

**OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION**

WASHINGTON, D.C. 20460

February 5, 2026

W. Neudorff GmbH KG  
c/o Jennifer Brandon  
Agent  
Delta Analytical Services  
12510 Prosperity Dr. Suite 160  
Silver Springs, MD 20904

Subject: PRIA Label Amendment – Add public health label claims.  
Product Name: NEU1161 Pest Spray  
EPA Registration Number: 67702-14  
Application Date: 09/30/2024  
Case Number: 642169

Dear Ms. Brandon:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find

or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Jamey Shuler by phone at (202) 566-2898, or via email at [Shuler.Jamey@epa.gov](mailto:Shuler.Jamey@epa.gov).

Sincerely,

A handwritten signature in dark ink, appearing to read "J. Herrick". The signature is fluid and cursive, with the first letter of the first name being a large, stylized capital 'J'.

Jacquelyn Herrick, Product Manager 03  
Invertebrate & Vertebrate Branch 1  
Registration Division (7505T)  
Office of Pesticide Programs

Enclosure

Text in braces { } is for information only and will not appear on the label.  
 Text in brackets [ ] is optional language which may or may not appear on the label.  
 Text in parentheses ( ) will appear on the label.

### FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. [For emergency information concerning this product, call the poison control center 1-800-222-1222. [Alternately insert subregistrant's toll free number and hours of operation].]

### PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals:** CAUTION. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

#### User Safety Recommendations

- Users should wash hands with plenty of soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

**ENVIRONMENTAL HAZARDS:** This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, **do not** allow pesticides to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. **Do not** contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements. **Do not** apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. **Do not** apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

**Physical or Chemical Hazards:** Combustible. **Do not** use or store near heat or open flame.

### BATCH CODE

### DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For residential areas only. Please read entire label. Use only as directed. Shake well before each use.

### **PESTS:**

NEU1161 Pest Spray will kill the following listed insects: ants {optional list of ant species} [pavement ants, little black ants, argentine ants, crazy ants, acrobat ants, bigheaded ants, cornfield ants, ghost ants, odorous house ants, thief ants, Texas leafcutting ants,] (excluding fire ants, harvester ants, pharaoh ants and carpenter ants), bed bugs, beetles, boxelder bugs, carpet beetles, caterpillars, clothes moths, cockroaches, crickets, darkling beetles, dermestids, earwigs, Elm leaf beetles, firebrats, hide beetles, house flies, kudzu bugs, leather beetles, non-biting midges, millipedes, moths, multi-colored Asian lady beetles, pantry pests, pillbugs, silverfish, sowbugs, spiders (excluding black widow, brown recluse, and hobo spiders), and stink bugs [(e.g., brown marmorated stink bugs)].

### **APPLICATION INSTRUCTIONS**

Spray directly onto listed pests, as a general surface spray, perimeter treatment or crack and crevice treatment to infested areas and insect hiding places. Exposure of sprayed areas to weather, particularly sunshine, reduces the duration of residual effects. Repeat applications as necessary. Some floors may be slippery after spraying.

Can be used in and around residential homes, out buildings, barns, equipment storage, and covered workplaces. Apply thoroughly to all areas where pests crawl and hide: cracks and crevices, crawlspaces, storage areas, sinks and storage areas, along baseboards, around doors and windows, behind and under refrigerators, cabinets, counters, sinks and stoves, shelving, drawers, bookcases. Use outside on pests in seams and cracks in pavement, patios, walkways, gravel, bark mulch, on insect nests in landscaped areas, lawns, turf, ornamental gardens, trees, around the outside of raised beds and containers, and where pests may enter building: screens, window frames, foundation eaves, garages, and garbage cans. **Do not** apply directly to plants.

Apply only as a spot treatment in lawns and ornamental gardens and **do not** apply more than 289 fl. oz. (2.25 gallons) per 1000 square feet (0.056 lbs ai per 1000 square feet). **Do not** apply more than 289 fl. oz. (2.25 gallons) per 1000 square feet (0.056 lbs. ai per 1000 square feet) to general outdoor crack and crevice or spot applications. **Do not** apply more than 38 fl. oz. per 1000 square feet (0.0075 lbs. ai per 1000 square feet) for general outdoor surface applications. **Do not** use more than 289 fl. oz. (2.25 gallons) per 1000 square feet (0.056 lbs. ai per 1000 square feet) for indoor surface or crack and crevice and spot applications. **Do not** apply more than 1 time per day.

{Optional directions for specific pests (may use one or all of the following)}

[Listed Flying insects: Apply to all areas where these pests land or nest around doors and windows and on counters. Flying pests may be sprayed directly on a variety of surfaces, but residual control will only be achieved on non-porous surfaces.

Ants (excluding fire ants, harvester ants, pharaoh ants and carpenter ants): Spray freely around ant trails, doors, windows and other places where ants enter the premises or building. Spray ants directly, and around nests hidden under steps, brickwork, concrete. Break apart accessible nests and spray freely on and around debris.

Spiders (excluding black widow, brown recluse and hobo spiders): Apply along and behind baseboards, to window and doorframes, corners, pipes, storage locations, attics, and crawlspaces.

Bed Bugs: Apply directly onto bed bugs at the approximate rate of [1 mL] {or} [X number of trigger sprays] per 10 bed bugs. Apply directly onto bed bugs as a spot treatment to cracks and crevices, around baseboards, floorboards, headboards, furniture, door and window frames, millwork and walls. Apply directly on to bed bugs as a surface spray to carpet, mattresses, bed frames, box springs, walls, furniture, floor and floor coverings. Allow treated surfaces to dry thoroughly before use. Repeat after four weeks if necessary.

*{Note to Reviewer: X denotes the number of sprays required to deliver 1 mL of product.}*

To treat beds for bed bugs: Disassemble the bed frame and remove bedding. **Do not** apply product to bedding. Wash bedding and dry using high heat to kill bed bugs. Apply this product directly onto bed bugs on the bed frame, mattress and box spring. **Do not** saturate the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product directly onto bed bugs in cracks and crevices in the sleeping area. Make spot treatments directly onto bed bugs around baseboards, behind picture/wall hangings, along and underneath carpet edges and other articles/furniture in the sleeping area. **Do not** apply to stuffed animals or toys. Test spray in an inconspicuous area and allow to dry to test for possible staining prior to treating entire article.

To treat luggage for bed bugs: Remove contents and apply directly onto bed bugs, concentrating on corners, pockets inside the luggage and seams. Allow luggage to dry before reuse.

Listed Pests on outside surfaces of buildings: For the control of building infestation of crawling insects, spray foundation of building where insects are active and where they may enter building: screens, window frames, eaves, porches, garages, and garbage cans).

Other outdoor areas: Spray infested surface of patio or picnic areas. Can be applied to chair and table legs to prevent pests climbing up tables and chairs.

]

### **USE RESTRICTIONS:**

**-Do not** allow adults, children, or pets to enter the treated area until sprays have dried.

- Not for use in outdoor residential misting systems.

**-Do not** apply this product in a way that will contact adults, children, or pets, either directly or through drift.

-Remove pets, birds, and cover fish aquariums before use.

-Remove or cover exposed food and drinking water before application.

-Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

**-Do not** apply directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

**-Do not** make applications during rain

**-Do not** water the treated area to the point of run-off

-Spot treatment must not exceed two square feet in size (for example, 2 ft. by 2 ft. or 4 ft. by 0.5 ft.)

-Crack and Crevice Treatments: Treat surfaces to ensure enough coverage but avoid runoff

-To treat insects harbored in voids and cracks and cracks and crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

**-Do not** apply to plants

-All outdoor applications, if permitted elsewhere on this label, must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses, if allowed elsewhere on this label:

- Applications to soil or vegetation, as listed on this label, around structures;
- Applications to lawns, turf, and other vegetation, as listed on this label (**do not** apply to desirable plants; phytotoxicity will occur);
- Applications to the side of a building, up to a maximum height of 3 feet above grade;
- Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
- Applications around potential pest entry points into buildings, when limited to a surface band not to exceed one inch in width;
- Applications made through the use of a coarse, low pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other condition that could result in runoff

into storm drains, drainage ditches, gutters, or surface waters, in order to control occasional invaders or aggregating pests.

#### **STORAGE AND DISPOSAL**

**Do not** contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Keep this product in its tightly closed original container when not in use. Store in a cool, dry, well-ventilated (preferably locked) area that is inaccessible to children and animals.

#### **PESTICIDE DISPOSAL AND CONTAINER HANDLING:**

**If empty:** Nonrefillable. **Do not** reuse or refill this container. Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{The registrant may use this optional statement}

#### **[WARRANTY STATEMENT] [WARRANTY AND DISCLAIMER NOTICE]**

To the extent consistent with applicable law, seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Buyer assumes all risk of any such use. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied.”]

{Marketing claims and product information that may be presented on the container or supplemental labeling}

## {SUBLABEL B: Commercial Use}

**NEU1161 PEST SPRAY**

[ABN: Family Matters™ brand Antixx® Ant Spray]

Active Ingredients	By Wt.
Pyrethrins.....	0.30%
Canola Oil .....	1.00%
Other Ingredients .....	<u>98.70%</u>
Total.....	100.00%

This product contains 0.08 lbs. of canola oil and 0.024 lbs. of pyrethrins per gallon.

**KILLS:** ants {optional list of ant species}[: pavement ants, little black ants, argentine ants, crazy ants, acrobat ants, bigheaded ants, cornfield ants, ghost ants, odorous house ants, thief ants, Texas leafcutting ants] (excluding fire ants, harvester ants, pharaoh ants and carpenter ants), bed bugs, beetles, boxelder bugs, carpet beetles, caterpillars, clothes moths, cockroaches, crickets, darkling beetles, dermestids, earwigs, Elm leaf beetles, firebrats, hide beetles, house flies (only by direct contact), kudzu bugs, leather beetles, non-biting midges, millipedes, moths, multi-colored Asian lady beetles, pantry pests, pillbugs, silverfish, sowbugs, spiders (excluding black widow, brown recluse, and hobo spiders), stink bugs (brown marmorated stink bugs).]

**FOR USE IN AND AROUND** Homes, Offices, Hotels, Motels, Schools, Hospitals, Nursing Homes, Day-care Centers, Factories, Warehouses, Stores, Supermarkets, Restaurants, Food Handling Establishments, Commercial or Institutional Kitchens, Food Processing Plants, Bottling Plants, Transportation Equipment (Automobiles, Buses, Trucks, Trailers, Boats, Ships, Trains), Barns, Stables, Livestock premises (or quarters) on farms, Animal Quarters, Milkrooms, and Poultry Houses.

**KEEP OUT OF REACH OF CHILDREN****CAUTION**

<b>FIRST AID</b>
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information call the poison control center 1-800-222-1222. [Alternately insert subregistrants toll free number and hours of operation].

NET CONTENTS: fluid ounces

EPA REG. NO.: 67702-14

EPA EST. NO.

Patent#: 5,700,473

## PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals:** CAUTION. Avoid contact with skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**Personal Protective Equipment (PPE) Requirements:** Mixers, loaders, applicators, and other handlers must wear the following: long-sleeved shirt, long pants, shoes and socks.

### User Safety Requirements

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. **Do not** reuse them.

### USER SAFETY RECOMMENDATIONS

- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS:** This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. **Do not** apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area. **Protect pollinating insects by following label directions intended to minimize drift and to reduce risk to these organisms.**

**Do not** apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. **Do not** contaminate water when disposing of equipment wash-waters or rinsate. See Directions for Use for additional precautions and restrictions.

**Physical or Chemical Hazards:** Combustible. **Do not** use or store near heat or open flame.

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### **USE RESTRICTIONS**

- **Do not** enter or allow others to enter until sprays have dried.
- **Do not** apply to plants
- **Do not** apply as a space spray
- **Do not** apply directly to or near water, storm drains, or drainage ditches.
- **Do not** apply when windy.
- **Do not** make applications during rain.
- **Do not** water the treated area to the point of run-off or drip. To prevent product run-off, do not over water the treated area(s) or appl when heavy rain is expected. Rinse applicator over lawn or garden area only.
- **Do not** apply this product in a way that will contact workers or other persons, either directly or through drift.
- Only protected handlers may be in the area during application.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.
- **Do not** apply directly into drains, sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. **Do not** allow the product to enter any drain during or after application.
- **Do not** apply more than 1 time per day.
- Spot treatment must not exceed two square feet in size (for example, 2 ft. by 2 ft. or 4 ft. by 0.5 ft.)
- Crack and Crevice Treatments: Treat surfaces to ensure enough coverage but avoid runoff
- To treat insects harbored in voids and cracks and crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants
- All outdoor applications, if permitted elsewhere on this label, are limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Applications to the side of a building, up to a maximum of 3 feet above the grade; (2) Applications to undersides of eaves, soffits, doors or windows permanently protected from rainfall by a covering, overhang, awning or other structure; (3) Applications around potential pest entry points into buildings when limited to a surface band not to exceed one inch in width; (4) Applications made through the use of a coarse, low pressure spray to only those portions of surfaces that are directly above

bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other condition that could result in runoff into storm drains, drainage ditches, gutters or surface waters, or in order to control occasional invaders or aggravating pests

- **Do not** use in aircraft cabins except in compliance with PR Notice 96-3
- When used in dairy barns or facilities: close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.
- Not for use in outdoor residential misting systems

Please read entire label. Use only as directed. Shake well before each use.

## APPLICATION INSTRUCTIONS

Spray directly onto listed pests, as a perimeter treatment and/or thoroughly to infested areas and insect hiding places in and around residential, commercial and agricultural buildings, poultry and dairy barns, stables, kennels, food handling and processing facilities, restaurants, hospitals, and schools. Spray directly on surfaces: floors, baseboards, cabinets, counters, shelving, drawers, bookcases, walls, and carpet. Use outside on listed pests in seams and cracks in pavement, patios, walkways, gravel, bark mulch, in insect nests in landscaped areas, lawns, turf, around the outside of raised beds and containers, and where pests may enter building: screens, window frames, foundation eaves, garages, and garbage cans.

On outdoor ornamentals and lawns use only as a spot treatment and **do not** apply more than 289 fl. oz. (2.25 gallons) per 1000 square feet (0.056 lbs. ai per 1000 square feet). On general outdoor sites (including Non-Agricultural rights-of-way, Commercial/Institutional/Industrial Premises and Outdoor eating Establishments **do not** apply more than 38 fl. oz. per 1000 square feet (0.0075 lbs. ai per 1000 square feet) for surface applications, or 8.8 gallons per 1000 square feet (0.22 lbs. ai per 1000 square feet) for crack and crevice or spot applications. For indoor use, **do not** apply more than 289 fl. oz. (2.25 gallons) per 1000 square feet (0.056 lbs. ai per 1000 square feet) for surface applications, or 8.8 gallons per 1000 square feet (0.22 lbs. ai per 1000 square feet) for crack and crevice and spot applications.

**DO NOT** spray onto desirable plant foliage; leaf burn will occur. Use stream setting for cracks and crevices. For plywood surfaces apply more often. Exposure of sprayed areas to weather, particularly sunshine, reduces the duration of residual effects. Repeat applications as necessary but **do not** apply more than once per day. Some floors may be slippery after spraying.

{Optional directions for specific pests (may use one or more of the following):}

Listed Flying insects: Apply to all areas where these pests land or nest including around doors and windows and on counters. Flying pests may be sprayed directly on a variety of surfaces, but residual control will only be achieved on non-porous surfaces.

Ants (excluding fire ants, harvester ants, pharaoh ants and carpenter ants): Spray freely around ant trails, doors, windows and other places where ants enter the premises or building. Spray ants directly, and nests hidden under steps, brickwork, concrete, paths in vegetable gardens, around the outside of raised beds and containers. Break apart accessible nests and spray freely on and around debris.

Spiders (excluding black widow, brown recluse and hobo spiders): Apply along and behind baseboards, to window and doorframes, corners, pipes, storage locations, attics, crawlspaces.

Bed Bugs: Apply directly onto bed bugs at the approximate rate of 1 mL per 10 bed bugs. Apply directly onto bed bugs as a spot treatment to cracks and crevices, around baseboards, floorboards, headboards, furniture, door and window frames, millwork and walls. Apply directly onto bed bugs as a surface spray to carpet, mattresses, bed frames, box springs, walls, furniture, floor and floor coverings. Allow treated surfaces to dry thoroughly before use. Repeat after four weeks if necessary.

To treat beds for bed bugs: Disassemble the bed frame and remove bedding. **Do not** apply product to bedding. Wash bedding and dry using high heat to kill bed bugs. Apply this product directly onto bed bugs on the bed frame, mattress and box spring. **Do not** saturate the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product directly onto bed bugs in cracks and crevices in the sleeping area. Make spot treatments directly onto bed bugs around baseboards, behind picture/wall hangings, along and underneath carpet edges and other articles/furniture in the sleeping area. **Do not** apply to stuffed animals or toys. Test spray in an inconspicuous area and allow to dry to test for possible staining prior to treating entire article.

To treat luggage for bed bugs: Remove contents and apply directly onto bed bugs, concentrating on corners, pockets inside the luggage and seams. Allow luggage to dry before reuse.

Listed Pests on outside surfaces of buildings: For the control of building infestation of crawling insects, spray foundation of building where insects are active and where they may enter building including screens, window frames, eaves, porches, garages, and garbage cans.

Other outdoor areas: Can be applied to chair and table legs to prevent pests climbing up tables and chairs.]

#### **STORAGE AND DISPOSAL**

**Do not** contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE:** Keep this product in its tightly closed original container when not in use. Store in a cool, dry, well-ventilated (preferably locked) area that is inaccessible to children and animals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

#### **CONTAINER HANDLING:**

Nonrefillable container. **Do not** reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying.

Triple rinse as follows (For containers equal to or less than 5 gallons (18.9 L): Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container  $\frac{1}{4}$  full with diluent and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available, for reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Triple rinse as follows (For containers greater than 5 gallons (18.9 L): Empty the remaining contents into application equipment or a mix tank. Fill the container  $\frac{1}{4}$  full with diluent. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Offer for recycling if available, for reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

[

- [For] Commercial Use
- Patented technology
- Unique, patented formula.
- Patented
- U.S. Patent # 5,700,473
- Insect spray
- Kills listed insects
- Kills [ants (excluding fire ants, harvester ants, pharaoh ants and carpenter ants)], [bed bugs], [Boxelder Bugs], [beetles], [carpet beetles], [Clothes Moths], [cockroaches], [crickets], [Darkling Beetles], [Dermestids], [earwigs], [Elm Leaf Beetles], [firebrats], [Hide Beetles], [house flies], [Kudzu Bugs], [Leather Beetles], [non-biting Midges], [Millipedes], [Multi-Colored Asian Lady Beetles], [Pantry Pests], [beetles], [Moths], [silverfish], [sowbugs], [spiders (excluding black widow, brown recluse, and hobo spiders)], [stink bugs [(e.g.: Brown Marmorated stink bugs)]],
- [Controls] [Kills] ants [pavement ants], [little black ants], [Argentine ants], [crazy ants], [acrobat ants], [bigheaded ants], [cornfield ants], [ghost ants], [odorous house ants], [thief ants], [field ants], (excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- [Controls][kills] [sweet-feeding ants], [pavement ants], [moisture ants], [little black ants], [Argentine ants], [crazy ants], [acrobat ants], [bigheaded ants], [cornfield ants], [ghost ants], [odorous house ants], [thief ants], [Texas leafcutting ants], [field ants], (excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- Bed bug killer
- For use on luggage, baseboards & carpets to kill bed bugs
- Use around residential, commercial and agricultural buildings
- May be used in [poultry and dairy barns], [stables], [kennels], [food handling and processing facilities], [restaurants], [hospitals], [schools].
- People and pets must not enter treated area until sprays have dried.
- **Do not** enter or allow others to enter until sprays have dried
- Water based.
- Non-staining.
- No unpleasant odor
- No lingering [smell] [odor]
- Kills listed insects through contact.
- Easy to use.
- Can be used in/around household food preparation areas\*(\*remove or cover food, water or anything that comes in contact with them before preparing food or drinks).
- Can be used in/around commercial food preparation areas. \* (\*remove or cover food, water or anything that comes in contact with them before preparing food or drinks).

- Spray surfaces where listed pests crawl (excluding cockroaches and bed bugs).
- Kills ants (excluding fire ants, harvester ants, pharaoh ants, and carpenter ants) for [14 days] [2 weeks] on non-porous surfaces (indoors only)
- Kills sowbugs for [14 days] [2 weeks] on non-porous surfaces (indoors only)
- Kills listed spiders for [five] [5] days on non-porous surfaces (indoors only)
- Kills house flies for [14 days] [2 weeks] on non-porous surfaces (indoors only)
- Kills [house flies] [sowbugs] [ants (excluding fire ants, harvester ants, pharaoh ants, and carpenter ants)] for [14 days] [2 weeks] on non-porous surfaces (indoors only)
- [Provides] Residual control of [house flies] [sowbugs] [ants (excluding fire ants, harvester ants, pharaoh ants, and carpenter ants)] for [14 days] [2 weeks] on non-porous surfaces (indoors only)
- Listed [Insects] [Pests] contacting sprayed areas will die (excluding cockroaches and bed bugs)
- Kills listed [insects] [pests] that contact sprayed areas (excluding cockroaches and bed bugs)
- Ants\* contacting sprayed areas will die \*(excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- Kills ants that contact sprayed areas \*(excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- [house flies], [sowbugs], [listed spiders] contacting sprayed areas will die
- Kills [house flies], [sowbugs], [listed spiders] that contact sprayed areas
- Apply directly to ants\*, their nests and trails, and wherever ants enter the house \*(excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- Can be used around livestock and animal dwellings
- Can be used in out buildings, barns, equipment storage, and covered workplaces
- May be used in and around commercial and agricultural buildings
- May be used in food handling and processing facilities
- Apply directly to ants\*, their nests and trails, and wherever ants enter the [building][premises] \*(excluding fire ants, harvester ants, pharaoh ants and carpenter ants)
- Kills [cockroaches] [and] [listed ants] for 8 weeks on non-porous surfaces (indoors only)
- [Provides] Residual control of [cockroaches] [and] [listed ants] for 8 weeks on non-porous surfaces (indoors only)
- [Keeps Killing] [Kills][cockroaches] [and] [listed ants] for 8 weeks (on non-porous surfaces) (indoors only).
- [Contact] Kill [+] [&] [Plus] [and] 8 Week Control[!] (on listed insects) (indoors only)
- Contains botanical pyrethrins and canola oil [active ingredients]
- Use Care: some floors may be slippery after spraying
- Ant killer (except fire ants, harvester ants, pharaoh ants and carpenter ants)
- Some floors may be slippery after spraying
