Subject: PRIA Label Amendment – Add efficacy claims for additional microorganisms
Product Name: Puff
EPA Registration Number: 67619-38
Application Date: January 19, 2018
Decision Number: 537941

Dear Mr. Herber:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

- **Animal Housing Facilities (and Poultry and Swine Premises):** *This product* removes dirt, grime, blood, urine, fecal matter and other common soils found in *insert use site(s) from Table 2* -and/or- other small animal facilities. It [also] eliminates odors leaving surfaces smelling clean and fresh.
- This product -or- *product name* cleans, disinfects and deodorizes hard, nonporous surfaces in one step¹¹. Its non-abrasive formula is designed for use on *insert surface(s) from Table 1 -and/or- insert surface material(s) from Table 3*.
- Use daily to clean and disinfect hard, nonporous surfaces *insert surface material(s) from Table 3* associated with *insert surface(s) from Table 1 -and/or- insert use site(s) from Table 2* found in animal housing facilities.
- **Public Restrooms:** This product -or- *product name* is a one-step¹¹ disinfectant cleaner and deodorant odor-counteractant -or-odor-neutralizer designed for general cleaning, [and] [disinfecting -or- deodorizing on hard, nonporous surfaces.
- This product -or- *product name* cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on [restroom surfaces]: glazed ceramic [restroom surfaces], glazed porcelain, chrome, stainless steel and plastic surfaces associated with floors, walls, fixtures, toilets, urinals, sinks, shower rooms and locker rooms.
- **Non-Acid Bowl [& Bathroom] Disinfectant Cleaner.** This product -or- *product name* is (also) a [ready-to-use] non-acid [bowl and] bathroom cleaner that cleans, disinfects and deodorizes in one easy step¹¹. It cleans, disinfects and deodorizes *insert surface(s) from Table 1 -and/or- insert surface materials from Table 3* and all nonporous surfaces found in the bathroom -or- restroom [in the presence of organic soil].
- This product -or- *product name* eliminates odors, leaving bathrooms -or- restrooms smelling clean and fresh. Use where odors are a problem. It cleans, disinfects, and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use [Use it daily] on restroom -or- bathroom surfaces[:] *insert surface material(s) from Table 3* plastic surfaces associated with *insert surface(s) from Table 1 -and/or- insert sites from Table 2*.
- **EFFICACY TESTS HAVE DEMONSTRATED THAT THIS PRODUCT IS AN EFFECTIVE BACTERICIDE AND VIRUCIDE[‡] IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).**

Emerging Viral Pathogen Claims

Product name -or- this product qualifies for emerging pathogen claims against:

- Enveloped viruses
- Large non-enveloped viruses
- Small non-enveloped viruses

<i>For an emerging viral pathogen that is a/an..</i>	<i>..follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Rotavirus Rhinovirus Type 39 Rhinovirus Type 14 Canine Parvovirus Coxsackievirus [type] B3 virus Feline Calicivirus (as surrogate for Norovirus) Poliovirus
Large, non-enveloped virus	Rhinovirus Type 39 Rhinovirus Type 14 Canine Parvovirus Coxsackievirus [type] B3 virus Feline Calicivirus (as surrogate for Norovirus) Poliovirus
Small, non-enveloped virus ¹³	Rhinovirus Type 39 Rhinovirus Type 14 Canine Parvovirus Coxsackievirus [type] B3 virus Feline Calicivirus (as surrogate for Norovirus) Poliovirus

Product name -or- this product has demonstrated effectiveness against viruses similar to **insert name of emerging virus** on hard, nonporous surfaces. Therefore, **product name** -or- this product can be used against **insert name of emerging virus** when used in accordance with the directions for use against **insert name** of supporting virus(es) on hard, nonporous surfaces. Refer to the CDC -or- OIE website at **insert pathogen-specific website address** for additional information.

Insert name of illness/outbreak is caused by **insert name of emerging virus**. **Product name** -or- this product kills similar viruses and therefore can be used against **insert name of emerging virus** when used in accordance with the directions for use against **insert name of supporting virus(es)** on hard, nonporous surfaces. Refer to the CDC -or- OIE website at **insert pathogen-specific website address** for additional information.
