ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates and may contaminate water through runoff. K-Pool 7 is for use in swimming pools only. Equipment washwater/rinsate and/or

treated effluent must not be discharged where it will drain into lakes, streams, ponds or other public water bodies as injury to non-target plants and animals may occur.

Do not discharge effluent containing this product into lakes, ponds, streams, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authorities. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal Law to use K-Pool 7 in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

Do not apply K-Pool 7 in a way that will contact adults, children, or pets, either directly or through drift.

General Precautions and Restriction

- Do not enter or allow others to enter until application is complete.
- Undiluted K-Pool 7 or concentrations above 1.0 ppm Cu⁺⁺ may be injurious to crops, grass, ornamentals and other foliage. Do not apply in such a way that the concentrated product comes in contact with crops, ornamentals, grass or desirable plants.
- Do not allow back-flush filter water to come in contact with desirable plant species.

General Information and Application Directions

K-Pool 7 algaecide provides effective prevention/control of algae growth in all types of swimming pools. Even though it affords long-term algae control, periodic additions on a scheduled basis will assure lasting algae control. For heavy algal infestations, more drastic treatment such as super-chlorination may be required to eradicate the algae.

Dilute K-Pool 7 with at least nine (9) parts of water and sprinkle around edge of pool. Add additional amounts K-Pool 7 every two weeks according to directions in the below chart. To estimate the gallon capacity of your pool: Measure length (L), Width (W) and average Depth (D) in feet.

- For square or rectangular pools: $L \times W \times D \times 7.5 = \text{Gallons}$.
- For Circular or elliptical pools: $L \times W \times D \times 5.9 = \text{Gallons}$.

For newly filled pools, begin pool maintenance with K-Pool 7 Algaecide when the pool is first filled with water. Add K-Pool 7 Algaecide according to the size of pool as given in the chart.
