Labeling Comments:

- b. Revise the "Storage" subheading in the "Storage and Disposal" section on page 2 to read "Pesticide Storage."
- c. The second statement in the paragraph after the "To Operate" instructions must be brought into compliance with PR Notice 2000-5, Mandatory Labeling, by deleting the phrase, "not recommended" and stating "*Do not use on*"
- d. Revise the forth claim under "Claim – Non-disinfectancy related bullets" on page 2 by deleting the term, "all" and stating "*Multi- Purpose Cleaner*"
- e. Delete the 6th and 33rd claims in the left column and 13th claim in the right column under "Claims- Non-disinfectancy related bullets" on page 3. Statements or claims that express the absence of certain ingredients may be misleading statements prohibited by 40 CFR 156.10 (a)(5). These claims are examples of a true statement used in such a way as to give a false and misleading impression to the purchaser. Even though a claim expressing the absence of an ingredient is true, it would generally be considered to be misleading because it falsely suggests to the purchaser that the product is less risky, better, or more desirable than a product containing the ingredient in question. Further, a product must not claim that it does not contain an ingredient if it never contained or was likely to contain the substance in the first place.
- f. The 19th claim in the right column on page 4 must be brought into compliance with PR Notice 2000-5, Mandatory Labeling, by deleting the term, "recommended".
- g. The "Disposal of Infectious Materials" statement under HIV instructions on page 6 must be brought into compliance with PR Notice 2000-5, Mandatory Labeling, by deleting the word "should and stating "*must*".
- h. Revise contact time under the "To disinfect food service establishment food contact surfaces" directions on page 6 "to read "3 minutes."
- i. Revise the "Animal housing facilities (and poultry and swine premises)" on page directions by deleting the aluminum surface since this product is not to be used on this type of surface as indicated on page 6.
- j. Revise the second statement under "Hospitals/Healthcare facilities" on page 6 by deleting the word, "pathogenic".
- k. Delete the claim, "Hospital Grade" under "Hospitals/Healthcare facilities" on page 6 and "Disinfection" claims on page 7 because it implies heightened efficacy according to PR Notice .
- l. Revise the "Non-Acid Bowl (& Bathroom) Disinfectant Cleaner" statement on page 6 include the following directions:

- m. Revise the "To Disinfect" directions on page 7 to be in agreement with the "food processing premises and food service establishment surfaces" directions because this product is a ready-to-use spray. Directions for use with mop, cloth, and sponge is not appropriate application method.
 - n. The 14th claim in the right column on page 7 must be brought into compliance with PR Notice 2000-5, Mandatory Labeling, by deleting the word, "recommended."
 - o. Revise the 28th claim in the left column on page 7 by deleting the phrase, "[in seconds]" and state "[in minutes]."
 - p. Revise the 30th claim in the left column on page 7 by citing the organisms complete name such that it reads "Kills Avian influenza A *virus*."
 - q. Revise CA-MRSA nomenclature on pages 8 and 9 to state "*Community Acquired*" Methicillin Resistant *Staphylococcus aureus*.
 - p. Revise Canine Distemper, Pseudorabies, Bovine Viral Diarrhea, and Infectious Bovine Rhinotracheitis nomenclature on page 9 and 10 by adding the term, "virus." You must specify that the product is effective against the virus and not the condition (example: Pseudorabies *virus*).
 - q. Revise the second statement after the list of surfaces on page 11 to bring it into compliance with Mandatory Labeling, PR Notice 2000-5, by deleting "maybe" and stating "*For use*". Also, indicate "*exterior surfaces*" of appliances.
 - r. Qualify the fiberglass and porcelain enamel as hard nonporous surfaces on page 15 by stating "*sealed*" fiberglass and "*glazed*" porcelain enamel.
