Gloves, Dust Respirator
- F=Safety Glasses, Gloves, Synthetic Apron, Dust Respirator
- G=Safety Glasses, Gloves, Vapor Respirator

- H=Splash Goggles, Gloves, Synthetic Apron, Vapor Respirator
- I=Safety Glasses, Gloves, Combination Dust and Vapor Respirator
- J=Splash Goggles, Gloves, Synthetic Apron, Combination Dust and Vapor Respirator
- K=Airlines Hood or Mask, Gloves, Full Protective Suit, Boots
- X=Situations Requiring Specialized Handling
