Subject: Label Notification(s) for Pesticide Registration Notice 2007-4, 2008-1 and 98-10  
Storage and disposal update and other changes (**General Label Change**)

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4, 2008-1 and 98-10 dated March 17, 2010 for:

**EPA Registration 67702-18      NEU1171H RTU**

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4, 2008-1 and 98-10 and finds that the label change(s) requested falls within the scope of PRN-2007-4, 2008-1 and 98-10. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

Linda Arrington

## **DIRECTIONS FOR USE**

*It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.*

### **Application Directions**
