TOXIC SUBSTANCES

Ms. Evelyn Lawson
Federal Registration Specialist for,
Clorox Professional Products Company
P. O. Box 493

Subject: Blondie
EPA Registration Number 67619-24
Your Amendment Dated October 14, 2011
EPA Received Date October 17, 2011

The amendment referred to above, submitted in connection with under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act, FIFRA, as amended, to add organisms to the product labeling, is acceptable.

The submitted efficacy data support the use of the product as a disinfectant with bactericidal activity against the following microorganisms on hard, non-porous surfaces in the presence of a 5% organic soil load for a 30-second contact time (a 45 second contact time against Linezolid Resistant Staphylococcus aureus):

Multidrug Resistant Enterococcus faecium
Klebsiella pneumonia New Delhi Metallo-Beta Lactamase-1
Escherichia coli New Delhi Metallo-Beta Lactamase-1
Linezolid Resistant Staphylococcus aureus

The proposed labeling claims that the product, is an effective disinfectant against the following microorganisms on hard, non-porous surfaces in the presence of 5% blood serum for a 30-second contact time (a 1-minute contact time against Linezolid Resistant Staphylococcus aureus):

Multidrug Resistant Enterococcus faecium
Klebsiella pneumonia New Delhi Metallo-Beta Lactamase-1
Escherichia coli New Delhi Metallo-Beta Lactamase-1
Linezolid Resistant Staphylococcus aureus

These claims are acceptable as they are supported by the submitted data.

The Agency has not determined a contact time consistent with "Fast". The Agency has determined a contact time that "quick" is consistent with a contact time of less than 10 seconds. Since the proposed contact times are greater than 10 seconds, neither claim is acceptable.

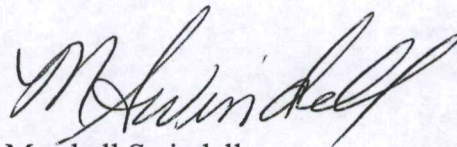

A stamped copy of the labeling is enclosed.

A copy of the efficacy review is enclosed.

Submit and/or cite all data required for registration /reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

If the above conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

Sincerely,

Marshall Swindell
