T-22 GRANULAR BIOLOGICAL FUNGICIDE

ACTIVE INGREDIENT

T. ichoderma harzianum Rifai strain KRL-AG2.....1.15%*

INERT INGREDIENTS98.85%

TOTAL.....100.00%

*Contains at least 1×10^7 colony forming units per gram dry weight

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

In case of contact, flush eyes with plenty of water. Get medical attention if irritation persists.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin or eyes. Avoid breathing dust. Do not store near food or feed.

PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear:

- Long sleeved shirt and long pants
- Shoes plus socks

•When dumping or opening bags, or other operations where dusts may be created, wear goggles and OSHA TC-21C dust mask for biological products.

(MSHA/NIOSH
OSHA TC-21C dust mask for
DUST MASK (MSHA/NIOSH TC-21C)

Follow manufacturer's directions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendation:

User should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using toilet.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater.

GENERAL INFORMATION

T-22G is a biological fungicide for application to soil, turf, or greenhouse planting mixes. For best results, apply when soil temperatures are above 50 degrees Fahrenheit; at cooler temperatures, T-22G will provide little control, although roots may still be colonized. T-22G will provide more effective disease control in neutral or acidic soil conditions than in alkaline soils.

Note: T-22G is a biological fungicide specifically for control of soil-borne plant pathogens. Failure to follow precautions on this label may result in poor disease control.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected workers may be in the area during application. For any requirement specific to your state or tribe, consult the agency responsible for pesticide regulation.

IN-FURROW SOIL TREATMENT

ALL CROPS: For root colonization and reduction in disease caused by *Pythium* spp., *Rhizoctonia solani*, or *Fusarium* spp.

apply T-22G from a granular applicator at the rate of 10 lb/acre. For best results apply granules using a metering device, such as a Gandy applicator or equivalent, mounted to deliver granules into the furrow just behind the furrow opener.

BROADCAST APPLICATION TO TURF

ESTABLISHED TURF: Apply 1 - 3 pounds of T-22G per 1000 square feet of turf, or 40 - 60 lbs per acre for golf course fairways. The first application should be made to new spring growth to promote root colonization by *Trichoderma* and to reduce disease caused by *Pythium* spp. and *Sclerotinia homeocarpa*. Retreatment may be necessary if conditions occur which reduce inoculum levels. In general, a second application four weeks after the initial treatment is sufficient to establish *Trichoderma* roots.

NEW TURF SEEDINGS: Incorporate 2 - 4 pounds T-22G per 100 square feet into the soil surface at the time of grass seeding.

GREENHOUSE SOIL AMENDMENT

ALL CROPS: Mix T-22G with greenhouse soil or planting mix at a rate of 1 to 1.5 pounds of T-22G per cubic yard (loose) planting mix. For best results, thoroughly incorporate T-22G into potting mixes during mix preparation or pot filling, or incorporate into planting beds by raking or tilling.

TRANSPLANTS

TREES, SHRUBS AND OTHER TRANSPLANTS: Apply T-22G granules to the planting hole at a rate of 1 - 8 oz and incorporate into the planting soil or soil mix.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.;

PPE required for early entry in treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, are:

- coveralls
- waterproof gloves
- shoes plus socks

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool dry place. Do not freeze or expose to temperatures above 80 degrees Fahrenheit. Keep container tightly closed when not in use and avoid prolonged storage.

NOTICE TO BUYER AND SELLER: Seller warrants that this product conforms to the description on the label and is reasonably fit for the purposes stated on the label when used and stored in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to conditions not reasonably foreseeable by the Seller, and Buyer and User assume the risk of any such use. Seller disclaims all other warranties expressed or implied, including any warranty of fitness or merchantability. Seller shall not be liable for consequential, special or indirect damages resulting from use or handling of this product, and seller's sole liability and buyer's and user's exclusive remedy shall be limited to refund of the purchase price.

This product is sold only for uses stated on its label. No express or implied license is granted to use or sell this product under any patent in any country except as specified.
