EPA Registration No. 67883-1 [] 55 Gallons

DIRECTION FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

RICE SEED TREATMENT

Apply 25 fluid ounces of HYGRA™ Yield Enhancing Rice Seed Treating Agent per 100 lbs of rice seed.

The seed treatment may be carried out any time prior to planting. However, the moisture level of the seed must not exceed 14% for long-term storage.

Apply correct amount of undiluted HYGRA™ Yield Enhancing Rice Seed Treating Agent to the rice seed to insure thorough, even treatment, using commercial seed coaters, such as GUSTAFSON S- series, or SEED MATE.

USE PRECAUTIONS

Not for use on agricultural establishments in hopper-box, planter-box, slurry-box, or other seed-treatment applications at or immediately before planting.

HYGRA™ is compatible with other seed treatments, when used consecutively.

~~HYGRA™ is compatible with commonly used fungicides.~~ OK MB 4/5/95
