

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Biopesticides and Pollution Prevention Division (7511P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

67702-55

Date of Issuance:

2/14/2018

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Sluggo Maxx brand

Name and Address of Registrant (include ZIP Code):

W. Neudorff GMBH KG
 An Der Muhle 3
 D-31860 Emmerthal,
 Germany

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA or the Act).

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency (EPA). In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when the EPA requires all registrants of similar products to submit such data.
2. Make the following labeling change before you release this product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 67702-55."

Signature of Approving Official:

Andrew Bryceland, Team Leader
 Biochemical Pesticides Branch
 Biopesticides and Pollution Prevention Division (7511P)
 Office of Pesticide Programs

Date:

2/14/2018

3. Submit one (1) copy of the final printed labeling for the record before you release this product for shipment.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statements of Formula (CSFs):

- Basic CSF dated 02/02/2018
- Alternate CSF #1 dated 02/02/2018

Any CSFs other than those listed above are superseded.

If you have any questions, please contact Alex Horansky of my team by phone at (703) 347-0128 or via email at horansky.alex@epa.gov.

Sincerely,

Andrew Bryceland, Team Leader

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Hotline Number

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For emergency information concerning this product, call the Poison Control Center at 1-800-222-1222. [alternately the subregistrant's toll free number can be inserted].]

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water

after handling and before eating, drinking, chewing gum, using tobacco, and using the toilet.

Environmental Hazards: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY: Scatter the slug and snail bait granules on the soil around or near the plants to be protected. Do not place in piles. Apply more heavily if the infestation is severe, if the area is heavily watered or after long periods of heavy rain. The product works best when soil is moist but with little or no standing water. Do not use kitchen utensils for food uses after pesticide use.

Reapply as the bait is consumed or as needed. See specific directions for different plant types and for inside residential greenhouses.

WHEN TO APPLY: For best results, apply the bait during the evening, as slugs and snails travel and feed mostly by night or early morning.

AMOUNT TO APPLY:

1.5-5.5 oz/1000 sq. ft. (4-15 lbs/acre) or 0.5 teaspoons/sq. yd.

WHERE TO APPLY: Treat areas of infestation, especially around the base of plants, between rows and around the perimeter of the garden plot to provide a protective "barrier" for slugs and snails entering the garden plot. Slugs/snails favor damp places around vegetable plants. Other favorite areas are flower gardens, rockeries, hedges, dichondra lawns, citrus groves, ivy patches, and other ground cover where they obtain shelter by day.

[One of the following two directions for use may be used:]

For use around vegetables, nut trees, fruits including citrus, berries, herbs, outdoor ornamentals, residential greenhouses and lawns

OR

Vegetables

Use the bait to protect any vegetables from slug and snail damage, such as: artichokes, asparagus, beans, beets, black-eyed peas, broccoli, Brussels sprouts, cabbage, cantaloupe, carrots, cauliflower, celery, corn, cucumbers, eggplants, garlic, lettuce, mustard, onions, parsnip, potatoes, peas, peppers, potatoes, pumpkin, radishes, rhubarb, rutabagas, spinach, squash, Swiss chard, tomatoes, and turnips. Scatter the bait around the perimeter of the vegetable plot. If slugs or snails are inside the rows, scatter the bait on the soil around the base of the plants and between the rows.

Fruits Including Citrus

Use the bait to protect fruits from slugs and snails, such as: apples, nectarines, avocados, apricots, cherries, grapes, melons, oranges, peaches, plums, citrus, and pears. For seedlings spread the bait around the base of the stem. Apply in a 6 inch circular band around the base of the plants to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

Berries

Use the bait to protect berries from slugs and snails, such as: strawberries, blackberries, currant, blueberries, boysenberries, loganberries, and raspberries. Spread the bait around the perimeter of the plot. If slugs and snails are already in the plots, then carefully spread bait between the furrows near the base of the plants. For small plots, treat around the base of the plants to be protected. Scatter by hand or with granular spreaders.

Herbs

Use the bait to protect herbs from slugs and snails, such as: angelica, balm, basil, borage, burnet, chamomile, catnip, chervil, chive, clary, costmary, cilantro, curry, dillweed, horehound, hyssop, lavender, lemongrass, lovage, marigold, nasturtium, parsley, pennyroyal, rosemary, rue, sage, savory, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood. Scatter the bait around the perimeter of the herb plot. If slugs or snails are inside the rows, then scatter the bait on the soil around the base of the plants and between the rows.

Outdoor Ornamentals

Scatter bait in a 6-inch circular band around the base of the plants to be protected. Scatter the bait around the perimeter of the plot to intercept snails and slugs traveling to the plot. If plants are next to a grassy area, spread the bait between the ornamentals and the grass.

Nut Trees

Use this bait to protect nut trees from slugs and snails, such as: almonds, hazelnuts, pecans, and walnuts. For seedlings spread the bait around the base of the stem. Apply in a 6-inch circular band around the base of the plants or trees to be protected. Apply the bait by hand or using standard fertilizer granular spreaders.

Residential Greenhouses

Scatter the bait on greenhouse benches, floors and in or around the pots and containers of plants being damaged.

Lawns

Broadcast the bait on lawns or use as a buffer zone around gardens. When slugs or snails are detected, scatter the bait by hand or with a granular spreader where the slugs or snails are observed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

BATCH CODE

[The registrant may use one or any of these two optional statements, either:

"WARRANTY

To the extent consistent with applicable law, the seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with directions for use. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied."

-For Organic Gardening

GENERAL INFORMATION (WHY Sluggo Maxx brand IS EFFECTIVE)

This product contains a unique combination of iron phosphate, which is a plant nutrient that occurs in soils, with slug and snail bait additives. The bait which is not ingested by snails and slugs will degrade and become a part of the soil.

The bait is ingested by slugs and snails when they travel from their hiding places to plants. Ingestion, even in small amounts, will cause them to cease feeding and die. This physiological effect of the bait gives immediate protection to the plants even though the slugs and snails may remain in the area. After eating the bait, the slugs and snails cease

feeding and die. Dead slugs and snails may not be visible as they often crawl away to secluded places to die. Immediate plant protection will be observed in the decrease in plant damage.

This product is effective against a wide variety of slugs and snails and will give protection to home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, nut trees, citrus and crop plants. The bait can be scattered on the lawn or on the soil around any vegetable plants, flowers or fruit trees or bushes to be protected.

KEEP OUT OF REACH OF CHILDREN

CAUTION

EPA Registration No. 67702-

EPA Establishment No. 67702-DEU-1, 67702-DEU-2, 67702-DEU-3, 48498-CA-1, 48498-CA-2

NET WEIGHT 20lbs, 25lbs, 40 lbs, 45lbs, 50lbs, 55lbs (25 kg), 1984lbs (900 kg), 2000 lbs, 2011lbs (912 kg), 2116lbs (960kg)

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Hotline Number

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [For emergency information concerning this product, call the Poison Control Center 1-800-222-1222 [alternately the subregistrant's toll free number can be inserted].]

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: Caution. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Personal Protective Equipment (PPE) Requirements: Applicators and other handlers must wear: long-sleeved shirts and long pants; and shoes plus socks. Follow manufacturer's instructions for maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards: For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

{The following section is also required when optional aquatic application are used} For aquatic uses: Do not apply directly to water to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected workers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency representative responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and the restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard (WPS).

There is a restricted-entry interval of four hours for this product.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

There are no restrictions.

HOW TO APPLY: Apply bait granules around or over the plants to be protected at the rate of 4-15 lbs per acre (0.09-0.34 lbs per 1000 sq. ft.) and reapply as the bait is consumed or as needed. For heavy pest pressure apply 20-25 lbs per acre. Do not place in piles.

[Optional: Broadcast Application: Apply uniformly with appropriate, calibrated equipment within the application rates on this label. Do not apply when weather conditions favor drift from treated areas. Test for phytotoxicity prior to broadcast application on sensitive soft leaved plants such as leafy greens and herbs, or take precautions to avoid contact with sensitive plant parts.]

[Optional: Aquatic Application:

For the control of aquatic slugs or snails, such as Golden Apple Snail, apply at a rate of 20-44 lbs per acre (0.46-1.0 lbs per 1000 sq. ft.). Broadcast applications may be made under flooded conditions. Apply the bait directly to the water in likely areas of infestation. Re-apply if the infestation is severe. Use the higher application rates for larger snails. The water level should be high enough such that the target pests don't estivate.]

WHEN TO APPLY: For best results, apply the bait in the evening, as slugs and snails travel and feed mostly by night or early morning.

WHERE TO APPLY: Treat all likely areas of infestation, especially around the base of plants, between rows and around the perimeter of the plot to provide a protective barrier for slugs and snails entering the field.

Vegetables

Apply bait to protect any vegetables from slug and snail damage, such as:

Artichoke

Asparagus

Root and Tuber Vegetables: beet, carrot, ginger, ginseng, parsnip, potato, radish, rutabaga, sweet potato, sugar beet, taro, turnip, yam

Bulb Vegetables: dry bulb onion, garlic, great-headed elephant garlic, green onion, leek, onion, shallot, Welsh onion

Leafy Vegetables and Leaves of Root and Tuber and Legume Vegetables: arugula, beet, blackeyed pea, celery, lettuce, pea, rhubarb, spinach, Swiss chard, turnip greens, watercress

Cole Crops and Brassica Leafy Vegetables: broccoli, broccoli raab, Brussels sprouts, cabbage, canola, cauliflower, cavalo, Chinese broccoli, Chinese cabbage (bok choy), Chinese/napa cabbage, Chinese mustard cabbage (gai choy), collards, kale, kohlrabi

Legumes: beans and peas, soybean

Cucurbit Vegetables: cantaloupe, cucumber, edible gourd, honeydew, melon, muskmelon, pumpkin, summer squash, watermelon, winter squash

Fruiting Vegetables: eggplant, ground cherry, okra, pepino, pepper, tomatillo, tomato

Corn: field corn, sweet corn, pop corn

Fruits (Including Citrus) and Nuts

Apply bait to protect fruits and nuts from slugs and snails, such as:

Banana

Plantain

Fig

Grape

Kiwi

Tropical Tree Fruits: avocado, guava, mango, papaya, passion fruit

Citrus Fruits: calamondin, citron, grapefruit, kumquat, lemon, lime, mandarin orange, pummel, tangerine, tangelo

Pome Fruits: apple, crabapple, loquat, mayhaw, pear, quince

Stone Fruits: apricot, cherry, nectarine, peach, plum, prune

Berries: bushberries (blueberry, currant, elderberry, gooseberry, huckleberry, juneberry, lignonberry, salal), caneberries (blackberry, boysenberry, loganberry, red and black raspberry), cranberry, strawberry

Tree Nuts, Peanuts and Pistachios: tree nuts (almond, cashew, chestnut, filbert, macadamia nut, pecan, walnut), peanut (*not for use in CA), pistachio

Herbs

Apply bait to protect herbs from slugs and snails, such as

Herbs: angelica, balm, basil, borage, burnet, chamomile, catnip, chervil, chive, clary, costmary, cilantro, curry, dillweed, horehound, hyssop, lavender, lemongrass, lovage, marigold, nasturtium, parsley, pennyroyal, peppermint, rosemary, rue, sage, savory, spearmint, sweet bay, tansy, tarragon, thyme, wintergreen, woodruff and wormwood

Hops

Apply bait to protect hops from slugs and snails.

Grass and Legumes Grown for Seed Production, Forage, Sugarcane, and Cereal Crops (such as: wheat, barley, oats and rye)

Apply bait to grass grown for seed production, grass crops, sugarcane, legume forage, including legumes grown for seed production (such as clover and alfalfa), and small cereal grains (such as barley, buckwheat, corn, grain amaranth, milo, oats, pearl millet, proso millet, rice, rye, sorghum, triticale, wheat).

Commercial Turf, Sod, Golf Courses and Grass Buffers around Gardens and Ornamentals

Apply bait to lawns, athletic fields, and recreational areas including parks, to commercial turf, sod, and golf courses, and to grass buffers around gardens and ornamentals.

Outdoor Ornamentals

Apply bait to protect herbaceous and woody plants, greenhouse ornamentals, outdoor container-grown nursery plants, tree farms and plantations (conifers, including Christmas trees, and deciduous trees).

Greenhouses

Apply bait to greenhouse benches, floors and in or around the pots and containers.

Pastures, Rangeland, Forests, Parks, Playgrounds, Cemeteries, Picnic Areas, Roadsides, Campgrounds, Industrial Sites, Fallow Land, Barrier Strip and Buffer Zones

Use to protect non-crop areas, such as: pastures, rangeland, forests, parks, playgrounds, cemeteries, picnic areas, roadsides, campgrounds, industrial sites, fallow land, barrier strips, and buffer zones.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty metal drum, plastic bag, box or plastic tote into application equipment. Offer for recycling, if available or dispose of empty metal drum, plastic bag, box or plastic tote in a sanitary landfill, or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

- This container is made from XX% recycled materials.
- The highly compressed granules (pellets) are easy to use, clean to handle and economical.
- Patented technology. Patented snail & (and) slug killer.
- (Patented) micropellet formula
- Unique, patented formula.
- Easy-to-use (ready-to-use) (RTU) granular (pellet) formulation.
- Easy to apply granules.
- Easy to use small (short) pellets
- Small (short) pellets for greater coverage.
- Maximum number of baiting points
- Shorts
- Kills snails & (and) slugs (fast)
- Treats (will treat) x,xxx sq. ft.
- 1 lb treats (will treat) 11,000 sq. ft.
- Remains effective after rain or sprinkling.
- Protects plants for up to four (4) weeks
- Bait lasts up to four (4) weeks
- Proven snail & (and) slug killer (kill, control).
- Convenient. Easy-to-use. Requires no mixing, spraying, or special applicators.
- SATISFACTION GUARANTEED.
- Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
- For use around (vegetables), (fruit trees), (nut trees), (citrus), (berries), (herbs), (ornamentals), (shrubs), (flowers), (trees), (lawns), (gardens), and (in greenhouses).
- For use on (turf), and around (ornamentals), (vegetables) and (fruit)
- Can be used around domestic animals (pets) and wildlife.
- Read Entire Container Label Before Using This Product.
- The active ingredient in this product is exempt from the requirement for a tolerance when used as a molluscicide in or on all food commodities.
- For broadcast application standard broadcast applicators may be used, such as (but not limited to): Cyclone.
- For row application standard granular spreaders may be used, such as (but not limited to): Gandy and Clampco.
- Unconditionally guaranteed by [insert name of supplemental registrant].
- Baits and Kills
- The slugs and snails controlled by this product include (but are not limited to): *Deroceras reticulatum* (Field slug), *Deroceras laeve* (Smooth slug), *Arion subfuscus* (Dusky slug), *Arion circumscriptus* (Gray garden slug), *Arion hortensis* (Black field slug), *Arion rufus* (Large red slug), *Arion ater* (Large black slug), *Limax flavus* (Spotted garden slug), *Limax tenellus* (Slender slug), *Ariolimax columbianus* (Banana slug), *Pomacea canaliculata* (Goldern Apple Snail) *Achatina fulica* (Giant African land snail), *Helix* spp., *Helicella* spp., and *Cepaea* spp.

- Effective against (kills) a wide variety of slugs and snails.
- GIANT AFRICAN LAND SNAIL (Florida): This product can be used to control the Giant African land snail, *Achatina fulica*.
- Effective against the Giant African land snail
- No slime trails
- No messy cleanup
- Dead snails, no slime trails

GENERAL INFORMATION (WHY Sluggo Maxx brand IS EFFECTIVE)

This product contains a unique combination of iron phosphate, which is a plant nutrient that occurs in soils, with slug and snail bait additives. The bait which is not ingested by snails and slugs will degrade and become a part of the soil.

The bait is ingested by slugs and snails when they travel from their hiding places to plants. Ingestion, even in small amounts, will cause them to cease feeding and die. This physiological effect of the bait gives immediate protection to the plants even though the slugs and snails may remain in the area. After eating the bait, the slugs and snails cease feeding and die. Dead slugs and snails may not be visible as they often crawl away to secluded places to die. Immediate plant protection will be observed in the decrease in plant damage.

This product is effective against a wide variety of slugs and snails and will give protection to home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, nut trees, citrus and crop plants. The bait can be scattered on the lawn or on the soil around any vegetable plants, flowers or fruit trees or bushes to be protected.
