Mycogen Seeds c/o Dow AgroSciences LLC EPA Reg. No. 68467-11

- 2. The subject registration will be limited to Cry1A.105 and Cry2Ab2 [Bacillus thuringiensis Cry1A.105 and Cry2Ab2 proteins and the genetic material necessary (vector PV-ZMIR245) for their production in corn event MON 89034 (OECD Unique Identifier: MON-89Ø34-3)] x Cry34Ab1 and Cry35Ab1 [Bacillus thuringiensis Cry34Ab1 and Cry35Ab1 proteins and the genetic material necessary (vector PHP17662) for their production in corn event DAS-59122-7 (OECD Unique Identifier: DAS-59122-7)] for use in field corn.
- 3. This product may be used for breeding purposes, agronomic testing, increasing inbred seed stocks, and producing hybrid seed on up to a total of 20,000 acres per county and up to a combined United States (US) total of 250,000 acres per plant incorporated protectant (PIP) active ingredient per registrant per year. Commercial plantings of this product, for the purposes of grain production and controlling corn insect pests, are prohibited.
- 4. This plant-incorporated protectant may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.
- 5. Submit/cite all data required for registration of your product under FIFRA § 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
- 6. Submit/cite all data, determined by the Agency to be acceptable, required to support the individual plant-incorporated protectants in MON 89034 corn and Herculex® RW Insect Protection corn within the timeframes required by the terms and conditions of EPA Registration Numbers 524-575 and 68467-5, respectively. Failure to comply with this term will subject this registration to cancellation in accordance with FIFRA section 6(e).

Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

-HA t. Jarte-

Keith Matthews, Acting Director Biopesticides and Pollution Prevention Division (7511P)

# **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

This plant-incorporated protectant (PIP) may be combined through conventional breeding with other registered plant-incorporated protectants that are similarly approved for use in combination, through conventional breeding, with other registered plant-incorporated protectants to produce inbred corn lines and hybrid corn varieties with combined pesticidal traits.

This product may be used for breeding purposes, agronomic testing, increasing inbred seed stocks, and producing hybrid seed on up to a total of 20,000 acres per county and up to a combined United States (US) total of 250,000 acres per plant incorporated protectant (PIP) active ingredient per registrant per year. Commercial plantings of this product, for the purposes of grain production and controlling corn insect pests, are prohibited.
