J. Evelyn Lawson  
Federal Registration Specialist  
Clorox Professional Products Company  
c/o PS&RC  
P.O. Box 493  
Pleasanton, CA 94566

Subject: Label Amendment – Adding Emerging Pathogens and Surface Safety Claims  
Product Name: Stream  
EPA Registration Number: 67619-33  
Application Date: 7/21/16  
Decision Number: 520312

Dear Ms. Lawson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the [August 19, 2016, Guidance To Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels \(“Guidance”\)](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), [https://www.epa.gov/sites/production/files/2016-09/documents/emerging\\_viral\\_pathogen\\_program\\_guidance\\_final\\_8\\_19\\_16\\_001\\_0.pdf](https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf), you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
  - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.

- i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
    - A. CDC Current Outbreak List for “U.S. Based Outbreaks” ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)),
    - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification ([www.cdc.gov/outbreaks](http://www.cdc.gov/outbreaks)) (also released through the CDC’s Health Alert Network (HAN) notification process)
    - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page ([www.cdc.gov/hai/outbreaks](http://www.cdc.gov/hai/outbreaks))
  - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page ([www.oie.int/wahis\\_2/public/wahid.php/Diseaseinformation/WI](http://www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI)).
- b. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is [small non-enveloped, large non-enveloped, enveloped].
  - c. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term B.3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term B.3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term B.3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
  5. Terms B.1 through B.4 above shall become immediately void and ineffective if registration for use against [identify label viruses] is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it

bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, you may contact Aline Heffernan at 703-347-8602 or via email at [heffernan.aline@epa.gov](mailto:heffernan.aline@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "John Hebert" with a stylized flourish at the end.

John Hebert, Chief  
Regulatory Management Branch I  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

**For labels with veterinary uses**

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to birds, fish, and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

**(Refillable bottles intended to be refilled by the consumer)**

**STORAGE AND DISPOSAL:** Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer for recycling or place in trash.

**(Nonrefillable bottles)**

**STORAGE AND DISPOSAL:** Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration. Nonrefillable container. Do not reuse or refill empty container. Recycle empty container or discard in trash.

**For containers greater than 1 gallon:**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Store only in tightly closed container in a secure area inaccessible to children.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill empty container. Triple rinse promptly, then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**PESTICIDE DISPOSAL:** Use up product in accordance to use directions. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

#### **Operating Trigger**

##### **To Operate:**

Open hinged cover of sprayer and snap into opening on top. -or- Turn -or- Rotate nozzle [counterclockwise] to “spray” -or- “stream” -or- ON [setting]. -or- Adjust [nozzle] to desired pattern.

-or- [To open, turn nozzle.] Spray [6-8 inches from surface]. Rub -or- wipe with brush -or- paper towel -or- sponge -or- lint-free cloth -or- cloth. Do not breathe spray or mist.

[When almost empty, -or- To spray every drop[,][:] tilt bottle downward -or- at a downward angle [while spraying].]

**Optional Directions for Product Supplied in Refill Bottles:** Refill only with this product.

#### **Alternate for Refill Bottle:**

To Refill [Spray Bottles]:

##### **Remove**

Remove trigger sprayer -or- cap from empty bottle.

##### **Pour**

Unscrew cap on refill and pour contents directly into empty bottle. Use a funnel to minimize product spills -or- waste.

##### **Use**

Replace trigger sprayer and use as you normally would. -or- Unscrew cap and transfer your trigger to this bottle. -or- Replace cap and use as you normally would. Fill -or- refill the **insert number** [fl] oz **this product** spray bottle with **this product** refill. Pour product into spray bottle over sink or tub basin.

#### **For foldout label:**

Peel [here] [for] [additional] [directions]

**Trigger options: To refill:** Twist trigger [on spray bottle] [1/4 turn] [counterclockwise] [and pull up -or- upward[s]] to remove. [Fill spray bottle with refill solution.] [After refilling spray bottle,] [to replace trigger,] Align [red tip] tube on trigger [head] over [small] opening -or- tube [on] [the] inside [of the bottle]. [[Note that] trigger [head] should point in [the] same direction as [the] tube [running] on the outer edge of the bottle.] Press [straight] down on the trigger [head], [applying even pressure] [until it clicks -and/or- locks] [into place].

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### ***Disinfection***

**Hard Nonporous Surfaces: -or- Sealed Ceramic Tile, Porcelain, Shower Walls, Floors and Other Hard Nonporous Surfaces:** [Set trigger to SPRAY.] Spray [6-8 inches from surface] until surface is thoroughly wet. Allow this product to [penetrate and] remain wet for contact time listed below [-or- on label] [-or- on organism table]. Then wipe. [Rinse.] For heavily soiled areas, precleaning is required. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required. [If streaking is observed, wipe with a clean, damp [cloth -and/or- microfiber cloth -and/or- paper towel].

**One-Step Disinfection and Cleaning the Exteriors of Toilets and Urinals:** Remove gross filth before disinfection. Apply product to exposed surfaces. Allow this product to [penetrate and] remain wet for the contact time listed below -or- on label [-or- on organism table] [, then wipe].

### ***The following statement only to be used on institutional labels with medical use sites, medical devices and/or bloodborne pathogens:***

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

### ***Special Instructions for Use Against HIV-1, HBV, and HCV***

This product kills HIV-1, HBV and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B [(Virus)] (HBV) and Human Hepatitis C [(Virus)] (HCV).

**Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection:** When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain wet for 1 min[ute] for HBV and HCV and 30 sec[onds] for HIV-1. The contact times for other bacteria and viruses may differ. See product label for contact times. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**To Preclean Instruments Prior to Terminal Sterilization/High Level Disinfection:** As a precleaning spray - Place instruments into a suitable container. Spray **this product** onto instruments to thoroughly wet all surfaces. Let stand [for] up to 10 min[utes]. Rinse instruments. A manual instrument cleaner - Thoroughly pre-rinse dirty instruments under running water to remove visible, gross debris. Scrub instruments using a stiff bristle brush until visibly clean. Rinse instruments thoroughly. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

**To Disinfect Non-Critical, Precleaned Instruments:** Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. Spray all surfaces of instruments with this product until thoroughly wet. Let stand [for] five -or- 5 min[utes]. **Note to include if the following organism appears on the product label:** For Canine Distemper, let stand [for] -or- contact time is 10 min[utes]. Wipe with a clean, damp cloth or paper towel and allow to air dry.

[Bracketed information is optional text.]. Highlighted text is new. Strike-through (text) means removed.

RC168041

**To disinfect food processing premises:** floors, walls and storage areas, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow surface to remain wet for 5 min[utes] -or- contact time listed [below] -or- on the label. **Note to include if the following organism appears on the product label:** For Canine Distemper, let stand [for] -or- contact time is 10 min[utes]. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be precleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

**Animal housing facilities [and poultry and swine premises]:** This product -or- **product name** removes dirt, grime, mold stains, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It [also] eliminates odors leaving surfaces smelling clean and fresh.

It cleans, disinfects and deodorizes hard, nonporous inanimate surfaces in one step. Its non-abrasive formula is designed for use [daily] on -or- [Use daily to clean and disinfect] hard, nonporous inanimate surfaces: [plated or stainless steel, chrome, glazed porcelain, glazed tile, laminated surfaces associated with floors, walls, countertops, cages, crates, kennels, and animal equipment] found in animal housing facilities.

**Disinfection of animal quarters and kennels:** For disinfection of precleaned animal quarters and kennels, apply this product [-or- **product name**]. Remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate the surfaces with the disinfecting solution for contact time listed [below] [or] [on label] [10 min[utes]]. Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be scrubbed with soap or detergent and rinsed with potable water before reuse.

**To Clean and Disinfect in a Veterinary Application:** Use to clean and disinfect hard, nonporous surfaces such as feeding and watering equipment, cages, utensils, instruments, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from walls, floors, and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering equipment. Preclean all surfaces with soap or detergent and rinse with water. Saturate surfaces with **this product** and let stand [for] ten -or- 10 min[utes]. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treated surfaces have been thoroughly rinsed with water and allowed to dry. Thoroughly scrub all treating, feeding, and watering appliances with soap or detergent, and rinse with potable water before re-use.

**Hospitals/Healthcare facilities:** This product -or- **product name** cleans, disinfects and deodorizes hard, nonporous [hospital] [medical] surfaces in one step [with no rinsing required].

When used as directed, this product -or- **product name** [contains [2.20% -and/or- 22,000 ppm] of active disinfectant making it] [is] effective against a [variety] [broad spectrum] of bacteria and viruses† [**microorganism list**] on hard, nonporous surfaces.

This product [-or- product name] is a one step [hospital-use] germicidal† [disinfectant] cleaner [and] [deodorant] [odor counteractant] [odor neutralizer] designed for general cleaning, [and] [disinfecting] [deodorizing] [of] hard, nonporous inanimate surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found in hospitals [in health care facilities] [on medical surfaces]. It [also] eliminates odors leaving [restroom] surfaces smelling clean and fresh. Use where odors are a problem.

[This product] is a ready to use [broad spectrum] [germicidal†] [disinfectant] cleaner and deodorizer designed for general cleaning [and] [disinfecting] [deodorizing] [of] hard, nonporous surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found [in] [hospitals] [public] [restrooms -and/or- bathrooms -and/or- facilities] [in healthcare facilities] [on medical surfaces].

†Pseudomonas aeruginosa (Pseudomonas), Salmonella enterica (Salmonella), Staphylococcus aureus (Staph), **insert a virus from the Organism table, as required for the qualified germs claim; then insert any other bacteria or virus desired from the Disinfection Organism table**

[Bracketed information is optional text.]. Highlighted text is new. Strike-through (text) means removed.

- [Get] [Be] [prepared] [ready] for [cold &] flu season
- Helps stop the spread of cold & flu viruses<sup>5</sup> on hard, nonporous surfaces
- Hospital Disinfectant
- Kills bacteria -and/or- viruses<sup>‡</sup> [and] [eliminates odors] [deodorizes]
- Kills bacteria -and/or- viruses<sup>‡</sup> [you can't see]
- Kills bacteria [in 5 min[utes]] and eliminates [the toughest] [tough] [urine -and/or- feces] odors on [hard, nonporous surfaces] [***[insert hard surface use sites from list]***]
- Kills bacteria that cause [urine -and/or- feces] odors on [hard, nonporous surfaces]
- Kills [most] [bathroom -and/or- facility] bacteria -and/or- viruses<sup>‡</sup>
- Kills Norovirus -and/or- Rhinovirus -and/or- Influenza<sup>†</sup> -and/or- E. coli<sup>1</sup> and Salmonella<sup>2</sup> -and/or- Staph<sup>3</sup>[ylococcus aureus] -and/or- Strep<sup>4</sup>[toccoccus] -and/or- Rhinovirus
- Kills cold -and/or- flu virus[es]<sup>5</sup> [on ***[insert use sites from this label]***]
- Kills cold & flu viruses<sup>5</sup> [and Enterovirus]
- Kills germs<sup>†</sup>
- Kills odor-causing bacteria [and eliminates] [the toughest] [tough] odors on [hard, nonporous surfaces] [***insert hard surface use sites]***]
- Kills odor-causing bacteria [eliminating] [the toughest] [tough] [urine -and/or- feces] odors on [hard surfaces -or- ***insert hard surface use site***]
- Kills odor causing bacteria in restrooms -or- ***insert hard surface use site(s)***
- Kills odor-causing bacteria leaving [hard] surfaces smelling fresh [and clean]
- Kills odor-causing bacteria on [hard surfaces] ***insert hard surface use surface(s) from list***
- Kills [the] cold [and/&] flu virus[es]<sup>5</sup>
- Kills [the] influenza virus -or- flu virus<sup>6</sup>
- Multi-surface cleaner disinfectant
- One-step disinfectant [cleaner]
- ***Product Name*** Meets -or- Compliant with OSHA Bloodborne Pathogen Standard
- Virucidal<sup>‡</sup>
- [With] disinfecting [disinfection]
- You can also use ***this product*** to disinfect [in] places that are difficult to reach

<sup>1</sup> Escherichia coli

<sup>2</sup> Salmonella enterica

<sup>3</sup> Staphylococcus aureus

<sup>4</sup> Streptococcus pyogenes

<sup>5</sup> Rhinovirus [(type 37)], -and/or- Influenza A2 virus

<sup>†</sup> Pseudomonas aeruginosa (Pseudomonas), Salmonella enterica (Salmonella), Staphylococcus aureus (Staph), ***insert a virus from the Organism table, as required for the qualified germs claim; then insert any other bacteria or virus desired from the Disinfection Organism table***

<sup>6</sup> Influenza A2 virus

### ***Emerging Viral Pathogen Claims***

This product qualifies for emerging pathogen claims against:

- Enveloped viruses
- Large non-enveloped viruses
- Small non-enveloped viruses

***This product*** has demonstrated effectiveness against viruses similar to ***insert name of emerging virus*** on hard, non-porous surfaces. Therefore, ***This product*** can be used against ***insert name of emerging virus*** when used in accordance with the directions for use against ***insert name of supporting virus(es)*** on hard, non-porous surfaces. Refer to the ***insert CDC -or- OIE*** website at ***insert pathogen-specific website address*** for additional information.

***Insert name of illness/outbreak*** is caused by ***insert name of emerging virus***. ***This product*** kills similar viruses and therefore can be used against ***insert name of emerging virus*** when used in accordance with the directions for use against ***insert name of supporting virus(es)*** on hard, non-porous surfaces. Refer to the ***insert CDC -or- OIE*** website at ***insert pathogen-specific website address*** for additional information.

### ***Soft Surface<sup>7</sup> Sanitization***

**To Sanitize Soft Surfaces<sup>7</sup>** [(Fabrics<sup>7</sup>): Hold bottle upright -or- Spray [6” – 8” from surface]. Spray until fabric is wet. **DO NOT SATURATE**. Let stand [for] 3 min[utes]. Allow to air dry. [For difficult odors or heavy fabrics, repeat application.] [Reapply as necessary.] [Gross] [heavy] soil must be removed prior to sanitizing.

For first time use on soft surfaces, spot test a small, inconspicuous area [and check with manufacture care guide before use].

<sup>7</sup>100% Cotton, 100% Polyester, 50%/50% blend of Cotton/Polyester

### ***Sanitization Soft Surface<sup>7</sup> Claims***

**Now[!] -and/or- New[!] -and/&/or- Improved[!] to be used as a claim descriptor only for the first 6 months of product on shelf**

- A proven sanitizer on soft surfaces<sup>7</sup>
- An effective soft surface<sup>7</sup> sanitizer
- Can be used to sanitize [soft surfaces<sup>7</sup>]  
***insert from soft surface(s)<sup>7</sup> list*** [as a spot sanitizer]

### General Cleaning

**General [Kitchen -and/or- Bathroom -and/or- Floor -and/or- Ceramic Tile -and/or- Porcelain -and/or- Shower Walls -and/or- Floors]:**

[Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product directly onto [urine] [feces] [bathroom] soils and wipe clean. -or- Directly apply [**this product**] with a [cloth -and/or- microfiber cloth -and/or- sponge -and/or- mop -and/or- trigger sprayer] to completely wet surface and wipe clean. No rinsing needed. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [soil] before wiping.

**To Clean/Remove Soap Scum:** Spray product onto soils and wipe clean [with a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge]. -or- Just spray on and wipe off [with a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge]. No rinsing necessary. For best results, use a dry paper towel -or- lint-free cloth -or- microfiber cloth -or- sponge. Repeat for heavily soiled areas. For stubborn stains -and/or- heavily soiled areas -and/or- tougher jobs, allow product to penetrate [dirt -and/or- soap scum] before wiping. For best results, use regularly to prevent dirt and soap scum build up.

**To Clean [Nonporous] Surfaces -and/or- Floors:** Spray soiled area, then wipe clean. -or- For spot cleaning, spray and wipe clean with damp sponge -or- mop -or- cloth.

**To Clean and Deodorize Toilets:** To clean and deodorize toilet bowl, squirt liberally (1/2 cup) on toilet sides and upper toilet bowl rim. Swab -or- brush all surfaces and flush.

### General Cleaning

#### Hard -and/or- Soft Surface Claims

**Now[!] -and/or- New[!] -and/&/or- Improved[!] to be used as a claim descriptor only for the first 6 months of product on shelf**

- A [shining] [pure] clean you can see [and trust]
- [Chlorine] bleach free
- Cleans to a shine
- Clear drying formula
- [Clorox®] essential for the purest clean
- Color safe
- Compatible -or- suitable with equipment surfaces -or- **insert equipment or surface sites**
- Compatible -or- suitable with equipment surfaces for use on hospital surfaces **insert from medical surfaces list**
- Complete Clorox® clean your patients -and/or- residents trust
- Complies with VOC laws
- Cuts cleaning time
- Designed for organic (protein base) stains
- Designed -or- ideal for daily [cleaning] [use]
- Destroy -and/or- Eliminate tough odors [and stains]
- Does not contain [chlorine] bleach
- Easy [cleaning]
- Effective [cleaner -or- cleaning] [formula]
- Fast penetrating formula effectively gets out a variety of tough pet stains and odors.
- Fits on your cart
- For direct application
- For easy cleaning
- For Outdoor Use [concrete -and/or- sidewalks -and/or- pavement -and/or- outdoor tile -and/or- grouting stains]
- General purpose cleaner
- Good for pretreatment for laundry
- Good for pretreatment of [many] **insert stain(s)/soil(s)** stains
- [Great] For removing [**insert stain(s)/soil(s)**] [on [**insert use site(s)**]]
- Great [for use] on soft surfaces<sup>7</sup> including [**insert soft surface<sup>7</sup> from list**]
- Ideal for use in schools -and/or- daycare -and/or- universities -and/or- public places
- Ideal for use on high touch surfaces
- Just spray[,] [and] wipe [and you're done] [; no scrubbing required!]
- Leaves [virtually] no residue
- Light touch up. Quick cleaning
- Low residue
- Makes cleaning easier
- Money-saving refill
- No build-up -and/or- residue
- No mixing, measuring, or rinsing required
- No phosphates
- No rinsing
- Non-abrasive
- Non-corrosive
- Non-flammable
- Packaging made with [25%] recycled -or- recyclable plastic
- Proof is in the clean
- Removes -and/or- Cleans [**insert stain(s)/soil(s)**] [on [**insert use site(s)**]]
- Removes dried on [blood] stains
- Safe for colorfast upholstery, fabrics, and carpets, including stain-resistant carpeting.
- Safe for use on **insert surface material(s) from the Miscellaneous Hard Surface Materials list**
- Safe [for use] on stain-resistant carpets
- [Removes] [Works on] [Effective on] [Great for] [Great for removing] [tough] [toughest] [pet -and/or- urine -and/or- feces -and/or- sweat -and/or- vomit] stains and odors [on hard surfaces] [on soft surfaces<sup>7</sup>] [on hard and soft surfaces<sup>7</sup>]
- Spray on curtains and other hard-to-wash fabrics to replace lingering odors with (long-lasting) freshness
- Spray trigger
- Strong cleaning
- [The] Smell of clean
- Tough on Grime
- Use on [**insert soft surface(s)<sup>7</sup> from list**] [**and other soft surfaces<sup>7</sup>**]
- VOC Compliant
- Works -and/or- Effective on **insert stain(s)/soil(s)** [in **insert use site(s)**]
- Works [great for] -and/or- Effective on body soils -or- **insert stain(s)/soil(s)** [for pre-treatment for laundry] [on **insert soft surface<sup>7</sup> use site**]
- [Works on] [Effective on] [Great for] [both] hard and soft surfaces

***Hard Surface Use Sites***

This product ***product name*** is designed specifically as a general [ready-to-use] [non-abrasive] cleaner and disinfectant for use in: -and/or-

This product ***product name*** is formulated to disinfect hard, nonporous, inanimate surfaces:

Animal Life Science Laboratories	ICU Areas	Pet Shops
Athlete -and/or- Recreational Facilities	Locker Rooms	Public Restrooms
[Commercial] Kitchens	Lodging Establishments	Retail Businesses
Daycares	Long Term Care [facilities]	Schools
Food Processing Plants	Manufacturing Facilities	Shower Rooms
Food Service Establishments [Restaurants]	Nursing Homes	Transportation Terminals
Homes	Office Buildings	Veterinary Clinics
Hospitals	Operating Rooms	
Hotels	Patient Rooms	

***Hard, Nonporous Use Surfaces [Materials]***

baked enamel surfaces	glazed ceramic tile	shower stalls
bathrooms	glazed porcelain	stainless steel surfaces
bathtubs	laminated surfaces	toilets
cabinets	metal surfaces	urinals
chrome	plastic and painted surfaces	vinyl
floors	plastic surfaces	walls

***Additional Cleaning and Deodorizing Surfaces***

Grout	Pavement	Sidewalks
Concrete	Outdoor tile	Carpet
Cement		

***General Stains -and/or- Soils***

Bathroom soils -and/or- stains	Feces [stains] [soils]	Pen -or- Ink [Marks]
Bathtub ring	Fingerprints	Pen [stains]
Beverage stains	Food [stains] [residue[s]] -or- [soil[s]]	Pet stains [soils]
Blood stains -and/or- soils	Fruit [stains]	Rust [stains]
Body [oils] [fluids] [stains] [soils]	Grime	Smudges
Cat urine	Heel Marks -or- scuffs	Soap scum
Cat feces	Human soils	Soda [stains]
Coffee [stains]	Incontinence [stains] [soils]	Sticky food messes -or- spills
Cosmetics	Ink [stains]	Sweat [stains] [soils]
Crayon and Pencil [marks]	Institutional stains	Tea [stains]
Dead skin	Juice [stains]	Toner [stains]
Dirt	Laboratory stains [soils]	Tough soils [Stains]
Dog urine	Mold stains -and/or- Mildew stains	Urine [stains] [soils]
Dog feces	Mud	Vomit [stains] [soils]
Everyday messes	Other common soils -and/or- stains	Wine [stains]
Fecal matter	Other organic matter
