FOR SUPERIOR PROTECTION

## Buggspray®

INSECT REPELLENT  
*for Biting Flies*

DEET is a great mosquito repellent but falls when the biting flies get thick. This formula uses two fly repellents plus DEET to make it effective against a wide variety of insects. Due to human variability, user may experience an occasional bite within the protection time. This product is ideal for fishermen (with those ankle biters in the bottom of the boat), hunters, golfers, gardeners, & hikers.
