3.4 Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 67702-49."
- 4. Submit one copy of the revised final printed label for the record before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product will be considered to be misbranded and its sale or distribution is unlawful under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on your website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 09/05/2014
- Alternate Formulation #'s 1-11 dated 09/05/2014

If you have any questions, please contact Ms. Menyon Adams at (703) 347-8496 or adams.menyon@epa.gov.

## FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

## **Hotline Number**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For emergency information concerning this product, call the National Pesticide Information Center at 1-800-858-7378, 6:30 am to 4:30 pm Pacific Time, seven days a week (NPIC Web site: <u>www.npic.orst.edu</u>). [alternately the subregistrant's toll free number can be inserted].]

# PRECAUTIONARY STATEMENTS

toilet.

Hazards to Humans and Domestic Animals: CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and using the

**Environmental Hazards**: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY: Scatter the slug and snail bait granules on the soil around or near the plants to be protected. Do not place in piles. Plants will be protected for up to four weeks. Apply more heavily if the infestation is severe, if the area is heavily watered or after long periods of heavy rain. The product works best when soil is moist but with little or no standing water. Do not use kitchen utensils for food uses after pesticide use.

Reapply as the bait is consumed or as needed. See specific directions for different plant types and for inside residential greenhouses.

WHEN TO APPLY: For best results, apply the bait during the evening, as slugs and snails travel and feed mostly by night or early morning.

### AMOUNT TO APPLY:

1.5-5.5 oz/1000 sq. ft. (4-15 lbs/acre) or 0.5 teaspoons/sq. yd.

WHERE TO APPLY: Treat areas of infestation, especially around the base of plants, between rows and around the perimeter of the garden plot to provide a protective "barrier" for slugs and snails entering the garden plot. Slugs/snails favor damp places around vegetable plants. Other favorite areas are flower gardens, rockeries, hedges, dichondra lawns, citrus groves, ivy patches, and other ground cover where they obtain shelter by day.

[One of the following two directions for use may be used:]

For use around vegetables, nut trees, fruits including citrus, berries, herbs, outdoor ornamentals, residential greenhouses and lawns

OR

#### Vegetables

Use the bait to protect any vegetables from slug and snail damage, such as: artichokes, asparagus, beans, beets, black-eyed peas, broccoli, Brussels sprouts, cabbage, cantaloupe,

carrots, cauliflower, celery, corn, cucumbers, eggplants, garlic, lettuce, mustard, onions, parsnip, potatoes, peas, peppers, potatoes, pumpkin, radishes, rhubarb, rutabagas, spinach, squash, Swiss chard, tomatoes, and turnips. Scatter the bait around the perimeter of the vegetable plot. If slugs or snails are inside the rows, scatter the bait on the soil around the base of the plants and between the rows.

### **Fruits Including Citrus**

Use the bait to protect fruits from slugs and snails, such as: apples, nectarines, avocados, apricots, cherries, grapes, melons, oranges, peaches, plums, citrus, and pears. For seedlings spread the bait around the base of the stem. Apply in a 6 inch circular band around the base of the plants to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

### Berries

Use the bait to protect berries from slugs and snails, such as: strawberries, blackberries, currant, blueberries, boysenberries, loganberries, and raspberries. Spread the bait around the perimeter of the plot. If slugs and snails are already in the plots, then carefully spread bait between the furrows near the base of the plants. For small plots, treat around the base of the plants to be protected. Scatter by hand or with granular spreaders.

### Herbs

Use the bait to protect herbs from slugs and snails, such as: angelica, balm, basil, borage, burnet, chamomile, catnip, chervil, chive, clary, costmary, cilantro, curry, dillweed, horehound, hyssop, lavender, lemongrass, lovage, marigold, nasturtium, parsley, pennyroyal, rosemary, rue, sage, savory, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood. Scatter the bait around the perimeter of the herb plot. If slugs or snails are inside the rows, then scatter the bait on the soil around the base of the plants and between the rows.

### **Outdoor Ornamentals**

Scatter bait in a 6 inch circular band around the base of the plants to be protected. Scatter the bait around the perimeter of the plot to intercept snails and slugs traveling to the plot. If plants are next to a grassy area, spread the bait between the ornamentals and the grass.

### Nut Trees

Use this bait to protect nut trees from slugs and snails, such as: almonds, hazelnuts, pecans, and walnuts. For seedlings spread the bait around the base of the stem. Apply in a 6 inch circular band around the base of the plants or trees to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

### **Residential Greenhouses**

4

Scatter the bait on greenhouse benches, floors and in or around the pots and containers of plants being damaged.

### Lawns

Broadcast the bait on lawns or use as a buffer zone around gardens. When slugs or snails are detected, scatter the bait by hand or with a granular spreader where the slugs or snails are observed.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE**: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

### **CONTAINER DISPOSAL:**

Nonrefillable container.

If empty: Do not reuse or refill this container. Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

### **BATCH CODE**

[The registrant may use one or any of these two optional statements, either:

## FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

### Hotline Number

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For emergency information concerning this product, call the National Pesticide Information Center at 1-800-858-7378, 6:30 am to 4:30 pm Pacific Time, seven days a week (NPIC Web site: <u>www.npic.orst.edu</u>). [alternately the subregistrant's toll free number can be inserted].]

## PRECAUTIONARY STATEMENTS.

**Hazards to Humans and Domestic Animals**: Caution. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**Personal Protective Equipment (PPE) Requirements**: Applicators and other handlers must wear: long-sleeved shirts and long pants; and shoes plus socks. Follow

manufacturer's instructions for maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

•Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

•Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

•Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**Environmental Hazards**: For terrestrial uses. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected workers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency representative responsible for pesticide regulation.

### AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and the restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard (WPS).

There is a restricted-entry interval of four hours for this product.

## NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

There are no restrictions.

HOW TO APPLY: Scatter the slug and snail bait granules on the soil around or near the plants to be protected. For broadcast application, use standard broadcast spreaders. For row application, use standard granular spreaders. Apply bait evenly at the rate of 4-15 lbs per acre (0.09-0.34 lbs per 1000 sq. ft.) and reapply as the bait is consumed or as needed. Do not place in piles. Plants will be protected for up to four weeks. Apply more heavily if the infestation is severe, if the area is heavily watered or after long periods of heavy rain. The product works best when soil is moist but with little or no standing water.

WHEN TO APPLY: For best results, apply the bait in the evening, as slugs and snails travel and feed mostly by night or early morning.

WHERE TO APPLY: Treat all likely areas of infestation, especially around the base of plants, between rows and around the perimeter of the plot to provide a protective "barrier" for slugs and snails entering the field.

### Vegetables

Scatter the bait around the perimeter of vegetable fields. If slugs or snails are inside the rows, scatter the bait on the soil around the base of the plants and between the rows. Use the bait to protect any vegetables from slug and snail damage, such as:

### Artichoke

#### Asparagus

Root and Tuber Vegetables: beet, carrot, ginger, parsnip, potato, radish, rutabaga, sweet potato, sugar beet, taro, turnip, yam

**Bulb Vegetables**: dry bulb onion, garlic, great-headed elephant garlic, green onion, leek, onion, shallot, Welch onion

Leafy Vegetables and Leaves of Root and Tuber and Legume Vegetables: arugula, beet, blackeyed pea, celery, lettuce, pea, rhubarb, spinach, Swiss chard, turnip greens, watercress **Cole Crops and Brassica Leafy Vegetables**: broccoli, broccoli raab, Brussels sprouts, cabbage, canola, cauliflower, cavalo, Chinese broccoli, Chinese cabbage (bok choy), Chinese cabbage (napa), Chinese mustard cabbage (gai choy), collards, kale, kohlrabi

Legumes: beans and peas, soybean

**Cucurbit Vegetables**: cantaloupe, cucumber, edible gourd, honeydew, melon, muskmelon, pumpkin, summer squash, watermelon, winter squash

Fruiting Vegetables: eggplant, ground cherry, okra, pepino, pepper, tomatillo, tomato

**Corn:** field corn, sweet corn

### Fruits (Including Citrus) and Nuts

Apply in a 6 inch circular band around the base of the plants to be protected. Apply the bait by hand or using standard fertilizer granular spreaders. For seedlings spread the bait around the base of the stem. Use the bait to protect fruits and nuts from slugs and snails, such as:

**Banana**<sup>,</sup>

Plantain

Fig

Grape

Tropical Tree Fruits: avocado, guava, mango, papaya, passion fruit

Citrus Fruits: grapefruit, lemon, lime, orange, tangerine

**Pome Fruits**: apple, crabapple, loquat, mayhaw, pear, quince

Stone Fruits: apricot, cherry, nectarine, peach, plum, prune

**Berries**: bushberries (blueberry, currant, elderberry, gooseberry, huckleberry, juneberry, ligonberry, salal), caneberries (blackberry, boysenberry, loganberry, red and black raspberry), cranberry, strawberry

**Tree Nuts, Peanuts and Pistachios**: tree nuts (almond, cashew, chestnut, filbert, macadamia nut, pecan, walnut), peanut (\*not for use in CA), pistachio

### Herbs

Scatter the bait around the perimeter of the plot. If slugs or snails are inside the rows, then scatter the bait on the soil around the base of the plants and between the rows. Use the bait to protect herbs from slugs and snails, such as

Herbs: angelica, balm, basil, borage, burnet, chamomile, catnip, chervil, chive, clary, costmary, cilantro, curry, dillweed, horehound, hyssop, lavender, lemongrass, lovage, marigold, nasturtium, parsley, pennyroyal, peppermint, rosemary, rue, sage, savory, spearmint, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood

### Hops

Scatter the bait on the soil around the base of the hop plants to be protected. Scatter granules by hand or with a granular spreader.

## Grass and Legumes Grown for Seed Production, Forage, Sugarcane, and Cereal Crops (such as: wheat, barley, oats and rye)

Use the bait on grass grown for seed production, grass crops, sugarcane, legume forage grown for seed production (such as clover and alfalfa), and small cereal grains (such as barley, buckwheat, corn, grain amaranth, milo, oats, pearl millet, proso millet, rice, rye, sorghum, triticale, wheat). When slugs or snails are detected, scatter by hand or with a granular spreader where the slugs or snails are observed.

## Commercial Turf, Sod, Golf Courses and Grass Buffers around Gardens and Ornamentals

Use the bait on lawns, athletic fields, recreational areas, commercial turf, sod, golf courses, and grass buffers around gardens and ornamentals. When slugs or snails are detected, scatter the bait by hand or with a granular spreader where the slugs or snails are observed.

### **Outdoor Ornamentals**

Use the bait on herbaceous and woody plants, greenhouse ornamentals, outdoor container-grown nursery plants, tree farms and plantations (conifers, including Christmas trees, and deciduous trees).

Scatter bait in a 6 inch circular band around the base of the plants to be protected. Scatter the bait around the perimeter of the plot to intercept snails and slugs traveling to the plot. If plants are next to a grassy area, spread the bait between the ornamentals and the grass. Where slugs or snails are a problem in outdoor nurseries, scatter the bait in or around the plant containers.

## Greenhouses

Scatter the bait on greenhouse benches, floors and in or around the pots and containers of plants being damaged.

## Pastures, Rangeland, Forests, Parks, Playgrounds, Cemeteries, Picnic Areas, Roadsides, Campgrounds, Industrial Sites, Fallow Land, Barrier Strip and Buffer Zones

Use to protect non-crop areas, such as: pastures, rangeland, forests, parks, playgrounds, cemeteries, picnic areas, roadsides, campgrounds, industrial sites, fallow land, barrier strips, and buffer zones.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE**: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING**: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty metal drum, plastic bag, box or plastic tote into application equipment. Then dispose of empty metal drum, plastic bag, box or plastic tote in a sanitary landfill, or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

### **BATCH CODE**

The registrant may use one or both of these two optional statements, either:

#### **"WARRANTY**

To the extent consistent with applicable law, the seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with the directions for use. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied."

or

**OUR COMMITMENT TO YOUR SATISFACTION**: If you are not happy with the way this product works in your garden, please let us know. We will be happy to replace the product or refund your money.
