Subject: PRIA Label Amendment – Add SARS-CoV-2 Claims  
Product Name: GNR  
EPA Registration Number: 67619-30  
Application Date: May 18, 2020  
Decision Number: 564429

Dear Ms. Venable:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

Decision No. 564429

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Joseph Daniels at (703) 347-8669 or via email at [Daniels.joseph@epa.gov](mailto:Daniels.joseph@epa.gov).

Sincerely,

A handwritten signature in cursive script that reads "Jacqueline Hardy".

### **For products with medical devices listed on the label, the following must be used**

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

### **‡Special Label Instructions for Cleaning Prior to Disinfection against *Clostridium difficile* spores:**

**Personal Protection:** Wear appropriate barrier protection such as gloves, gowns, masks and eye covering. **Cleaning Procedure:** Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with a clean cloth, mop, -and/or- sponge saturated with the product. Cleaning is to include vigorous wiping -and/or- scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths. **Infectious Materials Disposal:** Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

**To Disinfect:** Spray [6-8 in[ches] from] surface until surface is thoroughly wet. Allow surface to remain visibly wet for 90 sec[onds] -or- for *Clostridium difficile*<sup>‡</sup> spores -and/or- *Aspergillus brasiliensis*, allow surface to remain visibly wet for 2 min[utes]. Then wipe.

**Special Instructions for Use Against HIV-1, HCV and HBV**

This product kills HIV-1, HCV and HBV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of hard, nonporous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis C Virus (HCV), and Human Hepatitis B [(Virus)] (HBV).

---

**Special instructions for using this product to clean and decontaminate against HIV-1, HCV and HBV on surfaces/objects soiled with blood/body fluids: Personal Protection:** When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain visibly wet for HBV, HCV and HIV-1 for 1 min[ute]. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**To Disinfect Non-Critical, Precleaned Instruments:** Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. - Two in one, cleaning<sup>6</sup> and disinfecting
- Two -or- 2 minute [contact time]
- Use in places where you are concerned about bacteria -and/or- viruses<sup>‡</sup> -and/or- germs<sup>[5]</sup>
- Use -or- cleans and disinfects on healthcare surfaces
- Versatile cleaner disinfectant
- Virucidal<sup>‡</sup>
- When used as directed, this product -or- **product name** [contains 0.37% -and/or- 3,700 ppm of active germicide making it] [is] effective against [a broad spectrum] [of] bacteria, viruses<sup>‡</sup> and fungi on hard, nonporous surfaces

### Emerging Viral Pathogen Claims

This product qualifies for emerging viral pathogen claims per the EPA's "Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels" when used in accordance with the appropriate use directions indicated below.

**Product name** -or- this product meets the criteria to make claims against certain emerging pathogen claims from the following viral categories.

- Enveloped viruses
- Large non-enveloped viruses
- Small non-enveloped viruses

<i>For an emerging viral pathogen that is a/an:</i>	<i>... follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Rhinovirus Type 37
Large non-enveloped virus	Rhinovirus Type 37
Small non-enveloped virus	Rhinovirus Type 37

**Product name** -or- this product has demonstrated effectiveness against viruses similar to **insert name of emerging virus** on hard, nonporous surfaces. Therefore, **product name** -or- this product can be used against **insert name of emerging virus** when used in accordance with the directions for use against **insert name of supporting virus(es)** on hard, nonporous surfaces. Refer to the CDC -or- OIE website at **insert pathogen-specific website address** for additional information.

**Insert name of illness/outbreak** is caused by **insert name of emerging virus**. **Product name** -or- this product kills similar viruses and therefore can be used against **insert name of emerging virus(es)** when used in accordance with the directions for use against **insert name of supporting virus(es)** on hard, nonporous surfaces. Refer to the CDC -or- OIE website at **insert pathogen-specific website address** for additional information.

### **General/Miscellaneous Claims**

- A shining clean you can see
- Alcohol free
- Bathrooms, sinks and faucets and floor areas
- Brightens
- Cleans
- Cleans bathroom soils
- Cleans blood stains
- Cleans everyday messes
- Cleans fingerprints
- Cleans food stains
- Cleans grease and grime
- Cleans mildew stains
- Cleans to a shine
- Clear drying formula
- [Compatible with -or- suitable] [F]for use on equipment surfaces
- Compatible with -or- suitable for use on [hospital] surfaces **insert use surface(s) from Table 1** -and/or- **insert surface material(s) from Table 3**
- Cuts cleaning time
- Daily cleaning
- Deodorizer [for Institutional Use]
- Deodorizes
- Deodorizes food odors [like garlic and onion] [left behind on kitchen surfaces] [after cooking]
- Deodorizes odors caused by bacteria -or- [and non-fresh foods]
- Designed to be used in healthcare -and/or- veterinary settings
- Dual-chamber system activates 2-part solution [up]on use
- Fast strong cleaning
- For direct application
- For facility wide use [in healthcare settings]
- For terminal cleaning
- Good for use with microfiber clothes
- Grease cutter formula
- Help make your room Clorox clean
- Just spray and wipe; no scrubbing required to clean!
- Kills odor causing bacteria in the kitchen -or- bathroom
- Light fragrance
- Light touch up quick cleaning
- Makes cleaning easier
- Multi-surface cleaner
- No strong alcohol smell
- No strong chemical smells -and/or- odors
- No mixing, measuring, or rinsing required
- No rinsing
- Non-abrasive
- Non-corrosive
- Non-flammable
- Pleasant odor
- Proof is in the clean
- Removes -and/or- Cleans the following: **insert stain(s)/soil(s) from Table 4**
- Removes dried-on [blood] stains
- Removes **insert stain(s)/soil(s) from Table 4**
- Removes odors
- Removes [tough] stains
- Safe to -or- for use on **insert surface material(s) from Table 3**
- Spray bottle designed for single use only
- Spray bottle designed for ease-of-use
- Spray trigger
- [The] Smell of cleaned surfaces
- [**This product**] deodorizes areas that are hard to keep fresh smelling, such as **insert use site(s) from Table 2**
- This product -or- **product name** removes dirt, grime, fungi, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It [also] eliminates odors leaving surfaces smelling clean and fresh.
- [**This product**] will deodorize hard, nonporous surfaces [**insert surface(s) from Table 1**] [in **insert use site(s) from Table 2**] [where obnoxious odors may develop]
- [**This product**] will deodorize **insert surface(s) from Table 1** where bacteria growth can cause malodors
- Tough on grime
- Use on Hard, Nonporous Surfaces Associated with the Following surfaces[:] **insert use surfaces(s) from Table 1**
- Use on hard, nonporous surfaces in: **insert from use site(s) from Table 2**
- [[Use your phone to] go here -and/or- scan [[the] tag -or- [this] code] to learn -or- get -or- see [more] uses -or- information [on how-to-use **this product**] -or- [how-to] tips -or- [how-to [-use]] videos] [Data rates may apply]
