**Subject: Label notification for CPPC Tsunami, EPA Reg No 67619-12, OPP 169657**

Dear Ms. Henson:

Action requested:

- 1) Please process notification OPP 169657 which is enclosed. We are aware that EPA is currently processing an amendment for 67619-12 submitted on 5/19/2006 and due out 10/12/2006 (OPP 307105). The enclosed notification is a higher priority to Clorox.
- 2) Once EPA's has processed the notification, we will want to ensure that the amended label you are reviewing reflects the newly notified changes. We believe the easiest way to achieve this is a label swap out. If you have another preference, please advise.

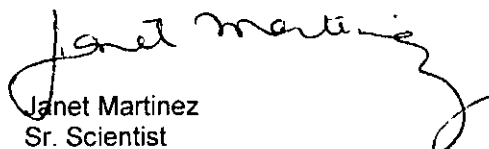

Details regarding the Notification

Clorox submits the following notification for your review. In short, the label was written with a canister in mind and we are introducing single wipe packets that come in a carton containing fifty. The changes made increase the clarity of the master label for this additional package type.

- 1) [Individually packaged]
- 2) Read carton label before use
- 3) Adding brackets around recycling text that does not apply to pouch: [Do not reuse empty container. Offer empty container for recycling. If recycling is not available, discard container in trash.]
- 4) Additionally, we have clarified the parts per million of available chlorine as 5200 ppm [parts per million] available chlorine.

We apologize for any inconvenience and appreciate your ongoing support. If you have any questions, please don't hesitate to contact me at 925-425-6704 or [Janet.martinez@clorox.com](mailto:Janet.martinez@clorox.com) or Evelyn Lawson at 925-425-6842 or [Evelyn.Lawson@clorox.com](mailto:Evelyn.Lawson@clorox.com)
