**RE: Notification per PRN 98-10
Sonar Extra, EPA Reg. No. 67690-48**

Dear Ms. Miller:

On behalf of SePRO Corporation (EPA Company #67690), I am submitting a notification for Sonar Extra per PRN 98-10. It was discovered that the Storage and Disposal section of the label contained erroneous information stating the product contained dye, which it does not. After a discussion with Jim Stone on 1/13/09, Mr. Stone directed me to remove the text via notification as this text was left on the label in error by both the Agency and SePRO and constitutes a typo.

Please find enclosed the following information to support this request:

- EPA form 8570-1, Application for Pesticide;
- One (1) copy of the final printed label for Sonar Extra; and
- One (1) copy of the alternate brand name label for Sonar RTU.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 USC Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions regarding this submission, please contact me at (317) 580-8286 or amyd@sepro.com.

Sincerely,

Amy Dugger-Ronyak
