

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

67619-33

Date of Issuance:

4/12/16

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Stream

Name and Address of Registrant (include ZIP Code):

Clorox Professional Products Company
c/o PS&RC
P.O. Box 493
Pleasanton, CA 94566-0803

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Julie Chao, Product Manager 33
Regulatory Management Branch 1, Antimicrobials Division (7510P)

Date:

4/12/16

2. You are required to comply with the data requirements described in the DCI identified below:
 - a. Hydrogen Peroxide GDCI-000595-1127

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>.

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 67619-33."
5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 2/10/2016
- Alternate CSFs 1, 2, 3, 4, 5, 6, 7, and 8 dated 2/10/2016

If you have any questions, please contact me by phone at (703) 308-8735, or via email at chao.julie@epa.gov.

Sincerely,

Julie Chao, Product Manager 33
Regulatory Management Branch 1

For labels with veterinary uses

ENVIRONMENTAL HAZARD: This pesticide is toxic to birds, fish, and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

(Refillable bottles intended to be refilled by the consumer)

STORAGE AND DISPOSAL: Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer for recycling or place in trash.

(Nonrefillable bottles)

STORAGE AND DISPOSAL: Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. Nonrefillable container. Do not reuse or refill empty container. Recycle empty container or discard in trash.

For containers greater than 1 gallon:

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store only in tightly closed container in a secure area inaccessible to children.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill empty container. Triple rinse promptly, then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Use up product in accordance to use directions. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION

Hard Nonporous Surfaces: -or- Sealed Ceramic Tile, Porcelain, Shower Walls, Floors and Other Hard Nonporous Surfaces: [Set trigger to SPRAY.] Spray 6-8 inches from surface until surface is thoroughly wet. Allow this product to [penetrate and] remain wet for contact time listed below [-or- on label] [-or- on organism table]. Then wipe. [Rinse.] For heavily soiled areas, a precleaning is required. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. [If streaking is observed, wipe with a clean, damp [cloth -and/or- microfiber cloth -and/or- paper towel].

One-Step Disinfection and Cleaning the Exteriors of Toilets and Urinals: Remove gross filth before disinfection. Apply product to exposed surfaces. Allow this product to [penetrate and] remain wet for the contact time listed below -or- on label [-or- on organism table], [then wipe].

The following statement only to be used on institutional labels with medical use sites, medical devices and/or bloodborne pathogens:

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Special Instructions for Use Against HIV-1, HBV, and HCV

This product kills HIV-1, HBV and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B [(Virus)] (HBV) and Human Hepatitis C [(Virus)] (HCV).

Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain wet for HBV, HCV and HIV-1 [for] 30 sec[onds]. The contact times for other bacteria and viruses may differ. See product label for contact times. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

To Preclean Instruments Prior to Terminal Sterilization/High Level Disinfection: As a precleaning spray - Place instruments into a suitable container. Spray **this product** onto instruments to thoroughly wet all surfaces. Let stand [for] up to 10 min[utes]. Rinse instruments. A manual instrument cleaner - Thoroughly pre-rinse dirty instruments under running water to remove visible, gross debris. Immerse prerinsed instruments into an appropriate size container filled with **this product**. Scrub instruments using a stiff bristle brush until visibly clean. Submerge instruments while scrubbing. Rinse instruments thoroughly. Change solution daily. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Disinfect Non-Critical, Precleaned Instruments: Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. Spray all surfaces of instruments with this product until thoroughly wet. Let stand [for] Five -or- 5 min[utes]. Wipe with a clean, damp cloth or paper towel and allow to air dry.

To disinfect food processing premises: floors, walls and storage areas, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow surface to remain wet for [5 min[utes]] [contact time listed [below] -or- on the label]. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be precleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

Animal housing facilities [and poultry and swine premises]: This product [-or- **product name**] removes dirt, grime, mold stains, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It [also] eliminates odors leaving surfaces smelling clean and fresh.

[Bracketed information is optional text.]

RC168012

DISINFECTION continued:

It cleans, disinfects and deodorizes hard, nonporous inanimate surfaces in one step. Its non-abrasive formula is designed for use [daily] on -or- [Use daily to clean and disinfect] hard, nonporous inanimate surfaces: [plated or stainless steel, chrome, glazed porcelain, glazed tile, laminated surfaces associated with floors, walls, countertops, cages, crates, kennels, and animal equipment] found in animal housing facilities.

Disinfection of animal quarters and kennels: For disinfection of precleaned animal quarters and kennels, apply this product [-or- ***product name***]. Remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate the surfaces with the disinfecting solution for contact time listed [below] [or] [on label] [10 min[utes]]. Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be scrubbed with soap or detergent and rinsed with potable water before reuse.

To Clean and Disinfect in a Veterinary Application: Use to clean and disinfect hard, nonporous surfaces such as feeding and watering equipment, cages, utensils, instruments, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from walls, floors, and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering equipment. Preclean all surfaces with soap or detergent and rinse with water. Saturate surfaces with ***this product*** and let stand [for] ten -or- 10 min[utes]. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treated surfaces have been thoroughly rinsed with water and allowed to dry. Thoroughly scrub all treating, feeding, and watering appliances with soap or detergent, and rinse with potable water before re-use.

Hospitals/Healthcare facilities: This product [-or- ***product name***] cleans, disinfects and deodorizes hard, nonporous [hospital] [medical] surfaces in one step [with no rinsing required].

When used as directed, this product [-or- ***product name***] [contains [2.20%] [22,000 ppm] of active germicide making it] [is] effective against a [variety] [broad spectrum] of bacteria and viruses* [***microorganism list***] on hard, nonporous surfaces.

This product [-or- product name] is a one step [hospital-use] germicidal [disinfectant] cleaner [and] [deodorant] [odor counteractant] [odor neutralizer] designed for general cleaning, [and] [disinfecting] [deodorizing] [of] hard, nonporous inanimate surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found in hospitals [in health care facilities] [on medical surfaces]. It [also] eliminates odors leaving [restroom] surfaces smelling clean and fresh. Use where odors are a problem.

[This product] is a ready to use [broad spectrum] [germicidal] [disinfectant] cleaner and deodorizer designed for general cleaning [and] [disinfecting] [deodorizing] [of] hard, nonporous surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found [in] [hospitals] [public] [restrooms -and/or- bathrooms -and/or- facilities] [in healthcare facilities] [on medical surfaces].

GENERAL CLEANING:

CLEANING

General [Kitchen -and/or- Bathroom -and/or- Floor -and/or- Ceramic Tile -and/or- Porcelain -and/or- Shower Walls -and/or- Floors]: [Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product directly onto [urine] [feces] [bathroom] soils and wipe clean. -or- Directly apply [***this product***] with a [cloth -and/or- microfiber cloth -and/or- sponge -and/or- mop -and/or- trigger sprayer] to completely wet surface and wipe clean. No rinsing needed. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [soil] before wiping.

To Clean/Remove Soap Scum: Spray product onto soils and wipe clean [with a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge]. -or- Just spray on and wipe off [with a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge]. No rinsing necessary. For best results, use a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge. Repeat for heavily soiled areas. For stubborn stains -and/or- heavily soiled areas -and/or- tougher jobs, allow product to penetrate [dirt -and/or- soap scum] before wiping. For best results, use regularly to prevent dirt and soap scum build up.

To Clean [Nonporous] Surfaces -and/or- Floors: Spray soiled area, then wipe clean. -or- For spot cleaning, spray and wipe clean with damp sponge -or- mop -or- cloth.

To Clean and Deodorize Toilets: To clean and deodorize toilet bowl, squirt liberally (1/2 cup) on toilet sides and upper toilet bowl rim. Swab -or- brush all surfaces and flush.

GENERAL CLEANING:

Hard -and/or- Soft Surface Claims

New[!] [& Improved] -or- Now[!] to be used as a claim descriptor only for the first 6 months of product on shelf

- A [shining] [pure] clean you can see [and trust]
- [Chlorine] bleach free
- Cleans to a shine
- Clear drying formula
- [Clorox®] essential for the purest clean
- Color safe
- Compatible -or- suitable with [equipment surfaces] [***insert equipment or surface sites***]
- [Compatible -or- suitable with equipment surfaces for use on hospital surfaces [***see hospital surfaces list below***]
- Complete Clorox® clean your patients -and/or- residents trust
- Complies with VOC laws
- Cuts cleaning time
- Designed for organic (protein base) stains
- Designed -or- ideal for daily [cleaning] [use]
- Destroy -and/or- Eliminate tough odors [and stains]
- Does not contain [chlorine] bleach
- Easy [cleaning]
- Effective [cleaner -or- cleaning] [formula]
- Fast penetrating formula effectively gets out a variety of tough pet stains and odors.
- Fits on your cart
- For direct application
- For easy cleaning
- For Outdoor Use [concrete -and/or- sidewalks -and/or- pavement -and/or- outdoor tile -and/or- grouting stains]
- For terminal cleaning
- General purpose cleaner
- Good for pretreatment for laundry
- Good for pretreatment of [many] [***insert stain(s)/soil(s)***] stains
- [Great] For removing [***insert stain[s]/soil[s]***] [on [***insert use site[s]***]]
- Great for use on soft surfaces[¥] including [***insert soft surface[¥] from list***]
- Ideal for use in schools -and/or- daycare -and/or- universities -and/or- public places
- Ideal for use on high touch surfaces
- Just spray[,] [and] wipe [and you're done] [; no scrubbing required!]
- Leaves [virtually] no residue
- Light touch up. Quick cleaning
- Low residue
- Makes cleaning easier
- Money-saving refill
- No build-up -and/or- residue
- No mixing, measuring, or rinsing required
- No phosphates
- No rinsing
- Non-abrasive
- Non-corrosive
- Non-flammable
- Packaging made with [25%] recycled -or- recyclable plastic
- Proof is in the clean
- Removes -and/or- Cleans [***insert stain[s]/soil[s]***] [on [***insert use site[s]***]]
- Removes dried on [blood] stains
- Safe for colorfast upholstery, fabrics, and carpets, including stain-resistant carpeting.
- Safe for use on stain-resistant carpets
- [Removes] [Works on] [Effective on] [Great for] [Great for removing] [tough] [toughest] [pet -and/or- urine -and/or- feces -and/or- sweat -and/or- vomit] stains and odors [on hard surfaces] [on soft surfaces[¥]] [on hard and soft surfaces[¥]]
- Spray on curtains and other hard-to-wash fabrics to replace lingering odors with (long-lasting) freshness
- Spray trigger
- Strong cleaning
- [The] Smell of clean

Hard Surface Use Sites:

This product [***product name***] is designed specifically as a general [ready-to-use] [non-abrasive] cleaner and disinfectant for use in: -and/or-

This product [***product name***] is formulated to disinfect hard, nonporous, inanimate surfaces:

Animal Life Science Laboratories	ICU Areas	Pet Shops
Athlete -and/or- Recreational Facilities	Locker Rooms	Public Restrooms
[Commercial] Kitchens	Lodging Establishments	Retail Businesses
Daycares	Long Term Care [facilities]	Schools
Food Processing Plants	Manufacturing Facilities	Shower Rooms
Food Service Establishments [Restaurants]	Nursing Homes	Transportation Terminals
Homes	Office Buildings	Veterinary Clinics
Hospitals	Operating Rooms	
Hotels	Patient Rooms	

Hard, Nonporous Use Surfaces [Materials]:

baked enamel surfaces	glazed ceramic tile	shower stalls
bathrooms	glazed porcelain	stainless steel surfaces
bathtubs	laminated surfaces	toilets
cabinets	metal surfaces	urinals
chrome	plastic and painted surfaces	vinyl
floors	plastic surfaces	walls

Additional Cleaning and Deodorizing Surfaces:

Grout	Pavement	Sidewalks
Concrete	Outdoor tile	Carpet
Cement		

General Stains -and/or- Soils:

Bathroom soils -and/or- stains	Feces [stains] [soils]	Pen -or- Ink [Marks]
Bathtub ring	Fingerprints	Pen [stains]
Beverage stains	Food [stains] [residue[s]] -or- [soil[s]]	Pet stains [soils]
Blood stains -and/or- soils	Fruit [stains]	Rust [stains]
Body [oils] [fluids] [stains] [soils]	Grime	Smudges
Cat urine	Heel Marks -or- scuffs	Soap scum
Cat feces	Human soils	Soda [stains]
Coffee [stains]	Incontinence [stains] [soils]	Sticky food messes -or- spills
Cosmetics	Ink [stains]	Sweat [stains] [soils]
Crayon and Pencil [marks]	Institutional stains	Tea [stains]
Dead skin	Juice [stains]	Toner [stains]
Dirt	Laboratory stains [soils]	Tough soils [Stains]
Dog urine	Mold stains -and/or- Mildew stains	Urine [stains] [soils]
Dog feces	Mud	Vomit [stains] [soils]
Everyday messes	Other common soils -and/or- stains	Wine [stains]
Fecal matter	Other organic matter
