Subject: WST Iodine Cartridge Release System
EPA Registration No. 68158-3
Submission Dated March 13, 2000

Dear Mr. Von Medlin:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, to comply with the Agency's February 17, 2000 letter, will be acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended label.

1. The name change from "WST Iodinated Resin Cartridge" to "Iodine Cartridge Release SystemTM" is acceptable **only** for your microbiological water purifier (EPA Registration No. 68158-3). The name of your proposed surface disinfectant must be changed in order to distinguish between the water purifier and surface disinfectant. Two totally different registered products produced by the same company with the same name could be considered misleading.
2. Add the following statements under the STORAGE AND DISPOSAL statement:
 - a. Do not contaminate water, food or feed by storage and disposal.
 - b. Securely wrap the cartridge in several layers of newspaper and discard in trash.

CONCURRENCES

SYMBOL	7510C						
SURNAME	Mitchell						
DATE	5-15-00						

A stamped copy of your labeling is enclosed for your records. Submit one copy of the finished label prior to release of the product for shipment.

If you have any questions concerning this letter, please contact Wanda Mitchell at (703) 308-6264.

Sincerely,

Robert S. Brennis

PRECAUTIONARY STATEMENTS

Hazards to Humans

CAUTION: Under certain conditions the product water can contain small amounts of iodine. Persons who are allergic to iodine or have thyroid problems and pregnant women should consult their physician prior to use. In the event of a rupture in the plastic cartridge housing, contact with the iodine resin may cause eye and skin irritation. Avoid direct contact with eyes, skin, or clothing.

ENVIRONMENTAL HAZARDS: This product may be toxic to fish. Do not discharge into lakes, streams, ponds or public waters, unless in accordance with an NPDES permit. For guidance, contact the regional office of the Environmental Protection Agency.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IN THE EVENT, THE IODINE RESIN IS SWALLOWED: If conscious, drink large quantities of water, transport to a hospital and observe for signs of iodine toxicity. If no hospital is available, induce vomiting, drink large quantities of water, and observe for adverse reaction. If unconscious or convulsing, transport to a hospital immediately. Never give anything by mouth to an unconscious person.

CONTACT WITH EYES: Wash thoroughly with water for 15 minutes. If irritation persists, see a physician.

CONTACT WITH SKIN: Wash with mild soap and water. If irritation persists see a physician. Wash contaminated clothing prior to reuse.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Refer to accompanying *Operation and Service Manual* for use directions.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place inaccessible to children and pets.

DISPOSAL: Securely wrap cartridge in newspaper and discard in trash.
