**KEEP OUT OF REACH OF CHILDREN**

### CAUTION

#### FIRST AID

IF SWALLOWED: Ingestion may irritate the digestive tract, seek medical attention if symptoms persist or if material is ingested in large quantities. Call a physician for advice.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

#### PRECAUTIONARY STATEMENTS - HOUSEHOLD

Hazards to Humans and Domestic Animals: Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards: Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

#### DIRECTIONS FOR USE - HOUSEHOLD

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### STORAGE AND DISPOSAL - HOUSEHOLD

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

DISPOSAL: Do not reuse container. Securely wrap original container in several layers of newspaper and discard in trash.

Please read entire label. Use only as directed. Shake well before each use. Thoroughly wet all parts of the pests and plants. Repeat treatment in 1 - 2 weeks if needed.

#### DIRECTIONS FOR MIXING - HOUSEHOLD

For 2% formulation: mix 4 teaspoons of concentrate with 1 quart water (or 2 fluid oz. concentrate with 3 quarts water). Shake well before each use and stir or shake diluted spray frequently during use. Apply one quart of formulation for 3 square yards.

#### PESTS/SITES AND APPLICATION INSTRUCTIONS - HOUSEHOLD

Apply at a rate of 2% formulation. Using hand-held trigger sprayers, hand sprayers or backpack sprayers, thoroughly spray insect pests with diluted product until plants are wet. Repeat treatment in 1-2 weeks if needed. Apply one quart of formulation for 3 square yards.

#### Controls:

Adelgids  
Leafhoppers  
Phylloxera  
Sawfly larvae

Aphids  
Mealybugs  
Psyllids  
Whitefly

Mites  
Scale  
Immature plant bugs

2/2

For use on:

VEGETABLES	FRUITS & NUTS	ORNAMENTAL & SHADE TREES
Beans	Apples	Birch
Cabbage	Cherries	Evergreens
Corn	Citrus	Holly
Curcubits	Figs	Oak
Melons	Grapes	
Peas	Pears	
Potatoes	Nuts	
Soybeans	Raspberries	
Tomatoes	Strawberries	
Houseplants; Flowering, Foliage and Bedding Plants		

**DIRECTIONS FOR DORMANT USE - HOUSEHOLD**

Controls egg stages of pests present in dormant season and scale insects, mites and mealybugs on dormant shrubs (such as roses), evergreens, woody plants, fruit trees and shade trees. For dormant use apply a 2% formulation, mix 4 teaspoons of concentrate with 1 quart water (or 2 fluid ounces concentrate with 3 quarts water). Thoroughly wet the dormant plants or trees.

**USE PRECAUTIONS - HOUSEHOLD**

Oil removes the glaucous (blue) bloom from such evergreens as Colorado blue spruce and Koeler spruce. Use caution on blooms and buds and on oil sensitive plants such as: Chamaecyparis, Cryptomeria, Japanese Holly, Red Cedar and Smoke Tree. If concerned about sensitivity of plants, test spray a portion of the plant and wait several days to determine if burn occurs before spraying larger areas.

Do not combine with sulfur and do not follow a previous application of sulfur or apply sulfur following an application of this material until sufficient time has elapsed for safety (at least 30 days).

When used in combination with or immediately before or after spraying, this product may increase the phytotoxicity of dinitro compounds, or fungicides such as Captan, Folpet, Karathene and Moresstan, or copper compounds. If in doubt, treat a small area with a combination spray and wait several days to determine if burn occurs.

Do not use NEU1160 spray when temperatures are above 90°F. When temperatures drop below 32°F during the night, do not spray tree and vine crops until daytime temperatures have warmed to a point above 35°F and crops are free from moisture due to melting frost or heavy dew.

Use of the NEU1160 on citrus after October 1 may increase the tree's susceptibility to cold damage.

**NOTICE TO BUYER**

Seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Buyer assumes all risk of any such use. Seller makes no other warranties, either expressed or implied.

- Dormant and growing season insect spray.
- Kills all stages of insects, including eggs.
- Based on plant oils.
- Residual protection against mites.
- Does not persist in the environment.
