 EPA Letter Dated:

JAN. 14 2008

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act as
 amended, for the pesticide,
 registered under EPA Reg. No.

67712-1

Note: Bracketed [] information is optional text/picture/diagram. Text separated by a comma (,) denotes and/or options {Bracket Text} is for administrative purposes. Punctuation, text size, text font, text color, capital letters, lower case letters, italics, bold and underline may vary on final printed labels. Spelling may vary when alternate spelling is acceptable; for example "algaecide" or "algicide"

CHANGE THIS CARTRIDGE EVERY [SIX, FOUR] MONTHS

Use of this cartridge [for] longer than [four, six] continuous months will void the warranty. Discard [the, this] cartridge at the end of [six, four] months.

PRECAUTIONARY STATEMENT

Hazards to Humans and Domestic Animals

Caution

In the unlikely event that a cartridge breaks, mineral media should not be ingested by humans or animals as it may cause gastric distress.

FIRST AID

IF INGESTED: Call poison control center or doctor immediately for treatment advice.

DISPOSAL

After[six, four months] [one season] of use, discard [the cartridge, Nature², {product name}] in household trash. Do not save [the cartridge, Nature², {product name}] for re-use. [The cartridge, Nature², {product name}] is manufactured with the mineral media sealed inside. In the unlikely event [it, the cartridge, Nature², {product name}] breaks, remove [it, the cartridge] and vacuum out any media introduced into the pool [water].

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

See owner's manual inside box for directions for use.

Efficacy Claims

[4, 6 month] algae [control, treatment, preventative].

[4, 6] month Nature² cartridge meets [the] EPA [pool] efficacy requirements.

Algae control for [4, 6] months [for the life of the cartridge]

Algae treatment system

[Around, Round, 24/7] the clock algae [fighter, fighting]

[Around, Round, 24/7] the clock [disinfection, disinfecting, sanitation, sanitization]

[Around, Round] the clock algae [treatment, control, preventative] [for your swimming pool]

[Constant, Consistent, Continual, 24/7] algae [control, treatment] [for your swimming pool]

[Disinfects, Sanitizes, Works] [around, round, 24/7] [the clock]

Defend against algae [with] [the] [Nature²] [system*]

Destroys bacteria and algae growth with CRT

[Hassle, Trouble] free algae control

[Effectively] [Fights, combats, defends against, inhibits, suppresses, resists, controls] algae [for [4, 6] months]

Keeps algae in check [for [4, 6] months]

In combination with lower chlorine levels, [Nature² technology[†], {insert product name}] is proven to [effectively] control[s] [typical, common] swimming pool algae

Keep algae [at bay, under control] [for [4, 6] months]

Kills [common, typical] [swimming] pool bacteria [quickly, in a hurry]

{insert product name} meets [the] EPA's [pool] efficacy requirements [for a period of [four, six] months].

[Nature² technology[†], {product name}] and chlorine work together to effectively [inhibit, reduce, suppress, fight, control] bacteria and algae

[Nature² technology[†], {product name}] effectively [reduces, inhibits, suppresses, controls] bacteria and algae

[Nature² technology[†], {product name}] [Fights, combats, defends against, inhibits, suppresses, resists] algae growth

[Nature², {product name}] minerals help rid the water of harmful bacteria

[Nature², {product name}] [patented] mineral[s] [technology] destroy bacteria with a controlled release formula that lasts [4, 6] months

["Product name" features] Nature² technology[†] [which] is an effective process that sanitizes pool water using minerals and just 0.5ppm chlorine.

[Proven] control of [common] [swimming pool] bacteria [and] [algae]

Reduces [common] [swimming pool] bacteria [and] [algae]

Sanitize and inhibit [suppress, control] algae [the Nature² way!]

[Silver, Nature² technology[†], {insert product name}] [with, and] [chlorine] kills bacteria

[Silver, Nature² technology[†], {insert product name}] is an effective bactericide [and works well with oxidizing agents]

[Silver, Nature² technology[†], {insert product name}] kills bacteria and lowers chlorine usage.

The Nature² System* [with CRT] effectively sanitizes your pool.

Ease of Use

Algaecide [Algae] and bactericide [bacteria] [control] [all] in one [cartridge]

[Automatic], [Automatically] [dispensing of, dispenses] minerals [and chlorine] [automatically] {the chlorine claim for use with models paired with chlorine dispensers/generators}

Automatically dispenses minerals [and chlorine] {the chlorine claim for use with models paired with Zodiac's salt water generator}

Conveniently simple

Effortless algae [management, control]

Eliminate daily dosing

Engineered [for, to last] [4, 6] months [for your size] [in your] [pool]

Engineered to control bacteria and algae for [4, 6] months

Enjoy the water

Enjoy your pool [with less work]

Enjoy your pool again – eliminate the need for daily dosing

Install in seconds [- lasts [six, four] months]

Installation is simple

[It works [to control algae]] so you don't have to

[It] does the work for you

[It] works while you [sleep, play, swim]

Less time maintaining, more time relaxing!

[Maintenance, management] free algae control.

[Nature², technology¹, {product name}] minerals require no manual dosing

No more daily maintenance with [replacement] products that last weeks or months at a time

One [easy] step [to] algae [control, management] [in your swimming pool]

[Reclaim, regain] the fun. [Reduce the work.] [Increase your pool's life]

Save time

Simple, Do-It-Yourself Installation

Simple, [effective, efficacious], cost effective

Simply discard at the end of the season

Simply replace the cartridge every [six, four] months

Simply [replace, discard] the cartridge every [six, four] months

Spend less time shocking your pool

Spend more time in your pool, less time adding chlorine

Take back the fun of your pool by reducing the work and increasing the pool's life

Twice as nice – bacteria and algae control in one cartridge

Controlled Release Technology

Controlled copper release prevents pool staining

Controls coppers release to prevent pool staining

Product Benefits

Lasts one season (up to [four, six] months)

[Lower chlorine levels] help[s] keep [the] pool pH balanced

Lower chlorine levels help prevent damage to equipment and surfaces

[Meets, Equivalent to, As effective as] [1.0ppm] chlorine [alone] [in pool testing]

Nature² [technology†] in the presence of low levels of chlorine is proven to effectively control [typical, common] swimming pool algae.

[Nature² technology†, {product name}] in the presence of 0.5ppm [low levels of] chlorine is [as] effective against common swimming pool algae [as traditional chlorination].

[Nature², technology†] reduces chlorine consumption

[Nature², technology†, {product name}] requires no sequestrant

[Nature², {product name}] minerals [also] keeps your pH balanced by acting as a neutralizer

No sequestrant required

Reduces chlorine use to just 0.5ppm

Reduces chlorine use up to 50%* *Compared to the minimum EPA recommended chlorine levels of 1.0ppm for a stabilized swimming pool

Reduce[s] [your] chlorine use

[Reduces, Inhibits, Suppresses] [typical, common] swimming pool algae [in the presence of [0.5ppm chlorine, low chlorine levels]]

Saves you money

Swimmer Comfort

Enhance[d, s] swimmer comfort.

Reduces potential for stinging eyes, skin irritation and unpleasant odors.

In combination with [0.5ppm chlorine, low[er] chlorine levels], [Nature² technology†, {product name}] [reduces, lowers] the formation of chloramines, odors and red eyes

[Nature², {product name}] minerals reduce the irritations associated with chlorine like red stinging eyes, faded swimsuits and dry, itchy skin

Note: Bracketed [] information is optional text/picture/diagram. Text separated by a comma (,) denotes and/or options {Bracket Text} is for administrative purposes. {Optional language/pictures/diagrams that may appear on any panel of the carton label in any combination}

[Nature² technology[†], {product name}] reduces [chlorine use] [and] [the formation of chloramines] [that cause[s]] odor and red eyes.

Reduces [faded swimsuits, odor, red eyes]

Reduces chlorine irritations and odors

Reduces dry itchy skin [irritations] associated with chlorine

Reduces irritations [and odors] associated with chlorine [including red stinging eyes, dry itchy skin, faded bathing suits, premature damage to pool equipment or surfaces and unpleasant odors]

Reduces premature damage to pool equipment or surfaces associated with chlorine

Reduces red [stinging] eye[s] irritations associated with chlorine

Reduces unpleasant odors associated with chlorine

Spend the day [in the pool] without worrying about dry, itchy skin, red burning eyes or faded swimsuits

[Nature² system, {product name}] gives you a reliable way to have fresh, clean, clear water in your [family's] pool.

General Claims

Assembled in USA from components made in USA, China and Australia

For inground [in-ground] and aboveground pools with cartridge filters up to 25,000 gallons

It's compatible. Compatible with most pool maintenance products.****

**** Do not use [this product, Nature²] with copper-based algaecides, [bromine or bromide chemicals,] or Biguanides (Baquacil®, SoftSwim®, Revacil®). Baquacil is a registered trademark of {insert company name}, SoftSwim is a registered trademark of {insert company name}. Revacil is a registered trademark of {insert company name}.

Made in [the] USA {A picture of the US flag may also appear}

[Mineral cartridge] Lasts [six, four] months

Satisfaction guaranteed.

The Nature² logo is a registered trademark owned by Zodiac Pool Care, Inc.

This product is covered by one or more of the following U.S. Patents: 4,608,247 4,935,116 5,352,369 372,069

To keep your patented Nature² Sanitizer operating properly, it is necessary to change [this, the] cartridge every [six, four] months.

Will not damage your pool equipment

Easy do-it-yourself in-line installation, in minutes [(fits 1 1/2" and 2" rigid PVC pipe)] [includes adapter that fits most aboveground pools]
Just twist onto your existing Nature² Express Assembly
[REPLACEMENT CARTRIDGE FOR NATURE² EXPRESS] FOR [ABOVEGROUND] [AND] [INGROUND] [IN-GROUND] POOLS

Installation is simple. Simple, Do-It-Yourself Installation
In just minutes you can install Nature² Express, activate the cartridge, and start enjoying a crystal clear [Nature²] pool. Nature² Express fits most [aboveground [inground] pools up to 25,000 gallons] [with 1 1/2" or 2" rigid PVC plumbing].

[Nature² Express, This Unit] contains no moving parts [and is unaffected by heavy use, hot weather and water temperature] [and only requires replacing the cartridge every [six, four] months]. [You only have to change the replaceable cartridge every [six, four] months!] Please refer to the operating manual for complete installation instructions.

Turn pool pump off. Secure clamp assembly on the return line. [For aboveground pools with corrugated pipe, use PVC [enclosed] adapter [provided].]

Cut hole in rigid PVC pipe using a power drill and the [enclosed] hole saw [that is provided].

Insert the flow diverter into hole and snap it into place.

Snap dispenser shell onto clamp.

Thread the cartridge into the clamp, turn on pool pump and activate the cartridge. [See] [Refer to your cartridge owner's] manual for start up instructions.

PRODUCT SPECIFICATIONS

Capacity	For 5,000 to 25,000 gallon pools
Cartridge Life	6 months
Run Time	6 hours a day minimum

Installation Process:

Please refer to the Nature² Express Operating Manual for installation instructions.

Refer to the Nature² Express Owner's manual for start-up instructions.

Installation of a Nature² Express replacement cartridge takes just minutes. First turn off the pool pump. Then simply remove the existing cartridge from your Nature² Express Sanitizer and replace it with your new cartridge.

Nature² [G45-VC40] [Cartridge] Owner's Manual

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.

67712-1

EPA Reg. No. 67712-1
EPA Est. No. 67712-FL-001

[For Nature² G Cartridges, Nature² M Cartridges, and Nature² VC Cartridge]
[For Inground and Aboveground Pools [with Cartridge Filters]]
[Features Nature² Technology[†]
{insert product name} with Nature² Technology[†]

IMPORTANT

Pool Owner, save this manual! Builders, leave this manual with the pool owner!

We ask you to take the time to get familiar with this manual.

Thank you for purchasing {insert product name} [with] Nature² [technology[†]]. We believe the more you know, the more enjoyable your family's swimming experience will be - and the more you will reduce the time, effort and cost of maintaining your pool. Pool owners who switch from conventional chemical programs to the Nature² System* spend less time maintaining their pools. Every pool has its own characteristics of water type, amount of sunlight, etc. The recipe [included in this manual] will help insure good water quality for your pool. Remember, your authorized [Zodiac, Nature²] dealer can provide professional advice and service.

SAFETY INSTRUCTIONS - Important information. Please read prior to installation

[see attached page for optional information that may be placed here]

ATTENTION Failure to heed the following can result in permanent injury, [electrocution] or drowning

[ELECTRICAL HAZARD]

[Severe shock will likely occur as a result of a drill or drill cord coming in contact with water. Never allow electric drill or drill cord to come in contact with water. Only plug drill into a Class A (5 Milliampere Trip) protected Ground Fault Circuit Interrupter (GFCI) in accordance with the National Electrical Code Section 680. Please see your drill owner's manual for further safety precautions.]

EQUIPMENT UNDER PRESSURE

Always turn pump off prior to installing or changing Nature² cartridge. Your pump/filter system is operated under pressure and the pressure must be released before you begin work. Please see your pump/filter owner's manual for further instructions.

PREVENT CHILD DROWNING

Do not let anyone, especially small children, sit, step, lean or climb on any equipment installed as part of your pool's operational system. Locate the components of your operational system at least 3 feet from the pool so children cannot use the equipment to access the pool and be injured or drown.

LOW CHLORINE RECIPE

You must strictly follow the low chlorine recipe included in this manual to maintain proper water chemistry and avoid health hazards. Failure to follow these instructions can lead to sickness from bacteria and other noxious organisms.

CAUTION

Precautionary Statement

Hazards to Humans and Domestic Animals

CAUTION

In the unlikely event that a cartridge breaks, mineral media should not be ingested by humans or animals as it may cause gastric distress

First Aid

IF INGESTED: Call poison control center or doctor immediately for treatment advice.

The Nature² [Pool] Sanitizer is designed only for residential swimming pools.

* The Nature² System consists of the patented Nature² technology[†] used in conjunction with a chlorine delivery device or 0.5ppm of an EPA registered chlorine pool product.

† Nature²™ technology[†] consists of the minerals silver and copper.

Note: Bracketed [] information is optional text/picture/diagram. Text separated by a comma (,) denotes and/or options {Bracket Text} is for administrative purposes. Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Nature² Compatibility

Nature² Systems* can be used with all types of pool chemical treatments available except [bromine and bromide based chemicals,] biguanide products (Baquacil¹, Softswim² or Revacil³) and copper based algaecides. (¹A Trademark of {insert company name}, ²A Trademark of {insert company name}, ³A Trademark of {insert company name}.)

Important: When converting [either] a biguanide [or bromine] treated pool to the Nature² System*, the pool must be completely drained and refilled. Then follow the Nature² cartridge start-up procedure below.

Important: Please make sure that the Nature² cartridge you have selected corresponds to your swimming pool size based on gallons of water. Using a Nature² cartridge for an undersized pool may cause staining of the pool.]

Start Up

Before starting up a new [Nature²] cartridge, clean debris and algae out of the pool and [pool] equipment.

Important: Do not install the new cartridge until the pool water is clean and chemically balanced.

Balance pool water before installing [Nature²] [sanitizer, cartridge].

pH	7.4-7.8
Calcium Hardness	200-400 ppm
Total Alkalinity	80-150 ppm

Consult with your [Nature², Zodiac] dealer for specific water balance instructions.

Note: Bracketed [] information is optional text/picture/diagram. Text separated by a comma (,) denotes and/or options {Bracket Text} is for administrative purposes. Punctuation, text size, text font, text color, capital letters, lower case letters, italics, bold and underline may vary on final printed labels. Spelling may vary when alternate spelling is acceptable; for example "algaecide" or "algicide"

Balance the Water

To find out if your pool water is balanced:

- take a water sample to your dealer to be tested regularly, or
- ask your dealer to recommend a pool test kit for water balance.

Element: pH Range: 7.4-7.8	If it's too low:	The surface of your pool can become etched. Metal parts in the pump and plumbing will corrode.	How to fix: Add pH increaser
	If it's too high:	"Scale" forms on the surface of your pool. The water can become cloudy. Equipment can become damaged.	How to fix: Add pH decreaser
Element: Calcium Hardness Range: 200-400 ppm	If it's too low:	Water is less stable. In plaster pools, the calcium is taken out of the plaster, causing the surface to deteriorate.	How to fix: Add calcium hardness increaser.
	If it's too high:	Rough, discolored deposits ("scale") will form on the pool surface and inside pool equipment.	How to fix: Drain or dilute the pool water. Consult your dealer.
Element: Total Alkalinity Range: 80-150 ppm	If it's too low:	It provides no buffer so that you constantly get fluctuating pH readings, which can damage equipment and pool surfaces.	How to fix: Use an alkalinity increaser.
	If it's too high:	White deposits ("scale") form on the tile line. The plaster on pool surface becomes rough or discolored. The water becomes cloudy or milky white.	How to fix: Add acid to bring alkalinity down.

Install the [Cartridge, Sanitizer]

1 Install the cartridge [into your pool filter] after water is balanced. [See, Refer to] [the, your] Nature² {the model/product name may also be inserted here} [vessel] operating manual for additional instructions [regarding your particular model's installation]. {the product name may be used in place of or in addition to the term "cartridge"}

2 [Superoxidize, Superchlorinate] the pool water with chlorine according to manufacturer's instructions to burn off contaminants and activate cartridge.

Important: Initial superoxidation with chlorine is required to burn off contaminants and activate cartridge.

3 Run the circulating pump either:

- 24 hours a day for 4 days, maintaining 1-2 ppm [free] chlorine throughout, or
- 6 hours a day for 14 days, maintaining 1-2 ppm [free] chlorine throughout.

4 Let chlorine dissipate to 0.5 ppm once start up period is completed. Do not enter the pool if the free available chlorine residual is over 3 ppm.

26
33

Recipe

There is one recipe for maintaining clean, clear, sanitized water with minimum time and effort. This recipe provides the easiest and most economical way to care for your Nature² pool.

Low-Chlorine Recipe Once the 4-day or 14-day start-up period is done, allow the free [available] chlorine residual to drop to 0.5 ppm (by reducing the amount of chlorine you add) then:

Ingredients:

Nature² cartridge {product name may be inserted}
 Chlorine granules, tablets, liquid or generator
 pH and total alkalinity adjusting chemicals
 Calcium-hardness increaser, if needed
 Water test kit

When:

Every day
 Once a week
 Twice a week
 As needed

What to do:

Run pump and filter at least 6 hours every day.
 Balance pH and total alkalinity.
 Check chlorine residual; add chlorine to maintain at least [a] 0.5ppm [free chlorine] [range using the chart below].
 If water is hazy, superoxidize with chlorine according to manufacturer's instructions. Additional shocking is recommended following rainstorms or heavy bather load. Do not re-enter the pool if the free available chlorine residual is over 3 ppm.

Add the following amounts of chlorine per 10,000 gallons of water to increase free chlorine by 0.5 ppm

Type of Chlorine Containing Compound	% Active Ingredient	% Available Chlorine Content	Ounce Quantity Required	Gram Quantity Required
Sodium Hypochlorite Liquid	5.25	5.25	12.7	361
Sodium Hypochlorite Liquid	9.2	9.2	7.3	206
Sodium Hypochlorite Liquid	10	10	6.5	184
Sodium Hypochlorite Liquid	12	12	5.6	158
Calcium Hypochlorite	65	64	1.1	30
Dichloroisocyanurate	99	62	1.1	30
Lithium Hypochlorite	29	35	1.9	54
Trichloro-s-triazintrione	99	90	0.7	21
Chlorine Gas, from any source including chlorine generators	100	100	0.7	19

Provide Filtration/Circulation

To manage: You need to:

Circulation Follow the manufacturer's directions for keeping the circulating pump in good working order and operate it at least six hours a day. Consult your [Nature², Zodiac] dealer for optimum run times.

Filtration Check the pool's filter periodically and clean it as recommended by the manufacturer.

Troubleshooting Guide [Consult your [Nature/Zodiac] Dealer for additional assistance or call 1-888-537-6657.]

	Problem	What to look for	Treatment
Cloudy water Frequently caused by improper start up. See section on Start Up [and Install the Cartridge.]	Poor filtration	Slow filter turnover rates	1 Backwash and clean filter. 2 Run filter for 24 hours. 3 Increase run time per day
	Algae growth	Hazy pool water, may have slightly green appearance.	[Superchlorinate, Superoxidize] water with chlorine according to manufacturer's instructions and brush pool walls.
	Unbalanced water	1 High hardness 2 High TDS (total dissolved solids) 3 High pH 4 High total alkalinity	Balance the pool water.
Algae Algae may be caused by insufficient levels of oxidizer and/or inadequate water circulation.	Green algae	Pea green color; attaches to pool walls sometimes colors the entire body of water.	1 Check pH and adjust if necessary. 2 [Superchlorinate, Superoxidize] with chlorine according to manufacturer's instructions and brush pool walls. 3 Repeat steps 1 and 2 until algae is gone.
	Black algae	Black spots on pool walls.	1 Brush affected areas.
	Mustard algae	Yellow or brown film on steps or walls.	2 [Superchlorinate, Superoxidize] water with chlorine according to manufacturer's instructions. 3 Add algicide. 4 Vacuum pool. 5 Repeat steps 1 through 4 until algae is gone.
	Note: Regular algicide treatments are recommended for outdoor pools that experience persistent algae problems. Do not use algae treatments containing either copper or sodium bromide.		
Stains	Blue/green	Copper or iron from pool equipment corrosion or water supply.	1 Adjust pH and total alkalinity to ideal ranges. 2 Vigorously brush stained areas. 3 Add sequestrant.
	Red/brown	Iron or manganese from equipment corrosion or water supply.	4 Run filter. 5 Twelve hours later, [superchlorinate, superoxidize] pool.
	Black	Manganese in water supply.	6 Test and balance water. 7 Test pool water for dissolved metals.
	Metal tarnishing	High native mineral content in water; unbalanced water.	Clean with soft cloth and mild detergent. Test water for minerals; use a sequestrant; maintain water balance.
Scale	Crusty deposits on pool surfaces.	High pH and high total alkalinity	Adjust pH and total alkalinity to ideal ranges.
		High TDS (total dissolved solids) or high hardness levels	1 Replace a volume of pool water with water low in hardness and dissolved solids. 2 Use sequestrant to prevent scale buildup if high hardness levels are a continuing problem.

[If you need further assistance, please call 1-888-537-6657.]

JAN 14 2004

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 62712-1

Note: Bracketed [] information is optional text/picture/diagram. Text separated by a comma (,) denotes and/or options {Bracket Text} is for administrative purposes. Punctuation, text size, text font, text color, capital letters, lower case letters, italics, bold and underline may vary on final printed labels. Spelling may vary when alternate spelling is acceptable; for example "algicide" or "algicide"

Nature² [Cartridge, Sanitizer] Replacement Intervals

[Use the month indicator ring on the top of the [cartridge, unit]] [Monitor the cartridge replacement light on the {insert product name} control panel] to identify the date on which the cartridge should be replaced.] Always turn pump off prior to installing or changing [a] [Nature², {the model name may be inserted here}][cartridge]. Your pump/filter is operated under pressure and the pressure must be released before you begin work. Please see your pump/filter owner's manual for further instruction.

A cartridge lasts [six, 6, four, 4] months or one season, whichever is shorter. The cartridge should not be used longer than [six, 6, four, 4] continuous months.

{The frost-belt and sun-belt information is optional language that may be used in some but not all owner's manuals}

[In frost-belt regions (3-6 month pool season):

Discard your used system when you close your pool at the end of the season. Install a new system when you open your pool in the spring.]

[In sun-belt regions (7-12 month pool season):

Replace your Nature² cartridge every 6 months whether or not you plan to use the pool for swimming.]

Winterizing Your Pool

Use these steps as a guide. Consult your dealer for specific information [in, on] your area.

Warm Climate

- 1 Reduce the number of hours the pump runs since the cooler weather decreases the spread of algae and other pollutants.
- 2 There is no need to [superoxidize, superchlorinate] the pool during cool weather unless the water becomes cloudy (as may occur after a winter storm). See Cloudy Water in Troubleshooting section.

Cold Climate

- 1 Check total alkalinity and pH of pool to make sure that they are in proper balance.
- 2 Vacuum the pool bottom to remove any debris or other potential contaminants.
- 3 [Superoxidize, Superchlorinate] the pool with chlorine according to manufacturer's instructions to clear the water.
- 4 Add a winter algaecide following manufacturer's instructions.

Important: Do *not* use a winter algaecide with copper in it. [This will void the Nature² no-stain warranty.]

- 5 Backwash the filter.
- 6 Drain part of the pool water. The amount to drain varies from one part of the country to another. Consult your dealer for advice.
- 7 Remove the [Nature², sanitizer system] cartridge and discard with household trash.
- 8 Winterize the pipes with pool antifreeze following manufacturer's instructions.
- 9 Drain the water out of all equipment (pump, filter, etc.)
- 10 Store all baskets, hoses and cleaning equipment, indoors if possible.
- 11 Cover the pool with a winter cover.

Disposal

After [six, four] [months] of use, discard [Nature², {product name may be inserted}] cartridge in household trash. Do not save the [cartridge, it] for re-use. The [cartridge, {product name may be inserted}] is manufactured with the mineral media sealed inside. In the unlikely event [a cartridge, {product name may be inserted}] breaks, remove it and vacuum out any media introduced into the pool.

{This warranty statement is optional}

Limited Warranty

Nature² Limited Warranty

The limited warranties contained within this document are the only warranties given with your [Nature², *{insert model name}*] [Sanitizer, Cartridge] and supercede any prior warranties. **All other warranties, expressed or implied, including the implied warranty of merchantability or the implied warranty of fitness for a particular purpose are hereby disclaimed.** Our sole obligation under this warranty, and the purchaser's sole remedy, is limited to repair or replacement of the [Nature², *{insert product name}*] [Sanitizer, cartridge], [or one of its parts]. The Nature² warranty applies to the original owner only.

[THE LIMITED WARRANTIES OF THE [NATURE², *{insert product name}*] [Cartridge[s]] [Inground] [SANITIZER[s]] [ARE]]: [The] [Nature², *{insert product name}*] [Sanitizer, cartridges] [are, is] warranted to be free of defects in materials and to perform satisfactorily for a period of [six, four] months from the date of purchase. Nature² *{insert model name}* [Sanitizer, cartridges] [are, is] warranted not to cause copper staining in your pool. This limited warranty requires that you exercise reasonable care of your pool and keep water in balance at all times and not use a copper-based algaecide. This [limited] warranty does not cover discoloration to chromium fittings. This warranty does not cover cartridges used with any biguanide products such as Baquacil[®] or Soft Swim[®] [or any products containing Bromine or Bromine-based chemicals]. If the cartridge is defective and does not perform satisfactorily for the entire [six, four] months, we will [make a prorata rebate based on your actual period of use. **You are responsible to pay the below-indicated percentage on the then applicable retail cost: <1 month-0%; 1-2 months-25%; 3-4 months-50%; 5-<6 months-75%.**][replace your *{insert product name}*] [cartridge, sanitizer.]

EXCLUSIONS FROM WARRANTY

[The] [Nature², *{insert product name}*] [Sanitizer, cartridge[s]] [are, is] designed for use on [inground] [and] [aboveground] pools [with cartridge filters] from [5,000 to 25,000] [5,000 to 45,000] [10,000 to 45,000] gallons [depending on cartridge model]. If it is used in any other application, the warranty is void, and the purchaser and/or pool owner releases the manufacturer from [any and] all claims related to the use of the Nature²® [Sanitizer, Express, Cartridge].

This warranty does not cover problems arising in whole or in part from purchaser's negligence, misuse or abuse, improper maintenance or storage, accident, improper installation, improper application, failure to follow all appropriate safety precautions, Acts of God, abnormal weather conditions, damage from plants or animals, and improper use of chemicals.

This warranty specifically excludes all incidental or consequential damages, except where state law requires them to be paid. This warranty gives you specific rights. You may have other rights that vary from state to state.

TO SUBMIT A CLAIM

Report claims to Zodiac Pool Care, Inc. by calling 1-888-537-6657. Only the original purchaser may submit a claim under this limited warranty. [All] Claims must be accompanied by an original purchase receipt.

Assembly

The Nature² CF consists of 4 sanitizer elements, 2 end caps and 2 end spikes.

Sanitizer Elements

Endcaps

Spikes

Depending upon the size of your swimming pool cartridge filter, these parts can be assembled as a bundle of 4 sanitizer elements, or as 2 sticks of 2 elements each.

NOTE: You should first attempt to use the bundle assembly.

Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.

67712-1

Decide which Nature² CF assembly is right for your pool filter.

- 1 Turn off the pump and disassemble the pool filter as you normally would to clean the cartridge.
- 2 Check to see if the endcap fits easily into the core of your cartridge filter;
 - if it does, go to Bundle Assembly
 - if it does not, go to Stick Assembly

Punctuation, text size, text font, text color, capital letters, lower case letters, italics, bold and underline may vary on final printed labels. Spelling may vary when alternate spelling is acceptable; for example "algacide" or "algicide"

{Optional manual Language/pictures/diagram }

Bundle Assembly

The hole in the center of the endcap accommodates a center rod should your filter have one.

- 1 Lay an end cap on a flat surface and snap the 4 sanitizer elements into it,** so that the tabs are pointing up.

- 2 Snap the other end cap on top.**

Important: Be sure that the notch on each end cap lines up together to accommodate an air bleed tube.

Stick Assembly

Important: Use only after attempting the Bundle Assembly.

1 Snap two sanitizer elements together so that each tab and slot line up.

2 Snap the end spike to one end.

NOTE: Once assembled, do not attempt to separate the sanitizer elements as the tabs may break.
