EPA Establishment # 67702-WG-1

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: **CAUTION.** Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling

Environmental Hazards: This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

Physical or Chemical Hazards: Combustible. Do not use or store near heat or open flame.

3 7 5

STORAGE AND DISPOSAL

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

DISPOSAL: Do not reuse container. Securely wrap original container in several layers of newspaper and discard in trash.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Please read entire label. Use only as directed. Shake well before each use. Thoroughly wet all parts of the pests and plants. Repeat treatment in 1-2 weeks if needed. May be used on edible crops up to and including day of harvest.

PESTS/SITES AND APPLICATION INSTRUCTIONS

PYROL RTU will control insect pests such as: aphids, beetles (e.g., Colorado potato beetle, flea beetle, Japanese beetle, asparagus beetle), caterpillars (e.g., gypsy moth caterpillars, tent caterpillar, diamondback moth larvae, leafrollers), ants, mealybugs, mites, leafhoppers, scale, thrips, fungus gnats, whitefly, adelgids, plant bugs, sawfly larvae, psyllids, spittlebugs, and phylloxera.

For use indoors, outdoors and in greenhouses on fruit and nut trees (e.g., apples, cherries, peaches, pears, nuts); flowering, foliage and bedding plants; corn; soybeans; melons; tomatoes; vegetables (e.g., beans, cabbage, cucurbits, peas, potatoes); figs; small fruits (e.g., grapes, strawberry, raspberry); citrus; ornamental and shade trees (e.g., birch, evergreens, holly, oak); houseplants.

DIRECTIONS FOR DORMANT USE

Controls egg stages of pests present in dormant season and scale insects, mites and mealybugs on dormant shrubs (e.g., roses), evergreens, woody plants, fruit trees and shade trees. Thoroughly wet the dormant plants or trees.

USE PRECAUTIONS

Oil removes the glaucous (blue) bloom from such evergreens as Colorado blue spruce and Koster spruce. Use caution on blooms and buds and on oil sensitive plants such as: Chamaecyparis, Cryptomeria, Japanese Holly, Red Cedar and Smoke Tree. If concerned about sensitivity of plants, test spray a portion of the plant and wait several days to determine if burn occurs before spraying larger areas.

Do not combine with sulfur and do not follow a previous application of sulfur or apply sulfur following an application of this material until sufficient time has elapsed for safety (at least 30 days).

Do not use PYROL RTU spray when temperatures are above 90°F. When temperatures drop below 32°F during the night, do not spray tree and vine crops until daytime temperatures have warmed to a point above 35°F and crops are free from moisture due to melting frost or heavy dews.

Use of the PYROL RTU on citrus after October 1 may increase the tree's susceptibility to cold damage.

[The registrant may use any of these optional statements:

"NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Buyer assumes all risk of any such use. Seller makes no other warranties, either expressed or implied."

OR

"Unconditionally guaranteed by W. Neudorff GmbH KG. If for any reason you are not satisfied with this product, send proof of purchase to the address shown and we will gladly refund your purchase price."]
