Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 –
General housekeeping of items including entity name and address
Product Name: 5307 Corn
EPA Registration Number: 67979-22
Application Date: November 20, 2016
OPP Decision Number: 534965

Dear Ms. Davis:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

NOTIFICATION

67979-22

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

11/02/2017

5307 Corn

**Insect Control Protein
Manufacturing-Use Product
(OECD Unique Identifier SYN-Ø53Ø7-1)**

Active Ingredient:

Bacillus thuringiensis eCry3.1Ab protein and the genetic material necessary for its production (via elements of vector pSYN12274) in 5307 Corn (SYN-Ø53Ø7-1)0.00034 – 0.01782%*

Other Ingredient:

Phosphomannose isomerase protein and the genetic material necessary for its production (via elements of vector pSYN12274) in 5307 Corn (SYN-Ø53Ø7-1)0.00004 – 0.00088%*

*Percent dry weight, whole plant

CAUTION

Keep Out of Reach of Children

EPA Registration Number 67979-22
EPA Establishment Number 66736-NC-1

NET CONTENTS: _____

DIRECTIONS FOR USE

Use of this plant-incorporated protectant in a manner inconsistent with the terms of this label is a violation of Federal law. 5307 Corn may only be used for breeding purposes, agronomic testing, increasing inbred seed and producing hybrid seed corn up to a total of 20,000 acres per county and up to a combined United States (U.S.) total of 250,000 acres per plant-incorporated protectant active ingredient per year. Commercial plantings of this product for the purposes of grain production and controlling insect pests are prohibited.

5307 Corn may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.

There are no refuge requirements for planting of 5307 Corn.

STORAGE AND DISPOSAL

Do not contaminate bodies of water by storage or disposal.
