OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

March 19, 2015

Mr. Walter G. Talarek
Agent for W. Neudorff GmbH KG
1008 Riva Ridge Drive
Great Falls, VA 22066-1620

Subject: Label amendment- minor revisions to product label
Product Name: H02 Moss Killer Concentrate
EPA Registration Number: 67702-12
Application Date: February 9, 2015
Decision Number: 500179

Dear Mr. Talarek:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a) (1) (E). 40 CFR 156.10(a) (5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

2/19

Page 2 of 2
EPA Reg. No.67702-12
Decision No. 500179

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Linda A. DeLuise by phone at 703.305.5428, or via email at deluise.linda@epa.gov.

Sincerely,

Richard Gebken

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> -Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. -Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> -Take off contaminated clothing. -Rinse skin immediately with plenty of water for 15-20 minutes. -Call a poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. [For additional information on this pesticide product, you may call the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information [alternatively, supplemental distributors may insert their own toll free numbers and hours of operation.]]</p>	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This product may be hazardous to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather or when rain is not predicted for

the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read and follow all applicable directions and precautions on this label before using.

PESTS: H02 Moss Killer Concentrate is effective in controlling mold*, mildew*, mosses, algae, lichens, and liverworts.

*not including species considered public health pests

[The registrant may use one of the two statements:

SITES: H02 Moss Killer Concentrate may be used on lawns, golf courses, parks, playgrounds and ornamental gardens.

[Other Sites][Hard surfaces]: H02 Moss Killer Concentrate may also be used around and on homes and other buildings, and home greenhouses. It may be used on: roofs; cedar shakes and composition shingles; cedar siding; stucco; cedar, redwood and CCA-treated wood decks and fences; brick, stone and concrete walkways, sidewalks and driveways; growing containers; other structural surfaces; hardened bark of trees; bark mulch; pavement; gravel; patios; asphalt; automobile exteriors; and the exteriors of motor homes and boats.

OR

Where to Use:

- [H02 Moss Killer Concentrate] may be used on lawns, golf courses, parks, playgrounds and ornamental gardens.
- [H02 Moss Killer Concentrate] may be used around and on homes and other buildings, and home greenhouses. It may be used on: pavement; gravel; patios; asphalt; automobile exteriors; and the exteriors of motor homes and boats; hardened bark of trees; bark mulch; brick, stone and concrete walkways, sidewalks and driveways; growing containers; other structural surfaces; roofs; cedar shakes and composition shingles; cedar siding; stucco; cedar, redwood and CCA-treated wood decks and fences.]

APPLICATION DIRECTIONS

Golf Courses: Dilute concentrate by mixing one part concentrate with 19 parts water (6.8 fl. oz. in 1 gallon water). For putting greens, fairways and other areas apply 12 to 25 gallons per 1000 ft² (500 to 1000 gallons/acre). [For thick moss (greater than 1 inch), use up to 50 gallons per 1000 ft²].

Parks and Playgrounds: Dilute concentrate by mixing one part concentrate with 19 parts water (6.8 fl. oz. in 1 gallon water). Thoroughly soak moss with solution, applying 12 to 25 gallons per 1000 ft² (500 to 1000 gallons/acre). [For thick moss (greater than 1 inch), use up to 50 gallons per 1000 ft²].

[Domestic Lawns and Ornamental Gardens: Dilute concentrate by mixing one part concentrate with 19 parts water (6.8 fl. oz in 1 gallon water). Thoroughly soak moss with solution, applying 12 to 25 gallons per 1000 ft² (500 to 1000 gallons/acre). [For thick moss (greater than 1 inch), use up to 50 gallons per 1000 ft²].

OR

Domestic Lawns and Ornamental Gardens: Thoroughly soak moss with solution, this XX fl. Oz. bottle will cover XX sq. ft.]

Follow-Up on Golf Courses, Parks, Playgrounds, Domestic Lawns and Ornamental Gardens: Lightly rinse treated areas with water (1 gallon per 1000 ft² or less) 15 to 30 minutes after treatment to avoid grass and plant damage. Test spray a small area prior to using. Do not heavily irrigate for at least 6 hours. Re-apply every 2 weeks or as required. If it rains within one day of treatment, an additional application may be required. Moss will turn brown after a few days. Areas can be re-sown 5 days after treatment.

[Other Sites][Hard surfaces]: Dilute concentrate by mixing one part concentrate with 9 to 19 parts water (6.8 to 13 fl. oz in 1 gallon water). Apply 8 to 12 gallons of solution per 1000 ft². [For thick moss (greater than 1 inch), use 25 gallons of solution per 1000 ft². If moss is dry, thoroughly wet moss with water before treating]. Repeat treatment annually, or when new [mold], [mildew], [moss], [algae], [lichens] or [liverworts] are visible.

Automobiles, Motor Homes and Boats: Use on the outside surfaces only. Spray thoroughly with soap solution using hose-end sprayer. [Optional: Alternatively, dilute concentrate by mixing one part concentrate with 19 parts water (6.8 fl. oz in 1 gallon water) in a pail and apply to surfaces using a brush.] Scrub surfaces thoroughly and rinse with water.

WHEN TO USE: H02 Moss Killer Concentrate can be used at any time during the year. [Best results are obtained with actively growing moss in the spring or fall. Do not use on lawns when temperature exceeds 85°F.] During warmer weather apply late in the day. Application during cold weather may delay appearance of [moss], [mold] and [mildew] damage.

[METHODS OF APPLICATION: Apply with any standard hand-held sprayer, backpack sprayer, tank sprayer, [hose-end sprayer (optional method)], mop, watering can or

brush. Keep sprayer moving to get an even application. In areas of hard water, use water softeners.

OR

METHODS OF APPLICATION: Apply with hose-end sprayer. Keep sprayer moving to get an even application. [In areas of hard water, use water softeners.]]

[Optional hose-end sprayer directions that may be presented on the container or supplemental wording, either:

-Hose-End Sprayer Directions

Follow the directions for using the Hose-End sprayer. This XXX gallon bottle will cover up to XXX square feet.

How to use hose-end sprayer:

Remove the closure and save it for resealing the container when you are finished. Insert the dip tube of the hose-end applicator into the bottle and seal the applicator head tightly to the bottle.

Connect spray nozzle to garden hose.

Turn on the water from the faucet.

When you are ready to spray, turn the blue knob on top so that it points to the MIX position on the spray head. (Fig. 1)

The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

When treating lawns, wait 15 to 30 minutes after spraying, and then lightly rinse treated area with water by using the H2O setting on the sprayer. This will reduce the likelihood of grass damage. Roofs and walls do not require rinsing.

To stop spraying:

When you are finished spraying or if you have to stop spraying at any time, turn the blue knob back to the OFF position. (Fig. 3)

Turn off the water from the faucet.

Turn the blue knob to H2O then OFF; to drain the water from the hose. (Fig. 4)

Unscrew spray nozzle from hose. Remove hose-end from container.

Reseal the container with the child-resistant closure. Rinse the hose-end applicator.]

OR

HOSE END SPRAYER INSTRUCTIONS
 Shake before using.

HOW TO USE:

1. Attach garden hose to spray nozzle.
2. Turn on water supply.

4. Point nozzle toward plants and turn water control knob to "On". Product will automatically mix with water. Spray upper and lower leaf surfaces thoroughly.

3. Bend safety tab down and turn control to "water".

OR

Test Spray Small Area Prior To Using.

Hose-End Sprayer Directions:

This 1 quart bottle will cover up to 500 square feet.

1. Before attaching the sprayer to garden hose, make sure that the blue water flow switch is in the "OFF" position and the red product flow switch is in the up, "CLOSED" position.
2. Connect spray nozzle to garden hose while pointing sprayer in a direction away from face and body.
3. Remove the white plastic safety tab marked "PULL OUT" in front of the red product flow switch.
4. To begin spraying, turn on water at the faucet; move blue water flow switch to the "ON" position; and, turn red product flow switch to the forward, "OPEN" position.

To Stop Spraying:

1. Turn blue water flow switch to "OFF" position and red product flow switch to "CLOSED" position.
2. Turn off the water at the faucet.
3. Unscrew spray nozzle from garden hose, rinse outside of container and store any unused product according to the Storage and Disposal Directions.

Optional Diagram

OR

Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. Turn on water at faucet.

Twist the small, star-shaped, blue product-control button to align the flat portion with the lock tab. Push the button in to open.

To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal. Water automatically mixes with the concentrate as you spray. Spray surfaces thoroughly.

To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. To close, push in the small round button opposite the star-shaped product-control button. Turn off faucet.

Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle.

4/19

Optional Diagram:

OR:

1. Attach garden hose to spray nozzle. Turn on water supply.
2. Bend safety tab down and turn control to "water".
3. Point nozzle toward plants and turn water control knob to "On". Product will automatically mix with water. Spray upper and lower leaf surfaces thoroughly.

To Stop Spraying:

When you are finished spraying or if you have to stop spraying at any time, turn the blue knob back to the OFF position.

Turn off the water from the faucet.

Turn the blue knob to H₂O then OFF, to drain the water from the hose.

Unscrew spray nozzle from hose. Remove hose end from container.

Reseal the container with the child-resistant closure. Rinse the hose-end applicator

12/19

OR

Shake container well before using.

Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the safety tab in the valve notch.

Turn on the water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you don't come in contact with the treated area.

To BEGIN spraying, point nozzle toward treatment site and

Bend the safety tab back (located at the right of the yellow dial) with your thumb,

Using your other hand, QUICKLY turn the dial clockwise until it stops. Water will automatically mix with the product.

Spray moss thoroughly. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas.

To STOP spraying, QUICKLY turn the dial in the opposite direction of "ON" until it stops and the safety tab engages the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.

To STORE unused product, make sure the dial is in the "OFF" position with safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.

OR

Dynasty Hose End Sprayer Directions:

This 1 quart bottle will cover up to 500 square feet.

1. Before attaching the sprayer to garden hose, make sure that the Water Flow Switch (top switch) is in the "OFF" (to the rear) position.
2. Connect spray nozzle to garden hose while pointing sprayer in a direction away from face and body.
3. Remove the safety pin in front of the Product Flow Switch (side switch).
4. Rotate Product Flow Switch pin forward 90 deg. to the "ON" position.
5. Aim front of nozzle toward area to be covered and begin spraying by moving water valve (top switch) to the "ON" position (forward).

To Stop Spraying:

1. Turn Water Flow Switch (top switch) to "OFF" position (to the rear) and Product Flow Switch (side switch) back to the "OFF" position.
2. Turn off the water at the faucet.

3. Unscrew spray nozzle from garden hose, rinse outside of container and store any unused product according to the Storage and Disposal Directions.

OR

APPLICATION DIRECTIONS FOR Ready-Spray	
Follow the directions for using the Hose-End Sprayer. This 32 oz. bottle will cover up to 500 sq. ft.	
CONNECT	Shake well before using. Connect sprayer to hose. Turn on water.
SPRAY	Extend the hose to the farthest point in the lawn or garden away from the water faucet. This will minimize walking on the treated area. To begin spraying, point nozzle in the direction you want to spray. Bend small plastic tab back and turn knob clockwise to ON position. Spray as directed.
FINISH	To stop spraying, bend small (insert: color of applicator) plastic tab back and turn knob counter-clockwise to OFF position. Turn off water. Relieve water pressure by bending the plastic tab back and turning knob to ON position until water slows to a drip. Then, turn knob back to OFF position. Disconnect sprayer from hose.

OR

Ready-Spray® II / Ready-Spray® 2 / (Applicator Name) [Hose End Applicator]
Shake container gently before using. This 32 oz bottle will cover up to 500 sq ft.

Connect: [illustration]	[Connect] [Attach] [sprayer] [bottle] to [hose] [end of hose]. Turn on water.
Spray: [illustration]	To begin spraying, [disengage safety lock and] point nozzle in the direction you want to spray. Slide thumb activation switch forward to ON position. Apply evenly to [surfaces and] lawns. Spray as directed.
Finish: [illustration]	To STOP spraying, slide thumb activation switch to OFF position. Turn off water. Relieve water pressure by sliding thumb switch to [ON] [WATER] [WATER ONLY] position until water slows to a drip. Then, slide switch back to OFF position [and engage safety lock]. Disconnect the sprayer from hose.

Or

-Hose-End Sprayer Directions

Follow the directions for using the Hose-End sprayer. This XXX gallon bottle will cover up to XXX square feet.

How to use hose-end sprayer:

1. Connect spray nozzle to garden hose.
2. Turn on the water from the faucet.
3. When you are ready to spray, turn the knob so that it points to the ON position.
4. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray.
5. When treating lawns, wait 15 to 30 minutes after spraying, and then lightly rinse treated area with water. This will reduce the likelihood of grass damage. Roofs and walls do not require rinsing.

To stop spraying:

1. When you are finished spraying or if you have to stop spraying at any time, turn the knob back to the OFF position.
2. Turn off the water from the faucet.
3. Unscrew spray nozzle from hose.

STORAGE AND DISPOSAL

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame. Do not store at temperatures below 32°F.

CONTAINER DISPOSAL:

If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

13/19

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[Optional marketing claims and product information that may be presented on the container label or supplemental labeling:

- Quick Facts
- Read the label first!
- Eliminates unwanted moss, algae and lichens quickly
- Kills within hours
- Fast acting
- Kills (mold), (mildew), (algae), (moss) and (lichens)(quickly and effectively)
- (mold), (mildew), (algae), (moss) and (lichen) killer.
- Spray on, (clean off)(kills) (moss), (mold), (mildew), (lichens) & (algae)
- Removal of (moss), (mold), (mildew), (lichens) & (algae) from surfaces
- Controls (moss), (mold), (mildew), (lichens) & (algae) on exterior surfaces
- Cleans surfaces (moss), (mold), (mildew), (lichens) & (algae)
- (moss), (mold), (mildew), (lichens) & (algae) remover
- Soap for killing moss.
- Kills moss fast.
- Rapid exterior cleaner for decks, patios and exterior home surfaces
- Rapid exterior moss, mold and mildew remover for decks, patios and exterior home surfaces
- Removes green slime.
- Water based.
- Does not contain alcohol.
- Does not contain any metal salts, such as iron or zinc.
- No unpleasant odor.
- Low foaming.
- (Will not)(Does not)(Won't) stain (concrete), (pavement), (stucco), (bricks), (asphalt) (wood) (or other surfaces).
- Diluted H02 Moss Killer Concentrate will not damage painted and metal surfaces.
- Will (Does) not darken grass.
- Will (Does) not damage gutters, metal flashing or downspouts.
- H02 Moss Killer Concentrate can provide long-term control of moss on wooden roofs and structures.
- Controlling moss and algae may add months or years of service to roofs, patios, decks, and such areas.
- H02 Moss Killer Concentrate is a fast acting (moss), (mold), (mildew), (lichens) & (algae) killer for use on (lawns), (roofs), (sidewalks), (buildings), (fences), (decks), (patios), (bark mulch), (driveways), and (gravel).
- (Kills)(Destroys) (moss)(mold) to prolong life of roofs, decks, patios and walks.
- For use on lawns, patios plus roofs & buildings.
- Use on (roofs), (lawns)
- Higher concentrations of H02 Moss Killer Concentrate (10% and higher) may damage some plants. Rinse off of plants and automobiles that are accidentally sprayed.
- For best results on lawns use the higher spray volumes and thoroughly soak moss.

16/19

- Spray treated structures with water 1 week after treatment to remove dead moss and algae.
- For best results, physically remove dead moss one week after treatment.
- Pressure washing is a good method of removing dead moss from roofs.
- When spraying roofs it is best to spray "up-slope" to thoroughly treat the ends of the shingles.
- Freshly treated areas may be slippery. To avoid falling do not walk on freshly treated areas. Rinse treated walkways 1 day after treating to reduce slipperiness.
- In case of overspray onto non-target (desirable) plants, rinse immediately to avoid any possible damage.
- One gallon of concentrate will treat up to XXXX ft² of (lawn)(turf)(roof or siding).
- Will not harm adjacent plants when used according to directions.
- May be used on moss, algae and lichens on mature, dormant trees, bark mulch, patios, benches, greenhouses, growing containers, gravel and structural surfaces.
- Ideal for use around homes and other buildings, as well as in gardens and parks.
- Can be used on lawns and structural surfaces (roofs, decks, patios, sidewalks, fences, etc.)
- Kills moss so grass can grow thicker and richer.
- Can be used to spot treat problem areas (in lawns or gardens).
- Will not increase soil acidity.
- Cultural methods such as soil aeration, liming, improving sun exposure, improving drainage, and applying sand to lawns can make conditions less favorable to moss.
- Will not turn moss black.
- Will not blacken moss or darken grass.
- Makes over XX gallons.
- Covers up to XXX sq. ft.
- (Fertilizer code N P K) 0 0 4
- 0 0 4
- Contains 4% potassium, present as potassium salts of fatty acids.
- If the moss is dry, lightly water area to be treated.
- Does not contain ferrous sulfate.
- For household use only.
- Sprayer reaches up to XX feet.
- This product is a fast-acting moss, algae and lichen killer for use on lawns, roofs, patios, fences, bark mulch and driveways. This product will not stain concrete or other surfaces and a single application will control moss and algae for several months to one year.
- What is this product and what will it do:** H02 Moss Killer Concentrate is a fast-acting moss, algae and lichen killer. On wood, concrete and asphalt a single application will control moss and algae for several months to one year. It does not stain concrete, pavement, stucco or wood.
- Where can I use this product?** H02 Moss Killer Concentrate can be used on cedar shakes and composition shingles, cedar siding, stucco, brick, stone or concrete walks and driveways and cedar, redwood or CCA treated wood decks and fences. Other sites include lawns, hardened bark of trees, bark mulch, patios, asphalt and gravel.
- Where can I use this product?** H02 Moss Killer Concentrate can be used on:

17/19

- Lawns, hardened bark of trees, bark mulch, patios, asphalt and gravel
- Cedar shakes and composition shingles
- Cedar siding, stucco, brick or stone
- Concrete walks and driveways
- Cedar, redwood or CCA treated wood decks and fences
- What will I see?** Moss will quickly yellow and then turn brown. Unless moss is physically removed it may remain where it died until rain or wind remove it.
- 1 ounce = 2 tablespoons = 6 teaspoons
- Ready-To-Spray
- Hose-End Bottle
- Hose-end sprayer.
- This product is ready to spray. Just attach this bottle to your garden hose according to directions. Water automatically mixes with the concentrate as you spray.
- Attach to garden hose and spray.
