Subject: Label Amendment – Minor Label Modifications
Product Name: Stream
EPA Registration Number: 67619-33
Application Date: June 23, 2017
Decision Number: 532006

Dear Ms. Lawson:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

The following statement only to be used on institutional labels with medical use sites, medical devices and/or bloodborne pathogens:

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Special Instructions for Use Against HIV-1, HBV, and HCV

This product kills HIV-1, HBV and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings [(hospitals, nursing homes)] or other settings in which there is an expected likelihood of soiling of hard, nonporous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B [(Virus)] (HBV) and Human Hepatitis C [(Virus)] (HCV).

Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact Time:** Allow surface to remain wet for 1 min[ute] for HBV and HCV and 30 sec[onds] for HIV-1. The contact times for other bacteria and viruses may differ. See product label for contact times. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

To Preclean Instruments Prior to Terminal Sterilization/High Level Disinfection: As a precleaning spray - Place instruments into a suitable container. Spray **this product** onto instruments to thoroughly wet all surfaces. Let stand [for] up to 10 min[utes]. Rinse instruments. A manual instrument cleaner - Thoroughly pre-rinse dirty instruments under running water to remove visible, gross debris. Scrub instruments using a stiff bristle brush until visibly clean. Rinse instruments thoroughly. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Disinfect Non-Critical, Precleaned Instruments: Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. Spray all surfaces of instruments with this product until thoroughly wet. Let stand [for] five -or- 5 min[utes]. **Include if the following organism appears on the product label:** For Canine Distemper, let stand [for] -or- contact time is 10 min[utes]. Wipe with a clean, damp cloth or paper towel and allow to air dry.

To disinfect food processing premises: floors, walls and storage areas, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow surface to remain wet for 5 min[utes] -or- contact time listed [below] -or- on the label. **Include if the following organism appears on the product label:** For Canine Distemper, let stand [for] -or- contact time is 10 min[utes]. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be precleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

Animal housing facilities [and poultry and swine premises]: This product -or- **product name** removes dirt, grime, mold stains, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It [also] eliminates odors leaving surfaces smelling clean and fresh.

It cleans, disinfects and deodorizes hard, nonporous surfaces in one step. Its non-abrasive formula is designed for use [daily] on -or- [Use daily to clean and disinfect] hard, nonporous surfaces: [plated or stainless steel, chrome, glazed porcelain, glazed tile, laminated surfaces associated with floors, walls, countertops, cages, crates, kennels, and animal equipment] found in animal housing facilities. **Disinfection of animal quarters and kennels:** For disinfection of precleaned animal quarters and kennels, apply this product -or- **product name**. Remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate the surfaces with the disinfecting solution for contact time listed [below] [or] [on label] [10 min[utes]]. Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be scrubbed with soap or detergent and rinsed with potable water before reuse.

To Clean and Disinfect in a Veterinary Application: Use to clean and disinfect hard, nonporous surfaces such as feeding and watering equipment, cages, utensils, instruments, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from walls, floors, and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering equipment. Preclean all surfaces with soap or detergent and rinse with water. Saturate surfaces with **this product** and let stand [for] ten -or- 10 min[utes]. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treated surfaces have been thoroughly rinsed with water and allowed to dry. Thoroughly scrub all treating, feeding, and watering appliances with soap or detergent, and rinse with potable water before re-use.

Hospitals/Healthcare facilities: This product -or- **product name** cleans, disinfects and deodorizes hard, nonporous [hospital -and/or- medical] surfaces in one step [with no rinsing required].

When used as directed, this product -or- **product name** contains [2.20% -and/or- 22,000 ppm] of active disinfectant making it -and/or- is effective against [a] variety -or- broad spectrum [of] bacteria and viruses† -and/or- **insert organism(s) from microorganism list** on hard, nonporous surfaces.

This product -or- product name is a one step [hospital-use] germicidal† [disinfectant] cleaner [and] deodorant -or- odor counteractant -and/ or- odor neutralizer designed for general cleaning, -and/or- disinfecting -and/or- deodorizing] [of] hard, nonporous surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found in hospitals [-and/or- in health care facilities [on medical surfaces]]. It [also] eliminates odors leaving [restroom] surfaces smelling clean and fresh. Use where odors are a problem.

[This product] is a ready to use broad spectrum -and/or- germicidal† -and/or- disinfectant cleaner and deodorizer designed for general cleaning -and/or- disinfecting -and/or- deodorizing [of] hard, nonporous surfaces. Removes dirt, grime, mold stains, food residue, blood, urine, feces and other organic matter commonly found [in] [hospitals -and/or- public] restrooms -and/or- bathrooms -and/or- facilities -and/or- in healthcare facilities [on medical surfaces].

Soft Surface⁷ Sanitization

To Sanitize Soft Surfaces⁷ [(Fabrics⁷): Hold bottle upright -or- Spray [6" – 8" from surface]. Spray until fabric is wet. DO NOT SATURATE. Let stand [for] 3 min[utes]. Allow to air dry. [For difficult odors or heavy fabrics, repeat application.] [Reapply as necessary.] [Gross -or- heavy] soil must be removed prior to sanitizing.

Deodorization

To Deodorize: Spray until thoroughly wet. -or- Apply this product -and/or- with trigger sprayer to completely wet all surfaces. [DO NOT SATURATE.] Then wipe -or- Allow to air dry. For heavily soiled areas, a precleaning is required.

General Cleaning

General [Kitchen -and/or- Bathroom -and/or- Floor -and/or- Ceramic Tile -and/or- Porcelain -and/or- Shower Walls -and/or- Floors]: [Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product directly onto urine -and/or- feces -and/or- bathroom soils and wipe clean. -or- Directly apply **this product** with a [microfiber] cloth -and/or- sponge -and/or- mop -and/or- trigger sprayer to completely wet surface and wipe clean. No rinsing needed. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [soil] before wiping.

To Clean/Remove Soap Scum: Spray product onto soils and wipe clean [with a dry paper towel -or- [lint-free -or- microfiber] cloth -or- sponge]. -or- Just spray on and wipe off [with a dry paper towel -or- [lint-free -or- microfiber] cloth -or- sponge]. No rinsing necessary. For best results, use a dry paper towel -or- [lint-free -or- microfiber] cloth -or- sponge. Repeat for heavily soiled areas. For stubborn stains -and/or- heavily soiled areas -and/or- tougher jobs, allow product to penetrate [dirt -and/or- soap scum] before wiping. For best results, use regularly to prevent dirt and soap scum build up.
